The Quincy Patriot.

SATURDAY, JULY 6, 1872.

Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.

Anonymous communications are not published.

Fourth of July.

The morning of our National Holiday was ushered in at sunrise by the ringing of bells, blowing of horns, firing of guns, crackers, torpedoes, squibs, &c. During the night "Young America" kept very quiet, and committed fewer rowdy acts than usual; for said kindness they certainly have the thanks of our citizens generally.

At the break of day, the Granite boys were on a stir, and about five o'clock they had their tub in front of Badger's shop, ready for a squirt, but she obstinately refused, and it was some minutes before it could be made to throw any water. The engine has been for some little time out of repair; her bottom is quite rotten and she leaks badly. For the safety of property in that part of the town, the tub should be immediately put in good condition.

After exercising the brakes for half an hour, the company returned to the engine house, where a most bountiful breakfast awaited them. The tables were finely decorated with flowers, and made a pleasing and attractive appearance. Chief Engineer Hall and two of his assistants, —Litchfield and Gragg,—a Reporter and other invited guests were present to partake of the hospitalities of the Granite boys. Before indulging in the good things before them, Capt. John Farrell presented Engineer Gragg, with a splendid fireman's hat, in the following neat and appropriate

ADDRESSES.

Mr. Gragg.—The esteem in which a man is held, is best known among his neighbors, and although a prophet is without honor in his own country, yet there are times when a man has his reward among his fellow men.

For many years it was the pleasure of this Company to have you with them, and your devotion and close attention to the duties that fell upon you, from a member to a foreman, were faithfully performed with great credit to yourself and honor to the Company. And now, Sir, as you have gone from us into a higher line of duty, allow me in behalf of the members of the Granite Engine Company, No. 3, to present you with this Engineer's hat, as a token of respect and esteem of your late associates. It is their wish that you will wear it proudly and with honor to yourself and district, and live long to enjoy the gift that the Granite Engine Company bestows to you this Fourth of July, 1872.

Engineer Gragg on receiving the hat, thanked the Company kindly for their gift. He said he received it not for its intrinsic value, but for the token of esteem it bore. Words were inadequate to express his feelings, but he hoped the Company would ever go on prospering, and whenever an opportunity offered to aid them, they may rest assured that he would not be found wanting.

On the back of the hat, on a neat silver plate, were the following words:—

PRESENTED TO

WILLIAM GRAGG,
BY THE
GRANITE ENGINE COMPANY,
WEST QUINCY,

July 4th, 1872.

On front, in large letters was "ENGINEER,
WEST QUINCY, W. G."

Began eight and nine o'clock many citizens started for the "Willow House," to witness the Regatta; some on foot, others in express wagons, and many in private carriages,—and at eleven o'clock the beach was well covered with people, several hundred being present. There was an excellent breeze and the boats had a fine sail. The following is a list of the boats entered, the time made, &c., as handed to us by the judges:

KEL BOATS.

Yacht Shark, owned and commanded by C. Underwood; length 21 feet seven inches.

Fairy Queen, owned and commanded by P. Chuback; length 19 feet; actual time, 1 hour and 34 minutes; allowed time, 1 hour, 32 minutes and 38 seconds. Third prize—silver goblet.

Minnehaha, owned by Penniman & Curtis, commanded by Frank French; 18 feet, 3 inches in length; actual time, 1 hour, 18 minutes, 30 seconds; allowed time, 1 hour, 15 minutes, 6 seconds. First prize—Marine glass.

Joker, owned by H. N. Page, Milton commander; 15 feet in length; actual time, 1 hour, 46 minutes, 30 seconds; allowed time, 1 hour, 40 minutes, 14 seconds.

Right Bower, owned by W. G. Gill, Packard commander; length, 15 feet, 10 inches; actual time, 1 hour, 31 minutes, 2 seconds; allowed time, 1 hour, 25 minutes, 2 seconds. First prize—Marine glass.

Center Boards. Yacht Lilly, Capt. Newcomb; 16 feet, 5 inches in length; actual time 1 hour, 20 minutes, 2 seconds; allowed time, 1 hour, 20 minutes, 2 seconds. First prize—Marine glass.

Alice, Capt. Joseph Fenno; 15 feet, 6 inches in length; actual time, 1 hour, 22 minutes, 45 seconds; allowed time, 1 hour, 21 minutes, 21 seconds. Third prize—Silver goblet.

Truthful James, Capt. N. E. Glover; 15 feet, 6 inches in length; actual time, 1 hour, 23 minutes; allowed time, 1 hour, 21 minutes, 36 seconds.

Heathen Chime, Capt. H. A. Keith; 14 feet, 9 inches; actual time, 1 hour, 23 minutes, 8 seconds; allowed time, 1 hour, 20 minutes, 35 seconds. Second prize—Marine glass.

Eight hundred rare foreign evergreens have been set out at Mt. Vernon.

Swash, Capt. Andrew Whiting; 11 feet, ten inches; not taken.

The schooner yacht Dolly Varden, Capt. Cleverly, of Pettuck's Island, and the sloop Vilda, Capt. Mears, sailed over the course in company with the competing yachts, the former making the trip in 1 hour and 18 minutes, and the latter in 1 hour and 20 minutes.

ROWING MATCH.

This part of the programme attracted more attention and was better enjoyed than the sailing regatta, by the gathering on shore. Five boats were entered for the prize, and some fine rowing was witnessed. For some reason the judges failed to give us the distance or the time made by each. The prize of a silver goblet was awarded to Clarence Underwood.

THE TUB RACE

was a novelty to most of the spectators, and created considerable merriment.—One or two of the contestants tried common wash-tubs, but found to their disappointment, that no sooner were they ready for a squirt, but she obstinately refused, and it was some minutes before it could be made to throw any water.

The judges appeared somewhat ignorant in planning for this race, and are as yet undecided as to whom the prize belongs. We believe it would be a good thing to have the tub race and rowing match again, and define distinctly what would be required.

District Court of East Norfolk.

MONDAY.

The Court room on this morning was quite full. It had been whispered about town that four individuals, who had caused the "Naval Brigade" many sleepless nights,—to say nothing about the thorough drenching by the rain, on Tuesday night previous, and the weeping, wailing and gnashing of teeth,—had been arrested about three o'clock, on Sunday morning, loading a vessel with sand at Full Moon, which they intended to sell at Boston for ballast.

Many spectators therefore, were present, expecting no doubt to hear some amusing and hairbreadth escapes, which the noble band of officers had undergone in capturing the prisoners. But, alas! how often is poor human nature doomed to disappointment. The said stealers pleaded guilty, and was fined \$8 and costs; amounting to \$12.39 each. They gave the following names: Daniel McDonald, John McCarty, John W. Thompson, Daniel Sweeny, all of Boston.

Marin Bramley who resides near Quincy Adams station, in this town, was arrested by State Constable Porter, for evading fare, on the O. C. Railway. Pleaded guilty, and was fined \$5 and costs; amounting to \$13.75 cents. His wife stepped up and paid the fine and costs, but told her wicked half, that the next time he did that thing, she should let him go to the House of Correction.

George Sheridan was next before the Court for Larceny. He had been to work for a short time at South Weymouth, but becoming impressed about 3 o'clock on Sunday morning last, with a desire to see and hear the Irish Band, and in the heat of the moment, was so absent minded as to mistake Wm. Healy's vest pocket and take all the currency there was, and started for the "Jubilee." About five A. M., Healy missed his boots and money and notified Detective Hammond of the State Police of the fact.

Soon afterwards the officer was on the road. When near Quincy, Finny was some quarter of a mile ahead, and turning round a mutual recognition took place and Finny started for the woods. Hammond then started for Boston and saw his man again on Dorchester avenue. This time he made a sure thing, and brought him into Court this morning. He pleaded guilty and was sentenced to the House of Correction for two months.

TUESDAY.

This morning Thos. Hartley of Quincy was brought before the Court for an assault. The plaintiff acknowledged satisfaction, and the defendant was discharged by paying costs,—amounting to \$6.85.

The case of Catherine Ryans, of Weymouth, for being a common seller, was opened, but the defendant being absent, the case was continued.

WEDNESDAY.

John Gallagher of Bridgewater, was before the Court for drunkenness. Fired \$3.00 and cost amounting to \$7.85.

The Granite stone cutter's association of C. is endeavoring to extend the strike throughout the East.

FRIDAY.

Thomas J. Sheridan of Cohasset was before Judge Bumpus this morning for assault on his mother. He had repeatedly told her to keep off his premises, but on this occasion she seemed determined not to leave his house, in which she claims an interest, and was accordingly rather roughly handled by her son-in-law. He was fined \$5 and costs, amounting to \$22.20.

MELANCHOLY ACCIDENT.

A serious accident occurred in Boston on Monday evening last, to John Wells, who resides on the Brattell place in this town. From what we can learn regarding the accident, it appears that he was returning from Chelsea, and sat on the steps of the front platform of the car, while the cars were waiting for the closing of the draw on Charlestown bridge. He apparently was dozing and when the car started was thrown off, and was drawn under the wheels, and was also run over by one of the Bunker Hill cars, which was immediately behind. His left leg was shockingly crushed and he was otherwise injured. He was taken to the City Hospital, and amputation of the limb was found necessary. He died at the Hospital the next day. He leaves a wife and four children.

The residents of Milton are discussing the propriety of erecting a memorial hall. Nearly 3,000,000 letters went to the Dead Letter Office last year. Four hundred thousand of them had no stamps, \$3,000 had no address. They contained \$92,000 in cash, \$5,000,000 in drafts and checks, and 3,026 in photographs.

Gold mining is carried on briskly at Gaysville Vt., about twenty men are employed.

Four hundred rare foreign evergreens have been set out at Mt. Vernon.

Second Congressional District.

Who shall represent it in the next Congress?

The election soon to ensue, will be enlivened not only by the Presidential election and the usual party agitations and controversies, but will have an additional excitement in this section of the State, from the necessity of selecting a new member of Congress to represent the Second District. Hon. Oakes Ames, who for ten years past has held this prominent position, now voluntarily and most emphatically withdraws from the race. Mr. Ward, of Weymouth, is the man to whom the election is now referred to, and to whom the postmaster can now be regarded as free from encumbered, and open to all contestants. We think it will be decided, without division of sentiment, that the northern portion of the District will have, and of right ought to have, the nomination of this important public officer. Certainly, Bristol County, having possessed the incumbent for more than a decade, will be content with past favors without pressing new aspirants.

Taking it then for granted, that our district has an undeniable claim for the candidacy, the next and natural question is, who shall that candidate be? The indispensable qualifications for any selection should be, first, an undivided and disinterested republican, having both the confidence of the great party the candidate is to act with, and the respect of the general community to which he is to serve. And secondly, he should be an intelligent, active, vigorous, live man, not removed either by age or inclination, by professional exclusion, or by the absorbing interests of wealth or business, from active sympathy and ready communication with the mass of every day, busy, and industrious people he is to represent. Congress has not the slightest need of passive orators, or special pleaders for pet schemes, or of plotters for gigantic enterprises. That body has need of shrewd and careful business men, who will transfer to the halls of legislation the honest caution, and strict attention to public affairs, which has marked their private enterprise and career.

Among the names referred to in connection with this position, that of Hon. F. A. Hobart of Braintree, is the most frequently and most deservedly mentioned. Mr. Hobart has been identified with the Republican organization from its origin; his first vote, and every one since has been cast with it; he has been a steadfast adherent to its requirements, and an unflinching advocate of its principles. Seventeen years in succession he has been chairman of the Republican Committee in his own town; has been delegated from Braintree to serve in nearly every State, Congressional, County and Senatorial Convention of the party; he has served honorably on both the District and the State Central Committees. Nominated when twenty-three years of age as a representative to the State Legislature, he has been twice chosen to that place, being at times the special choice of the Soldiers, as well as that of his political associates. He has been three times elected to the State Senate, and in that body has officiated on the most important Committees—one year acting as chairman of the Committee on Railways, Federal Relations, and Women Suffrage. During these periods he has also held responsible town offices, and has carried on a large business in manufacturing in Braintree, with a store on Pearl Street, Boston. Such a record needs no comment, for it shows his reliability as a Republican; the esteem in which he is held by his fellow citizens, the admirable fitness from extensive legislative experience for Congressional service and duty, as well as his thorough business qualifications for any position of responsibility and honor for which he may be selected. Few men with us, have so general acquaintance with public men and public affairs, and moving with the people, sharing their sympathies and understanding their wants, we predict that Mr. Hobart will receive from this section of the District, the most cordial support for the nomination, believing as we do that it could fall to no wretched citizen, or more sincere and sterling Republican.

Many spectators therefore, were present, expecting no doubt to hear some amusing and hairbreadth escapes, which the noble band of officers had undergone in capturing the prisoners. But, alas! how often is poor human nature doomed to disappointment. The said stealers pleaded guilty, and was fined \$8 and costs; amounting to \$12.39 each. They gave the following names: Daniel McDonald, John McCarty, John W. Thompson, Daniel Sweeny, all of Boston.

Marin Bramley who resides near Quincy Adams station, in this town, was arrested by State Constable Porter, for evading fare, on the O. C. Railway. Pleaded guilty, and was fined \$5 and costs; amounting to \$13.75 cents. His wife stepped up and paid the fine and costs, but told her wicked half, that the next time he did that thing, she should let him go to the House of Correction.

George Sheridan was next before the Court for Larceny. He had been to work for a short time at South Weymouth, but becoming impressed about 3 o'clock on Sunday morning last, with a desire to see and hear the Irish Band, and in the heat of the moment, was so absent minded as to mistake Wm. Healy's vest pocket and take all the currency there was, and started for the "Jubilee." About five A. M., Healy missed his boots and money and notified Detective Hammond of the State Police of the fact.

Soon afterwards the officer was on the road. When near Quincy, Finny was some quarter of a mile ahead, and turning round a mutual recognition took place and Finny started for the woods. Hammond then started for Boston and saw his man again on Dorchester avenue. This time he made a sure thing, and brought him into Court this morning. He pleaded guilty and was sentenced to the House of Correction for two months.

TUESDAY.

The case of Catherine Ryans, of Weymouth, for being a common seller, was opened, but the defendant being absent, the case was continued.

FRIDAY.

John Gallagher of Bridgewater, was before the Court for drunkenness. Fired \$3.00 and cost amounting to \$7.85.

The Granite stone cutter's association of C. is endeavoring to extend the strike throughout the East.

SUMMARY OF NEWS.

The London Garden states that there are eighteen thousand acres of market gardens in the neighborhood of that city.

A Maine man has just built a handsome residence; in finishing it sixty kinds of wood were used, all of which grew up on his own land.

The city of Salem has subscribed for the "Nursery" to circulate in the public schools. A capital idea.

AN ACT In Relation to Sealing Weights and Measures.

Be it enacted, &c., as follows:

SECTION 1. All persons using scales, weights, measures, and containers for the sale of any article, shall have them adjusted, sealed, and certified by the State Surveyor of Weights and Measures in the city or town in which they reside or have their usual place of business, and shall use the same in their trade or business, with a full day among the islands and charming scenery of the lake, passing one night at the Pavilion, Walfboro' and the second at the Pemigewasset House, Plymouth. It is anticipated making the excursion, one of thorough enjoyment and it is hoped every member of the association will find it convenient to join therein. The party will be exclusively confined to members of the Association and their ladies. Association now numbers some one hundred and thirty members.

Some of the largest steamships burn eight hundred tons of coal crossing the Atlantic Ocean.

THE EDITORIAL EXCURSION. The Executive Committee of the Massachusetts Press Association have arranged the annual excursion to Lake Winnipesaukee on Tuesday, the 16th inst., occupying three days, visiting Alton Bay, Walfboro', Centre Harbor and Plymouth, with a full day among the islands and charming scenery of the lake, passing one night at the Pavilion, Walfboro' and the second at the Pemigewasset House, Plymouth. It is anticipated making the excursion, one of thorough enjoyment and it is hoped every member of the association will find it convenient to join therein. The party will be exclusively confined to members of the Association and their ladies. Association now numbers some one hundred and thirty members.

THE SUBSCRIBER having leased the STONE YARD recently occupied by ADAMS GRANITE COMPANY, near the South Quincy Depot, is prepared to execute

ALL KINDS OF

Granite Work, Building, Monumental and Cemetery Work, to ORDER.

A. NUTTING, Quincy, June 29.

NOTICE.

THIS is to give all persons trusting my Wif's MARY M. LUZARDER, as I shall not pay any debts of her contracting after this date. MOSES LUZARDER, June 22-38.

FOR SALE.

ABOUT 10 Acres of SALT MARSH, on Town River, Quincy.

FOR SALE.

AN ACT In Relation to Sealing Weights and Measures.

The Quincy Patriot.

SATURDAY, JULY 6, 1872.

Single Copies 5 cents.

FOR SALE AT
The Old Colony & Newport Depot, Boston,
E. & D. Webb's Store, West Quincy,
Southern's Periodical Store, Quincy, and at
THE PATRIOT OFFICE.

REAL ESTATE SALES. George W. Park bought of Luke Rideout five acres of land with building for \$2500.

Newton Churchill bought of James M. Riley 43,882 feet of land, at Wollaston on Grove street and Hillsdale Avenue for \$3878.

Wollaston Land Associates bought of Lucia W. Lovell 21,279 feet of land on Beale and Newport Avenue for \$15,000.

Walter T. Babcock bought of Noah Cummings about two and one sixth acres on Adams street, for \$3220.

BRAINTREE. David B. Bates sold to James T. Stevens *et al.* an undivided third of two acres on Monatiquot river for \$1500.

Elijah W. Jones *et al.* sold to Charles Barnard a lot of one acre with buildings for \$2700.

NEWSPAPER POSTAGE. The rate on transient newspapers is now one cent prepaid by stamp, for two ounces or less. The new law for this went into effect this week. The postage on circulars, newspapers and others transient printed matter, which under the old law was two cents for every four ounces or less, is now one cent for every two ounces or less.

GASTRONOMIC. At the Chorus Ball last Monday night, extensive preparations were made for appeasing the appetites of the multitude. There were seats at the tables for about two thousand persons at one time. It kept the large battalion of waiters busy attending to their wants. There were provided for the occasion 800 pounds of turkey, 400 pounds of tongue, 600 pounds of ham, 500 pounds of chicken, 600 loaves of bread, 50 dozen of sardines, 1500 gallons of lemonade, 200 gallons of ice cream and one barrel of ground coffee and a quantity of pies, cakes, tarts, and all such small eatables sufficient to freight a Mississippi steamboat.

AN IMPORTANT QUESTION TO BE DECIDED BY THE SUPREME COURT. It is understood that the Supreme Judicial Court at its July term, will be called upon to decide on a Middlesex county case involving the legality of the vote on the ale and beer question as it was taken in quite a number of towns. In these towns the full question, as prescribed in the statute, was printed on the "Yes" ballots, while the negative ballots contained only the word "No." The question to be decided is, whether a ballot which did not contain the question and answer was a legal ballot. If not, the advocates of a license law have been successful in many towns where the "No" vote preponderated. In favor of the legality of the vote, as it was taken, it is claimed that the question was printed in the warrant for the meetings, that the warrant was read at the meeting, and that as the statute does not specifically require the question to be printed on the ballots, a ballot containing simply the answer was good and sufficient.—*Boston Herald*.

THE manufacturing statistics of the Census Bureau are so far completed as to show that the gross product of manufactures last year was four thousand million dollars.

The Quincy Patriot.

SATURDAY, JULY 13, 1872.

"Born to no Master, of no Sect are we."

Short communications and items of news earnestly solicited from friends and patrons.

Anonymous communications are not published.

FLOWERS AND FRUIT. The Boston Home Mission is one of the simplest, and at the same time one of the most benevolent of the charities of the day. From the Hollis St. Chapel, where contributions are received and arranged, flowers and fruits are sent twice a week, to the following places. City Hospital; Children's Hospital; St. Joseph's Home; Old Men's Home; St. Elizabeth's Hospital; St. Luke's Hospital; Old Ladies' Home; New England Hospital; Homeopathic Hospital; Eye and Ear Infirmary; Temporary Home for Destitute Children; Home for Little Wanderers; North End Mission; Massachusetts Hospital; Channing Home; Good Samaritan's Home; Charity Bureau; Dispensary; and to various sewing-girls' shops.

A few families in Quincy, belonging to a single Religious Society, have been in the habit of collecting at some given house their weekly contributions to this Mission, and forwarding them together to the Chapel every Thursday morning, the Bowditch Express Company transporting them without charge to their destination. It is now desired to make the work more general, and to give all our citizens an opportunity to aid in this charity, and to that end, we propose to designate in our columns, from week to week, the house to which flowers and fruit may be sent. The notice for next week will be found in another place.

SUDDEN DEATH. Mr. John Westland, a very industrious and temperate man, of some 35 years of age, living on Brackett Place in this town, died from sunstroke in Boston on Wednesday last. He was picked up in the street in an insensible condition, about five o'clock, and died at the Station House soon after nine the same evening. He was formerly connected with the Granite Polishing Works near the Canal, and is spoken of very highly. He leaves a wife and five children to mourn the loss of a father and husband.

PERSONAL. After we went to press last week we learned with sorrow that Mr. Charles R. Mitchell our highly esteemed fellow citizen, had been prostrated with a severe paralytic shock, caused by his recent serious injuries. We are happy to be able to inform our readers that yesterday, he was quite comfortable and great hopes are now entertained of his restoration to health.

SCHOOL HOUSES. At the last annual Town Meeting it was voted to build school houses at Wollaston Heights and Atlantic, agreeable with the recommendation of the School Committee and \$15,000 for each was appropriated and \$2000 each for lots for the same.

The lot at Wollaston Heights was generously given to the town—the lot at Atlantic is yet to be purchased and located.

Last Tuesday, at the meeting of the School Committee, we learn it was voted not to build the house at Wollaston, but the one at Atlantic.

PICNICS. The Universalist Sabbath School will hold their annual picnic at Squantum on Wednesday, July 24th. A cordial invitation is extended to all friends of that school to join with them, in making the day one of great interest and pleasure. There are but few more delightful places along our shore for holding the gathering, than at Squantum. Mr. Reed takes great pleasure in accommodating all who visit his ground, and few ever visit these rugged bluffs, but feel delighted and refreshed by the beautiful scenery, and cool and healthy sea breezes. Let our citizens spend a day occasionally at this delightful spot, and they will feel healthier and happier.

Since writing the above we learn that the Sabbath School connected with the Orthodox Society will visit Squantum on Wednesday next. May all the parents and friends of the school go with them and help the little ones have a jolly good time—a day long to be remembered by them with pleasure.

APPOINTED. Mr. N. B. Farnald of this town received his appointment as State Constable on Saturday morning last. The appointment we believe is a good one. Mr. Farnald has many excellent qualities which will fit him for the position. He has shown the citizens of this place by his energetic and persevering ways, to be one of the best detectives ever appointed in Quincy. If he performs the duties of his new office in as gentlemanly and satisfactory manner, he will bring credit to the State Constabulary, and command the respect of all honest and peaceful citizens.

ACCIDENT. William Swithin of this town, son of Mr. Thomas Swithin, who has been at work at his trade, stone cutting, in Albany for some time, left that city for his home on Wednesday, the 3d inst. And his friends did not hear from him until last Wednesday, when he was picked up in an unconscious state, by the side of the railroad track, near Worcester. We have heard rumors of foul play, as it is said that when he left Albany, he had just been paid off, and had about one hundred dollars with him, but when found his pockets were empty. It is feared that he cannot recover as his head was very badly bruised and he was still unconscious when visited by his friends on Thursday.

Flowers and fruit for the Boston Hospital. may be sent, on Wednesday afternoon and evening of next week, to the house of Mr. Henry F. Barker.

CHURCH. Sunday School, tomorrow, at 9.15 A.M. Service at 10.30 A.M. and 4.00 P.M. The public are cordially invited to attend.

LAUNCHED. A sloop of 135 tons was successfully launched at East Boston on Saturday last. She is named the Screamie, a native of this place, and a gentleman well known to many of our citizens. She will be commanded by Capt. Robert Sylvester, and is designed to carry stone from Cape Ann to New York.

PARSONAGE. The pretty parsonage, to be built by the Universalist Society near their church in this place, has been raised the present week by Mr. Amos Litchfield. It is to be two-story, and we should judge from the plan that it would be quite attractive when completed.

HIGH SCHOOL. Applicants for admission to the High School will be examined on Monday morning next. See notice.

District Court of East Norfolk.

MONDAY.

REMINISCENCE of 1797. To-morrow, the 14th of July, it will be seventy-five years since a terrific hailstorm passed over the central part of Quincy, breaking the glass in many windows exposed to its violence; destroying fields of corn, and almost all growing vegetation. Gardens were replanted by Friday.

Peter B. Hand, of Randolph, for assault. Plead guilty and fined \$5 and costs amounting to \$17.05.

Warren Reed of Squantum for keeping open bar on Sunday. He pleaded guilty and paid \$10 and costs.

The above facts were written and handed to us by an aged subscriber, residing in this place, who vividly remembers the appalling scene.

JULY ORATION. The city dailies speak in high terms of the Fourth of July oration delivered in Boston by our townsmen, Charles F. Adams, Jr. The *Journal* says, "it is as temperate and finished in expression as it is thoughtful and suggestive in matter. It gives a comprehensive review of the progress thus far made by our Commonwealth, and then faces boldly the problems, industrial and political, now before us." Mr. Adams does not claim to solve these, but he does state them fairly, and we think he does point out the direction whence the solution is to come. We do not remember to have seen the subject treated anywhere else with more ability or, on the whole, with so much good sense." The *Post* says, "it was an effort worthy of the descendant of an illustrious line. Not too long, by no means too profuse in 'patriotism,' conceived in admirable taste as regards both form and style, the speech is deserving of high praise."

SALES OF REAL ESTATE. Mr. John H. Cain, sold to George W. Brooks, land with buildings on Granite and Water street, for \$2000.

Mrs. Charles P. Tirrell sold to Thomas Butler, a house with land on Granite street, for \$1400.

Chapin Thayer sold to Augustus L. Cushing 1-1/4 acre of land with buildings on the west side of Front street, Weymouth for \$2500.

BRAINTREE. *Sudden Death.*—The community have met with a loss in the sudden death of Mr. Rufus Woodsum, who died on Saturday morning last, after a few days illness. Mr. Woodsum was a business man; he was engaged in the livery stable business, and by his gentle treatment of his patrons, won their respect. He was always ready for any public improvement; a good citizen, a kind friend—all will miss him. He died at the age of forty-three, and leaves a large family to mourn his loss.

During the shower on Monday evening, a large tree near the Town House, was struck by lightning.

John Ford of Quincy, was arrested for assault on Geo. F. Brown, son of Henry Brown. Having heard several witness that the Judge discharged the defendant, on paying costs. He said the case was too frivolous to have been brought into Court.

WEDNESDAY.

Probate Court was in session this morning, and but little criminal business was before Justice Bumpus. Patrick Meighan of Randolph was brought in by Sheriff Warren for being drunk. Pleaded guilty and fined \$3 and costs.

Levi R. Reed of Weymouth for cruelty to animals. Found guilty and fined \$3 and costs.

THURSDAY.

This morning James Gallagher of this town, was before Justice Bumpus, for being a common drunkard, on complaint of his wife. A number of witnesses were called, but the evidence was deemed insufficient, and the Judge discharged him. He was subsequently arrested for being drunk on the Fourth of July, and fined \$3 and costs.

John Ford of Quincy, was arrested for assault on Geo. F. Brown, son of Henry Brown. Having heard several witness that the Judge discharged the defendant, on paying costs. He said the case was too frivolous to have been brought into Court.

FRIDAY.

Several witnesses in the case of John Carton, John Henry and Patrick H. Lynch, three young men of East Braintree, were before the Court this morning for malicious conduct on the Fourth, — blowing open a door with powder. Case continued until Friday.

THE PATRIOT OFFICE.

The Storm on Tuesday. A copious shower of rain, accompanied with thunder and lightning, came off on Tuesday afternoon. The lightning was uncomely vivid, and is supposed by many to have struck in town, but we have not yet been informed of any damage done.

The shower in the vicinity of Hingham and Scituate, we learn, was very severe. It came up about three o'clock, at which time it began raining in torrents, accompanied by furious wind at first and a great amount of thunder and lightning, and continued about two hours and a half, with the exception of a few moments' lull. During the shower a carriage belonging to Mr. Thompson of Abington was struck by the lightning. In the lower room a lady and her little daughter were lying upon a bed and the electric bolt passed down between them, boring a circular hole through the mattress, but without setting it on fire. The two were paralyzed by the shock but partially recovered. The house was damaged but little. A barn, also situated a short distance from the Rockland House, belonging to R. H. Stevens of Boston, was struck by the lightning and a valuable pony was killed. The barn was not fired, however, and but little damaged. A vacant barn, on the northerly side of Weir river, was also struck and set on fire, but the flames were soon extinguished.

A company has been formed in New York to connect the houses of those who desire it by telegraph with central offices. A touch of the key summons a messenger, who can be sent on any errand desired. This is a useful extension of the benefits of telegraphy. Its value in cases of burglary, fire or sudden sickness are evident.

Fourteen national nominating conventions have been held at Baltimore, four at Philadelphia, three at Chicago, two at Cincinnati, one each at Harrisburg, Buffalo, New York, Charleston and Columbus.

Quincy High School. The graduating exercise of the High School took place at the Town Hall, on Friday evening last. A large and attentive audience was present, and the exercises throughout have not been excelled in any former year. The following compose the *Graduating Class*—Hattie F. Thayer, Mary A. Bosworth, Ellen Fegan, Mary F. French, Mary E. Burns, Edith Randall, Carrie J. Johnson, Michael P. Howley, John H. Dinegan, Amos L. Litchfield, Thomas Feno, Mary E. Wiley, Lucie A. Stoddard, Lizzie B. French.

NATIONAL SAILOR'S HOME. By an invitation from the trustees, a select party of ladies and gentlemen from this town and Boston, visited this institution on Thursday. After a half hour spent in viewing the pleasant grounds with its buildings, a lunch was served in the dining room which was handsomely decorated for the occasion. Hon. Alexander Rice, president of the board of trustees, made a few remarks regarding the foundation of the institution and its general history. The home has now about sixty inmates, and is in a very flourishing condition, being out of debt, and having about \$250,000 on interest with an income from which its operations are carried on. The trustees have every reason to be satisfied with Dr. Rice, the Superintendent.

CHURCH. Service to-morrow at 10:30 A. M.

Public Service for the Children of the Sunday School and Infant Baptism at 4:00 P. M. The Rt. Rev. M. A. D. W. Howe, D. D. Bishop of the Diocese of Central Pennsylvania, will preside in the morning and close at 8 in the evening.

DEATHS.

The Old Colony Memorial and the Old Colony Sentinel appeared in a consolidated form recently making a handsome eight page paper, of 48 columns.

The Memorial has been purchased by Mrs. Avery and Doten of the *Sentinel*, and will hereafter be issued from the office of the *Sentinel*, though on account of the connections of the name with the history of the Old Colony, it will still be published as the *Memorial*.

Mrs. Avery & Doten know how to get up a good paper, are true gentlemen in every sense of the word, and deserving of abundant prosperity.

SCN STROKE. During the recent hot weather a large number of stevedores and laborers have been employed in unloading coal vessels along the wharves and have in no instances ceased their arduous labors on account of the heat. It seems that these men drink large quantities of ice water, with which is mixed oatmeal in the proportion of a handful of meal to a pail of water. They say this is the way they do in the old country, and no one is struck who uses oat meal in this way.—Traveller.

Demorest's Monthly for August is on our table, replete with its usual fund of information and entertainment for the Household. Beck at the farm is the most charming illustration of American life we have perused for some time. The many items of worth in the Monthly, and its *reporter* of Fashions should be seen by those who do not subscribe, and they would do so at once. \$3 per year, with a premium worth fully the amount paid. Published at \$38 Broad- way, N. Y.

Young America is also from the same publishing house; its contents, as usual, full of excellent reading for our juvenile readers. *Mice at Play*, and *Just my Luck*, are stirring illustrations of juvenile days—entertaining enough for the edification of old heads, although juvenile enough in incident for our young friends. \$1 per year.

MORMONISM NEAR ITS END. The following statement gives the population, number of polls, and also the number of children between five and fifteen years of age, in Abington, on the first day of May last, as furnished by the Assessors:

Population 10,094.
Number of Polls 2,696.
Number of Children 2,169.

REDUCTION OF THE DEBT. The progress of the reduction of the public debt is told in a few figures. The following statement, issued by the Secretary of the Treasury, tells the whole story:

July 1, 1869. \$36,167,779 43
Jan. 1, 1870. 76,716,306 70
July 1, 1870. 139,104,660 20
Jan. 1, 1871. 193,895,466 26
July 1, 1871. 253,432,425 11
Jan. 1, 1872. 281,624,848 87
July 1, 1872. 331,845,881 07

The daily capacity of the distilleries at work in this country is two hundred and seventeen thousand six hundred and eighty-two gallons. The product is nearly all whiskey, and is sufficient to furnish one-third of a pint to each adult male in the United States. The tax on this amount, at seventy cents a gallon, will furnish fifty million dollars a year revenue to the Government.

A company has been formed in New York to connect the houses of those who desire it by telegraph with central offices. A touch of the key summons a messenger, who can be sent on any errand desired. This is a useful extension of the benefits of telegraphy. Its value in cases of burglary, fire or sudden sickness are evident.

Several national nominating conventions have been held at Baltimore, four at Philadelphia, three at Chicago, two at Cincinnati, one each at Harrisburg, Buffalo, New York, Charleston and Columbus.

Briggs' Alleviator is composed of American Spirit of Camphor, Tincture of Lapachin, Oil of Juniper and Alcohol. This compound is unequal in the annals of medicine for the cure of Nervous or Sick Headache, Neuralgia, Rheumatism, Tension, Neuralgia, and all Nervous Diseases. It will counteract all poisons, banish pimples, cure scaly eruptions, itching, ticks, &c., equalizes the circulation, relieves the heart, without exciting the brain, cures Heartburn, Palpitation and Fluttering of the Heart, Dyspepsia, &c. For sale by J. H. Veanie, Mrs. E. Hayden, and Druggists generally.

CONSUMPTION, and has been cured. Dr. J. Briggs' throat lozenges are a pleasant and safe cure for those who are subject to consumption. For sale by J. H. Veanie, Mrs. E. Hayden, and Druggists generally.

PILENS! Just fancy a foot with its permanent organization, designed by the Creator to be used for the cure of a foot or shoe about two-thirds the size required to give room for the working of the joints, muscles, &c., of the human structure. And that is the wonder of it. One-half of the adult population and half the children are troubled with corns, bunions, bad nails and other such annoyances. All of these are the result of unsoundness. Dr. J. Briggs' Alleviator and Remedy will banish them, and proper fitting boots will prevent their return. For sale by J. H. Veanie, Mrs. E. Hayden, and Druggists generally.

Poetry.

Two Little Kittens.

Two little kittens, one stormy night,
Began to quarrel, and then to fight,
One had a mouse, the other had none,
And that was the way the quarrel began.

"I'll have that mouse," said the biggest cat.
"You can't have that mouse? We'll see about
that!"

"I'll have that mouse," said the eldest son,
"You can't have that mouse?" said the little
one.

I told you before it was a stormy night,
When these two little kittens began to fight,
The old woman seized her sweeping broom,
And sent the two kittens right out of the
room.

The ground was covered with frost and snow,
And the two little kittens had nowhere to go,
So they laid down on the mat at the door,
While the old woman finished sweeping the
room.

Then they crept in, as quiet as mice,
All wet with the snow, and as cold as ice;
For they found it was better that stormy night,
To lie down and sleep, than to quarrel and
fight.

Home, Farm and Garden.

Copperas as a Disinfectant.

The presence of the small-pox in our
cities is considered by good authority as
the precursor of that fearful scourge, cholera.

The effects and the spread of this terrible
disease may be materially checked
by a timely and proper regard to cleanliness in our streets, houses, persons, and
about our premises and this can be largely
aided by the liberal use of disinfectants.

Copperas, or sulphate of iron, is an
efficient disinfectant and deodorizer, and
in Germany the government authorities
require it to be used in all public conveyances
and elsewhere where needed, and
the call for this, or some other disinfectant,
in our railroad cars, where travellets are confined to the cars for several
hours, and have occasion to use the conveniences (?) provided, must be apparent
to all, and they should insist upon an
abatement of this infamous and unhealthy
nuisance, which might easily be remedied
by having a small leaden tank affixed to
each car, and filled with copperas in solution,
with directions to have it used occasionally
during the trip in each of the
closets of every train.

No housekeeper should be without a
supply constantly on hand, and in solution,
which they should direct to be used
daily especially in warm weather, in sinks,
drains, water closets, and every place that
is liable to a close, unhealthy and offensive
atmosphere.

The *Journal des Debats* says: "It has
just been discovered that a solution of copperas sprinkled upon fruits and plants has
a wonderful effect. Beans gained sixty
per cent. in size and quality, and pear
trees were wonderfully benefited by the
new fertilizer.

The above has been practiced by us
for several years, and last year we found it
quite effectual in destroying the currant
worm, by showering with the solution.—The
dry copperas sprinkled freely under
trees in autumn, when the canker worm is
leaving the ground for the trees, will
destroy the worms, and application of the
copperas to the soil will, at the same time,
help the trees.

Copperas is the cheapest disinfectant
known, and its application is simple and
perfectly safe, with this precaution, that
it should not be kept in a metal vessel;
unless of lead.

Mixed in the proportion of one pound
of copperas to eight quarts of water, and
when thoroughly dissolved, poured down
drains, sinks, or water closets, it will at
once remove the most obnoxious smell.
No family, stable, provision shop or
slaughter-house should be without a
supply; and cities would be wise to order
its use in sprinkling the streets of unhealthy
localities, as is practised in London. "Prevention is better than cure."

Mr. Henry Harwood of Bennington,
Vermont, is the owner of a fruitful
ben, which persists in laying two eggs a
day, once in a while varying the process
by putting both eggs into one, and making
it a double yolk.

A farmer in Ohio had a thrifty
orchard, which blossomed freely, but bore
no fruit. He washed twelve of the trees
once a week with strong soap suds, and
was gratified by a fine harvest the sub-
sequent season.

Anecdotes.

Chemist. Well, here is the two
druggists. This one is for your good-
man, and the other is for the cow. If
you have not money enough to pay for
both, you had better take one.

Hi. Well, well, as you say; so I
think I had better perhaps take the bottle
for the cow.

New Mistress. That will do, my
inquiries about you being satisfactory, I am
willing to engage you.

New Cook. Very well, mamma, but I
cannot give you an answer till to-morrow,
for my inquiries about you have not been
answered yet.

A little Athol girl of five summers
was severely stung by a hornet, and, running
into the house, she told her mother
that she had been bitten by something
that looked like a yellow carriage with
the top turned back."

A committee was recently ap-
pointed to investigate the excessive
chastisement of a pupil in a Michigan
public school, and reported that the pun-
ishment was not actuated by malice, but
occurred by an undue appreciation of
thickness of the boy's pantaloons."

90 Hancock St., opp. Post Office,
GEORGE SAVILLE

The Quincy Patriot.

SATURDAY, JULY 27, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news
sarcasm solicited from friends and patrons.

Anonymous communications are not
published.

Editorial Correspondence.

ALTON BAY, July 18th, 1872.

In the editorial letter of the 17th inst., in last week's Patriot, we were in the pleasant town of Wolfboro' in New Hampshire. From a view from one of its hills we think we never saw more beautiful scenery: the quiet lakes glittering in the sunlight with little villages on their banks, and rugged mountain bluffs in the background, made a very romantic picture worthy of being framed in memory. About nine o'clock that morning we started in the steamer Lady of the Lake, for Plymouth. The steamer left us at Weirs where we took the cars and arrived in good time at the Pemigewasset House, Plymouth. This is one of the best hotels in the State and is kept by Mr. C. M. Morse, the Prince of Landlords. Everything is in good style. The tables were loaded with all the delicacies of the season, and attentive waiters were ready to attend to the wants of the hungry traveler. After an excellent dinner, some of the party visited Mount Prospect, a mountain about five miles from the house; others visited Livermore Falls, and some strolled around the village, enjoying a social chat: one gentleman seemed to be prospecting where best to locate a village paper and not have it up among the *nesties*.

In the evening there was a business meeting in one of the parlors, and the old board of Officers were re-elected.

The gentlemen then adjourned to the large parlor, and a short time was agreeably spent in listening to some pleasant speeches, by different members of the Association, also to a poem by Mr. George A. Marden, who commenced his address by informing the company of the misfortunes that had befallen him. He said he had prepared an elaborate article for the occasion, as he knew he would be called upon, but his better half being away he had to pack his valise, and unfortunately had left his manuscript at home with his night shirt. But, fortunately brother Dresser of the Webster Times, who is always the right man in the right place, came provided for the emergency, and kindly lent him an excellent poem, and we think that the Association should return their sincere thanks to their vice president for his timely aid and to Mr. Marden for his pleasant rendering of it.

Dancing was the next order of the programme but the evening was almost too warm to invite many participants in its pleasure.

Thursday morning was quite dull and muggy, but after a pleasant night's rest, we felt quite refreshed and were on hand at half-past seven to take the cars homeward bound. On arriving at Weirs we embarked on the steamer for a pleasant day's excursion on the beautiful Lake Winnipis-seepe. The numerous islands, —the guide books say that there are three hundred and sixty-five, —are so scattered through the lake that although it is only about twenty-three miles in length yet there are but few points where a straight course can be seen for several miles, at least.

The sail on this lake was to us one of the pleasantest incidents of the jaunt. —Its wooded shores, its fine scenery, its placid waters were beautiful, and the sweet air carried from over the great hills beyond seemed healthy giving and invigorating. All enjoyed the scenery. As we glided past the numerous islands it appeared like a beautiful panoramic view spread out before us. Many good jokes were cracked and the formal reserve and restraint, especially among the ladies, seemed to wear off, and with but few exceptions all were genial and social.

About half-past ten o'clock we arrived at Wolfboro' where we did justice to an early dinner at the Pavilion House. —After dinner we wended our way to the wharf and embarked on the fine steamer Mount Washington for a trip over the lake to Centre Harbor and Alton Bay: at the latter place we took the cars for home. An excellent collation was provided for the party in the saloon of the steamer, just before leaving for the cars, and was partaken of with a zest.

We certainly think that this trip, although no great points of interest were visited, was one that will long be remembered with pleasure and satisfaction by the participants.

NOTTINGHAM, JULY 28th, 1872.

Instead of continuing with the party to Boston we switched off at Newmarket Junction and visited several towns in that vicinity. Epping was our first stopping place. It is a very pretty village on the Pustuckaway river, having a wooden factory, grist and saw mills, and some shoe business. We were shown in that place a six-toed cat, which weighed thirteen pounds, and had a paw nearly as large as that of a dog. In Brentwood we noticed many fine farms and also very large and pretty country buildings, which have recently been erected. In Nottingham, we visited the farm of Alfred Farnall, who resided for many years in this place. We found him in the hay field hard at work, as is the custom of all farmers in that vicinity.

A lad in Nottingham, but sixteen years old, measures six feet seven inches in his stockings. Rather tall boy, —where's Barnum.

Grass in these towns was looking quite

well, and the farmers were feeling encouraged. Most of them were gathering much larger crops than last year. Apples throughout New Hampshire, as far as our observation extended, were quite plenty. Many trees will require support or their limbs will break from the weight of the fruit. The gardens were excellent, and appeared as though they had better care than many in Quincy and vicinity. Vegetables were quite large and plenty in the gardens. Some families were using their apples for pies and sauce; and on the tables at the Pavilion, in Wolfboro' we noticed ripe apples, raspberries, thimbleberries and blueberries were very plenty, and were selling in the latter place at eight cents per quart. Butter and eggs were cheap and plenty, much lower than they had been for several years.

REGATTA. We learn that there will be a sailing regatta this afternoon at 2-1/2 o'clock, in the town bay near the "Wine House." Several handsome prizes are offered and some fourteen or more Yachts have entered. It is the intention of those managing the affair to have three races one on each Saturday afternoon, when the tide, wind and weather permits, to decide the championship. A Yacht winning two out of three will be entitled to a prize.

Flowers and fruit for the Boston Hospitals, may be sent on Wednesday afternoon and evening of next week, to the house of Mr. Francis Williams.

The Old Colony Avenue Land Associates have purchased four contiguous tracts of upland, marsh and flats in Dorchester, on the east side of the Old Colony & Newport Railroad, at Savin Hill, containing 1,942,893 square feet and the contents of the flats not being specified, (subject to mortgage) for \$194,273.

SEIZURE. State Constables Garey and Farnall assisted a United States Internal Revenue officer on Wednesday last in seizing 5,100 cigars illegally kept for sale by Wm. H. Clark at the Blue Hill Tavern.

Mr. Clark was also arrested for keeping intoxicating liquors for sale, and tried before Justice Belcher of Randolph. —Fined \$10 and costs.

Among the arrivals registered at the American Banking House, of Bowles Brothers & Co., Charing Cross, London, we find the name of our townsmen, J. Warren Faxon.

Charles Francis Adams seems to be the man for the Liberal Republicans and Democrats to unite upon for Governor. He is the only satisfactory man we know of who can carry the State, and he can do it. —*Boston Herald*.

REAL ESTATE SALES. Thomas Rosel bought of George H. Reed land and buildings on Hancock and Webster streets, for \$2,500.

Curtis H. Howard bought of Caleb F. Billings 33,971 feet of land on Glover Avenue and Birch street, and 9069 feet on Glover street for \$1,936.

George H. Bond bought of John C. Higgins 25,974 feet of land on Beale and Norfolk streets for \$2,967.

Frank W. Mead bought of E. F. Thayer, half an acre of land on River street, in Braintree, for \$4,200.

FAMILY GATHERING. The descendants of Bedford Page, to the number of some two hundred, from different parts of the country, had a family reunion at Quincy Point, on Thursday last. The meeting was a very pleasant one and was highly enjoyed by the participants.

THE COAL TRADE. The Philadelphia Ledger of Monday says the total production of all kinds of coal last week was 481,308 tons, and for the year 11,158,313 tons against 6,495,882 tons to corresponding time last year, showing an increase of 4,653,431 tons. There was no change to note in the condition of the market, nor is there likely to be any improvement before the autumn demand sets in. Coal is being pressed upon the market, but there is an evident disposition on the part of the wholesale trade not to sell at lower prices, as the present rates are certainly not more than equivalent to the cost of production. The stock of coal at Richmond is 75,000 tons. Vessels are in fair supply and freights unchanged from last quotations, say \$2.50 to Boston, \$2.10 to Providence, and \$1.25 to New York. The retail demand is slightly better. The cargo prices are: Red ash prepared \$4.45, do. chestnut \$2.75, white ash lump, steamer and broken \$3.50 to \$3.60, do. egg \$3.75 to \$3.85, stove \$4.45. Locus Mountain coal of the several kinds are quoted slightly higher.

YALE conferred an honorary LL. D. upon Charles Francis Adams. There is some sense in giving such a title to such a man.

INCREASE OF PENSIONS. It is stated by the Pension Agent that persons who are already pensioned at either the rates of fifteen, twenty or twenty-five dollars, are entitled to the increased rates provided by the late act of Congress, without formal application and without the intervention of any attorney, and the Commissioner of Pensions will not recognize attorneyship in such cases. A letter from the pensioner, (pensioned as above) addressed to the Commissioner of Pensions, Washington, inclosing his pension certificate, and giving his post office address, will be sufficient presentation of his claim for the increase. The certificate will then receive such endorsement as will authorize the payment of the increased rate, and then be forwarded to the Pension Agent, and the pensioner will be notified of such transmission. —*Lynn Reporter*.

Braintree.

SUICIDE. The wife of Mr. Josiah Hollis, in the north part of the town, committed suicide on Saturday morning last, by hanging. Her mind for some time had been deranged. After attending to her household duties on Saturday morning, she succeeded in eluding the watchful care of her friends, and committed the fatal act. Her age was 67 years.

MUSIC. The Braintree Brass Band have commenced their out-door concerts, and are to continue them through the fine weather, playing at the South, near the Town Hall; at the North, near Dr. Storrs' Church, and in East Braintree near the Flax Mills, alternately.

THE NURSERY. The August number of this very interesting monthly for the little folks, contains its usual budget of entertaining stories and pretty illustrations. The stories can be understood and appreciated by the younger readers.

PICTIC PARTY. A large and happy party of picnickers, belonging to the Baptist Society of Weymouth, passed through town on Thursday, bound to Squantum. The day was beautiful, and we have no doubt but they realized all the pleasures that they anticipated, and the day passed altogether too quickly for the young folks.

They have a flower in Alameda, Cal., which measures "Aaron's cup," which measures two feet eight inches from the base of the flower to the tip of the cup.

It is said that Stokes has spent seven-hundred dollars on his trial.

Flag Raising at Wollaston Heights.

A delegation of the Grant and Wilson voters of Wollaston Heights met the 19th inst. at the residence of A. G. Olney. —The meeting was enthusiastic and well attended. It was voted to call a general meeting at the Chapel on Tuesday the 23d to form a Grant and Wilson Club and perfect arrangements for the raising of a flag. This case met with a flattering response. Capt. I. H. Meserve the chairman of the previous meeting presided and the following officers were elected. —President, —Farrington McLintyre, Esq. Vice Presidents, —John T. White, Esq. —Albert G. Olney, Esq. —Capt. I. H. Meserve, Geo. F. Pinkham, Esq. —E. G. Randal, Esq.

Treasurer, —Gen. W. W. Marple. Secretary, —Adj't. W. W. Bemis. Executive Committee, —Capt. Jediah P. Jordan, Charles R. Sherman, Esq. —Charles E. Perry, Esq. —Isaiah White, Esq. —E. S. Sparrow, Esq. —J. P. Haynes, Esq.

Finance Committee, —Albert G. Olney, Esq. —E. S. Sparrow, Esq. —F. McLintyre, Esq.

It was voted and funds subscribed to raise a handsome flag bearing the names of Grant and Wilson.

Ira D. Noyes, of Weymouth, was arrested for evading fare on the Old Colony Railway, on complaint of Paul W. Jackson. Found guilty and fined \$10 and costs, amounting to \$18.55. He thought it was rather expensive traveling and no doubt has learned a good lesson.

James Jordan, of Holbrook, arrested for being a common drunkard. He paid the costs amounting to \$16.15 and furnished security to keep the peace for 6 months.

Michael Scott of Holbrook for drunkenness. Fined \$3 and costs, amounting to \$10.65.

John Callahan of Holbrook for drunkenness. Discharged.

TUESDAY.

Joseph Miller of Braintree for assault. Case continued to August 21.

Melvin Packard and James Thayer of Quincy, for malicious mischief. Case continued to August 21st.

H. P. Abbot for keeping intoxicating liquors for sale. Found guilty and fined \$10 and costs.

WEDNESDAY.

Michael Mahon of Randolph, for drunkenness. Fined \$3 and costs. Failed to pay the fine and costs, he was committed to the House of Correction.

Wm. Sullivan of Holbrook, for drunkenness. Case continued to Monday next.

THURSDAY.

This morning the newly appointed Special Justice Tower of Randolph was in Court. His noble bearing and dignified appearance attracted no little notice.

The first case was that of Howard F. Rowe of Weymouth for keeping a liquor nuisance. Pleaded guilty and fined \$50 and costs.

Friday.

There was but one case called to-day, and that was continued.

PICNIC. The "little folks" connected with the Universalist Sabbath School were twice disappointed this week by the heavy rains, which prevented them from going on a picnic excursion; but we are authorized to say that everything is being arranged so as to have a grand time the first part of next week; better, if possible, than if it had occurred at the appointed time. Full particulars will be given to-morrow at their Sunday School.

Poetry.

Transposed Proverbs.

"Too many cooks will spoil the broth." Is a thing in which we are all agreed, But over-work is a sin indeed, And all may see, if they chance to look, That "too many broths will spoil the cook."

"Every dog will have his day." And we're sure that the saying true appears, But now, since poosies have reached Algiers, 'Tis plain to sight through the thickest fog, That "every dog will have his day."

"It takes a fool to make a fire." From many a conflagration seen, Where crowds have wild with excitement been, It should read for the folks that can't keep cool That "it takes a fire to make a fool."

"Open your mouth and shut your eyes." Is a child's saying widely known, And out of it hath another grown, From east to west, from north to south, 'Tis "open your eyes and shut your mouth."

Home, Farm and Garden.

Green Food for Fowls.

The first requisite in the shape of diet is a regular supply of green food. Fowls kept on grass will need no attention; but for birds penned up, the daily provision of it is an absolute necessity, though most beginners are ignorant of it. We well remember, in our own early experience, how our fowls died. An experienced friend led us into the secret; and after that we had no difficulty in keeping fowls, even where it is often said they cannot be kept in health—viz., in a yard paved with large flat stones. The best substitute for natural grass is a large fresh turf thrown in daily to each four or five hens; and even in towns it is often possible to procure this, by giving children a few pence every week to keep up a supply. Where turf is not allowed to be taken, grass may be cut or pulled; but in this case must be cut into green chaff with shears or a chaff machine. The latter plan is how we actually managed for years in a yard only 68 by 35 feet, divided into six pens; paying some child a few pence to bring fresh cut grass daily, cutting it up and mixing it with their soft meal.—Ex.

Round Turnips.

It is about time to be thinking of sowing the round turnip seed. It will do any time from now till the 10th of August or thereabouts, but it is rather better to get the seed in early if the land is free and ready for it. It is usually sown after early peas, early potatoes, or some other early crop that has come off the land, and this is no doubt good economy. But in cases where the farmer has neglected to sow a wide breadth of mangolds or Swedes, it is desirable to make room for round turnips by breaking up some lot and using it first for this purpose. Some sow this seed along with grass seed in laying down land.

Absorbent Powers of Soils.

Experiments have shown that a mellow loamy soil is capable of absorbing in twelve hours, when exposed to a moist atmosphere, an amount of water equal to two per cent. of its weight. If any argument was necessary to keep the soil mellow, here is a most powerful one to convince us. For this property possessed by a mellow soil, is one that in a dry season is able to give it power of maturing a crop when a hardened surface would be unable to do so. A surface that is impenetrable to the atmosphere, of course could not absorb any of the moisture with which the atmosphere is charged. But rendered free from lumps by repeated plowing and harrowing, each change of temperature causes a circulation of air throughout the mass of soil is free to absorb all the moisture coming in contact with it until it is saturated. So then the soil is mellowed by cultivation the less it is injured by the drought, and the better it is enabled to mature a fair crop in the absence of rain.

It is stated that trees cut in summer and allowed to lie until the leaves dry, will have the sap extracted by the foliage, and the timber thus treated is very durable.

Anecdotes.

"I wish I was a little French girl," said a ten-year-old. "Why?" asked her mamma. "Because then I should know two languages." "How so?" "Why you know that I can speak English now, and French would make two." It is stated that trees cut in summer and allowed to lie until the leaves dry, will have the sap extracted by the foliage, and the timber thus treated is very durable.

The Quincy Patriot.

SATURDAY, AUGUST 3, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.
Anonymous communications are not published.

Quincy in the Foreground.

By recent reports of the Massachusetts Horticultural Society's Exhibitions, published in the Boston *Transcript*, we see that John J. Glover, Esq., of this town, has been quite successful in taking premiums, &c., on articles raised by himself. We quote as follows:

July 13th. Second Prize for White Currants; Diana's White. Third Prize for Red Currants; Versailles.

July 20th. First Prize for Gooseberries; Downing's Seedling. Third Prize for Gooseberries; Houghton's Seedling. Gratitude for collection of Early Vegetables.

July 27th. First Prize for Gooseberries; Downing's Seedling. Second Prize for Gooseberries; Houghton's Seedling. Gratitude for Early Vegetables, (Corn, &c.)

Since writing the above, we have been the recipient of a cucumber, twenty-one inches in length and weighing nearly two and a half pounds, raised by Mr. Glover from English seed. It is called "the Climax." It differs from the long cucumbers that are sometimes raised for exhibition, and which, exceeding this variety in length, are worthless for table use, approximating nearer to the character of the gourd family. The Climax, however, is quite good for eating, though not quite equal to the smaller varieties for delicateness of texture.

FIRE DEPARTMENT. The Granite Engine, which was found to be considerably out of repair on the morning of the Fourth, has been put in excellent working order. Chief Engineer Hall procured the services of Mr. Hunneman of Boston, who visited this place and after repairing the Granite, visited all the other engines and placed them in fine order, ready to do good service when required.

Our Engineer is doing the right thing by keeping the machines in good condition, ready for any emergency. Although Quincy has been very fortunate the past fifteen months, hardly any fire of note has occurred, still scarcely a week passes but some of the adjoining towns or cities meet with heavy losses from the devouring flames. The only wise and true policy to be adopted by the Fire Department is:—Always be prepared for active duty.

All the machines are well manned and have good officers, with the exception of the Vulture Engine at the Point, which tub, we learn is without a company. What the real trouble is we are not well informed, but the citizens residing in that part of the town should look into the matter, and see that a good company is formed at once, and after it is organized encouraged and help support it, for their own immediate credit, and for the good of the town generally.

DO DOGS. At this season of the year, everything appears a little out of joint and we are apt to feel cross and touchy; and, why should not the dogs go mad. For this reason it has been thought safe and prudent, by our wise board of Selectmen, to bleed the dogs little, by amputating a few inches of their tails. They have accordingly appointed Constables French and Pray to do the work and we may expect to hear a good report.

If any of our citizens are afraid these gentlemen will cut too close to the dog's ears they are invited to step into the Clerk's office and see if their favorite cur has been licensed, if not, they had better attend to that duty at once. About one-half of the dogs in Quincy are not licensed—and if not collared, they may expect to be roughly handled during the next ten days.

STATE MILITARY MATTERS. All but two organizations have selected the time and place for the annual encampment. The first battalion of infantry, Major Faxon, has selected a fine camp-ground at Atlantic, in this town situated on Mr. Lemuel Billings' farm, adjoining the Quincy estate near the old state quarry.

UNIVERSALIST PICNIC. The Sabbath School connected with the Universalist Society of this town, together with their friends, to the number of three hundred or more, had a very pleasant picnic Squantum on Tuesday last.—The day was delightful, and the old but favorite grounds appeared more enchanting, if possible, than ever. Seldom have we seen the children in higher glee than on this occasion, and when the chowder was announced it did not go begging.—It gives the young and old good appetite to roam over these bluffs, and breath the salt air.

Henry H. Faxon, Esq., visited the grounds a few moments in the afternoon, and was received with rousing cheers. He is a good friend to the school and is accordingly highly appreciated by them. He gave the Society that morning a check for seventy-five dollars for their new parsonage, which the Committee duly acknowledged, with kind wishes for his future success and prosperity.

WAX FLOWERS. It will be seen by an advertisement in to-day's paper, that Miss L. B. Drake is prepared to give instructions in a new method of making wax flowers. Any one wishing to learn this beautiful art, can, by this new mode, accomplish as much as in one hour lesson, as it would require months, to perform by the old system.

The Barbers' Shops.

No little stir, talk and excitement have occurred in our quiet village the present week, owing to an order received by the barbers to close their places of business on the Lord's day. It has been the custom for years for them to open their shop on Sabbath mornings, as regularly as to eat their breakfast, for the accommodation of many good citizens who felt that they must be shaved. The custom became more and more popular with the masses, and the knight of the razor, found his day of rest growing shorter and shorter, and finally beautifully less. At last some one or more got impatient, the same as Jack did, and thought all work and no play dull business. They accordingly invited the new District Court in this place to take the razor in hand and "shave" their customers. The Court very willingly stepped in, and with one or two whisks of their sharp two-edged sword, without cutting a hair, so frightened the customers that they commenced a howl, heart-breaking to the soul, and cutting to the pockets, that the tonsors all started to their aid. A paper was accordingly brought forward, and each on bended knees with one hand on the Bible and the other on the razor, did solemnly swear that it was a mistake—they never thought Jack a dull boy, and did most pitifully agree to

Shave and stand,

if those terrible State Constables could be kept away. The paper was accordingly circulated, and a long list of names of popular and influential citizens was obtained, asking those who had sworn to me that it was a mistake—they never thought Jack a dull boy, and did most pitifully agree to

Shave and stand,

if those terrible State Constables could be kept away. The paper was accordingly circulated, and a long list of names of popular and influential citizens was obtained, asking those who had sworn to me that it was a mistake—they never thought Jack a dull boy, and did most pitifully agree to

Shave and stand,

if those terrible State Constables could be kept away. The paper was accordingly circulated, and a long list of names of popular and influential citizens was obtained, asking those who had sworn to me that it was a mistake—they never thought Jack a dull boy, and did most pitifully agree to

Shave and stand,

Poetry.

How to be Beautiful.

I want to be beautiful when old?
I can tell you, maidens,
Not by lotions, dyed and pigments;
Not by washes for your hair.
While you're young be pure and gentle,
Keep your passions well controlled,
Walk, work and do your duty,
You'll be handsome when you're old.
Snow-white locks are fair as gold;
Gray as lovely as the brown,
And the smiles of age more pleasant
Than a youthful beauty's frown.
Tis the soul that shapes the features,
Fires the eye, attunes the voice;
Sweet sixteen, be thou the maxims,
When you're sixty, you'll rejoice.

Home, Farm and Garden.

Care of Implements.

There is probably no text on which more preaching is done by the agricultural press than that which heads this article. And yet farmers are either forgetful of the lesson, or are too careless of their own interests to act upon it. We were especially reminded of this by seeing, in the course of a ride of ninety miles through an average agricultural district, the following tools lying out exposed to the weather—viz.: Forty-four plows, twenty-three harrows, seven mowers, one reaper with beater and platform as last used, wagons too numerous to count, and, in one instance, a set of harness hanging on a fence. The plows were mostly sticking in the furrow where they had been last used. Now, it is natural to suppose that the owners of all these tools and implements never see an agricultural paper, or they could not resist the reiterated advice to take better care of their property of such a perishable nature. It is safe to say that these tools, kept under cover when not in use, will last more than twice as long as they will when exposed to rain and sun. The loss is thus a serious one, and we regret when we think that we can not reach such farmers by a word of advice.

Hard Milking Cows.

A writer to the *Hearth and Home* says:—In reference to the hard milking cow, I would say that I operated on one the past summer by cutting, and it worked to a charm.

I took a piece of hoop-skirt steel, and filed down on both edges, leaving a shoulder, and sharpened both edges of the point; pressed the test full of milk, and crowded the blade to the shoulder, serving each test alike, and had no trouble with its being sore, as the blade cut on both edges, and did not enter deep enough to draw blood—the point was one-eighth of an inch wide at the shoulder. Before the operation, one test had a very small outlet, and that was a side-shoot and carried milk out of the pail. I would prefer cutting with a two-edged blade.

Layering Roses.

A correspondent of the *Country Gentleman* says:—It will greatly facilitate the operation of layering if the shoot is split or cut for about an inch, leaving it attached by half its thickness to the parent bush. In making the split, cut from the old plant toward the end of the shoot; keep the split open by inserting a lead rolled up, or a bit of stick, and peg the shoot down securely. It is well to prepare a bed for it by spreading some rich soil under it and covering it with the same. Layers may be struck from Monthly Roses, Heliotropes and Geraniums in the same way, with much greater ease and certainty than by slips or cuttings. August is the proper season for layering, and it can be done without impairing in the least the appearance of the flower beds. The layers will generally be found sufficiently rooted to be detached and potted by the last of September.

Mixing hen feed with a strong suds of common soft soap is recommended both as a preventive and cure of gapes.

Inecdotes.

"Harry," said a mother to her little boy, "you shouldn't throw away nice bread like that; you may want it before you die."

"How could I get it, though, if I eat it now?" Harry asked.

"Sue," said a teacher to one of her pupils, "you shouldn't make faces. You'll grow up homely if you make faces." Sue looked thoughtfully in the teacher's face a moment, and then innocently asked.

"Did you make faces when you was a little girl?"

"Why Ichabod, I thought you got married more'n a year ago?"

"Well, aunt Jersuha, it was talked of, but I found out that the girl and all her folks were opposed to it, so I just gave 'em all the mitten, and let the thing drop."

"What a nuisance!" exclaimed a gentleman at a concert, as a young fop in front of him kept talking in a low voice to a lady at his side.

"Did you refer to me, sir?" threateningly demanded the fop.

"Oh, no; I meant the musicians there, who keep up such a noise with their instruments that I can't hear your conversation," was the stinging reply.

Little Boy—"I don't like you, Mr. Brown; my mamma says you are a regular sneak." *Mamma*—"Good gracious James, what can induce you to tell such a story?" I confess to saying, "What a pity such a noble-hearted man as Mr. Brown has turned out such a regular cynic."

Hancock St., opp. Post Office,
GEORGE SAVILLE

HAVING purchased the entire stock of FURNISHING GOODS of J. W. LOMBARD, is now prepared to offer as good an assortment of Shirts, Collars, Neck Ties, Gent's Undershirts, and Drawers, Satin Handkerchiefs, Gloves, as can be found in Quincy.

SATURDAY, AUGUST 10, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.

Anonymous communications are not published.

Another Brutal Assault.

We regret the necessity of recording another of those brutal and disgraceful assaults, which startled our community, and caused so much stir and excitement, in this usually quiet village, some months since, as did the case of Odiorne and Faxon, but such is our painful duty.

On Monday evening last, Dr. Sunderland, an aged and somewhat feeble individual, was needlessly and quietly mowing a few weeds near his premises, when he was most outrageously attacked by Capt. George Spear, and if the evidence in Court is to be believed, was most shamefully pounched, until life nearly left his body.

The reason given by Mr. Spear for this unmanly assault was, that he was in love with Miss Clark, the housekeeper of Dr. Sunderland, and it had not been for the Doctor driving him away from his house and shutting the door in his face, he could have married her. This statement however was denied by Miss Clark.

Capt. Spear is a widower, about seventy years of age, and has resided in Quincy all of his life, with the exception of what time he has been at sea, and is well known to our readers generally. He is naturally of a peaceful and quiet disposition, and has borne us well a good character until a difficulty sprang up between Dr. Sunderland and himself which commenced nearly a year ago, since which time he has appeared like the "devil" to the Doctor and his housekeeper. He troubled them to such an extent that they caused his arrest, some months since, and he was placed under bonds to keep the peace. The bonds expired a few days before this sad occurrence, which so disgraces and belittles him before all honest and law-abiding citizens.

A LIVE ALLIGATOR. We learn that Mr. George Phillips, who resides at the Point, was presented by Captain Hall, some months since, with a young alligator, which the Captain had owned for nearly a year. Mr. Phillips fastened a good rope to him, and has allowed the creature to enjoy himself in the pond and ditches, nearly opposite Mr. Lapham's residence. But one day recently he slipped out of his harness, and now has his liberty. He is about three feet in length and quite attractive. The boys in the vicinity gather about the pond to witness his manouevres and are occasionally not a little frightened at the unceremonious manner in which he gobbles up the young ducks, sporting in the water.

TALL CORN. The season is extremely productive,—the hot weather and numerous showers have sent vegetation forward very rapidly, and some of our citizens are not a little surprised at the result. Last week we noticed some very tall sweet corn in Dr. French's garden, which on measurement proved to be 9 feet 7 inches high. Since our last publication we learn that Mr. Thomas Plumer has some of the same kind which measures 10 feet 9 inches,—or fourteen inches better. Our worthy denist will have to try again. He is usually number one, but in this case he will have to give the palm to his friend Plumer.

ACCIDENT. We learn that David Jones, a lad of fourteen years and son of Mr. Wm. Jones, met with quite a severe accident on Saturday evening last. He was driving one of his father's horses harnessed to a hayrigger, on Copeland street near his residence, when the animal became frightened and he was unable to manage him. The wagon was badly smashed and the boy was picked up insensible, with his wrist sprained and other bruises. After many hours of anxious labor he was brought to consciousness, and is now in a fair way of recovering.

EDUCATION. The advantages of getting a good education are so great at the present day, that the father who fails to give his son or daughter a good business or practical education, misses one of the great duties which parents owe their children. There is a large amount of book learning taught in every town, and village, and Quincy has its share; but a few months spent at a good business college, gives a young man or woman a start in the world which is seldom if ever acquired at our common schools.

THE NORTH CAROLINA ELECTION. Caldwell, the Republican candidate for Governor, has been elected by over one thousand majority. The Democrats have carried five out of the Congressional districts. They will have majorities in both branches of the Legislature and eighteen majority on joint ballot, thus securing the election of a Democrat to the United States Senate in place of the Republican incumbent, Senator Pool.

NARROW ESCAPE FROM DROWNING. Last Wednesday afternoon a skiff containing three little children got adrift from near the Pine Point House, and was rapidly drifting down the bay, when Officer Farnald procured a boat, and with the assistance of Master F. Whitmarsh of Weymouth, put out to their assistance. When about one fourth of a mile from shore, their attention was attracted to a man who had attempted the rescue of the children by swimming to them. Had it not been for Mr. Farnald, he would have been drowned, as he was well nigh exhausted when rescued by this officer and his companion. After bringing him ashore they went and rescued the children from their perilous position. Scarcely had they returned, when another boat, containing some young men, was capsized near by, and the same officer had to take another hand at the oar.

THE LIVELY POLICE BUSINESS. During the forty-eight hours ending at 8 o'clock Monday morning, the Boston police made 202 arrests. Of these, 163 were committed. One hundred and twenty-two were arrested for drunkenness, 20 for assault and 8 for larceny.

AUCTION. Joseph W. Lombard will sell at auction, on Thursday next at 9 o'clock A.M., the Quarry, Stone Tools, Blacksmiths' shops, &c., &c., worked by Frank C. Badger. See advertisement.

YOUNG ROGUES. A lady of our acquaintance, desirous of procuring some bread from the bakehouse, on Wednesday last, and seeing two little boys of tender years, passing, who seemed to young to be rogues, secured their services, giving them twenty cents for the bread, and a few pennies for themselves. After waiting some time for their return she began to think it about time to hunt up the truants, but whether they went on a bender or gave the money to their "parents" as the proceeds of the huckleberries they disposed of, they never returned to tell. We would caution parents to beware of two small boys with lard pails. They are not to be trusted.

BEAT THIS WHO CAN. Mr. Thomas Brooks, for many years a well known citizen of this place, has in his garden in Boston, two dahlia plants, which measure 9 feet 2 inches in height, and tomato plants which measure 12 feet.

PICTIC. The St. John's and St. Mary's Sunday Schools will have their annual picnic at Island Grove, Abington, on Monday next. The Shawmut Band of Boston will accompany the party. Cars leave the Quincy station at nine o'clock, A.M.

District Court of East Norfolk.

SATURDAY.

Michael Hartney of Quincy, for keeping illegally intoxicating liquors for sale. Found guilty, and fined \$10 and costs,—amounting to \$16.95.

MONDAT.

The Court-room this morning was quite full with spectators and witnesses. The first case was that of A. McKey of West Quincy, arrested by Chas. H. Curtis, for being drunk. Pleaded guilty, and fined \$3 and costs.

Margare Riley, of Randolph, was arrested by Dep. Sheriff Warren, for selling intoxicating liquors. Found guilty for five sales, and fined \$25 and costs.

Thos. H. Hayes, of Quincy, for keeping illegally intoxicating liquors for sale. Found guilty and fined \$10 and costs, and imprisonment twenty days House of Correction. He appealed and was ordered to give sureties in the sum of \$200 for his appearance before the Superior Court, at Dedham, in September next.

Michael Hartney, of Quincy, for illegally selling intoxicating liquors. He was ably defended by John Q. Adams, Esq., but the evidence was too convincing, and the Court fined him \$50 and costs.

TUESDAY.

Thomas Donahue and his wife Ellen Donahue, of Randolph, were tried for being common drunkards. The evidence was deemed insufficient by the Court, and they were accordingly discharged.

George Spear of Quincy, for assault on LaRoy Sunderland. Mr. Spear was not prepared for trial, and wished the case continued until Thursday morning, which was granted by Judge Bumpus.

WEDNESDAY.

John McCarty, of Randolph, arrested by Dep. Sheriff Warren for assault on Edmund Burke. Pleaded guilty, and sentenced to the House of Correction for two months.

Edward Curtis and Chas. E. Farrell were brought into Court by Capt. Garey, for being drunk and disorderly at the muster field at North Weymouth, on the previous evening. Pleaded guilty and fined each \$2 and costs.

THURSDAY.

Mr. Spear is a widower, about seventy years of age, and has resided in Quincy all of his life, with the exception of what time he has been at sea, and is well known to our readers generally. He is naturally of a peaceful and quiet disposition, and has borne us well a good character until a difficulty sprang up between Dr. Sunderland and himself which commenced nearly a year ago, since which time he has appeared like the "devil" to the Doctor and his housekeeper. He troubled them to such an extent that they caused his arrest, some months since, and he was placed under bonds to keep the peace. The bonds expired a few days before this sad occurrence, which so disgraces and belittles him before all honest and law-abiding citizens.

FRIDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

SATURDAY.

Mr. Fernender for assault on Richard Hewitt, at the National Sailor's Home. Pleaded guilty, and fined \$10 and costs.

SUNDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

MONDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

TUESDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

WEDNESDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

THURSDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

FRIDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

SATURDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

SUNDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

MONDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

TUESDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

WEDNESDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

THURSDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

FRIDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

SATURDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

SUNDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

MONDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

TUESDAY.

John Fernender for assault on Michael O'Donahue, at the picnic grounds, at North Weymouth. Pleaded guilty, and fined \$15 and cost, amounting to \$29.55. In default of payment, he was carried to the House of Correction.

For the Patriot.

Temperance.

Whatever may be the notions of men in the matter of using intoxicating liquor as a beverage, we believe there are but very few who would counsel its use by the young. And we dare say, this is especially true of the large majority of those who claim the privilege of using it themselves, and who freely do so. Indulging in a habit whose power over them has come to be almost uncontrollable, they would still be glad in their heart to have the young shun their example. Few fathers would teach their children to drink by direct advice; but alas! how many teach them to do so by the silent influence of their example.

Temperance men have no anxiety or wish to infringe upon the rights of drinking men or do ought to harm them, by their warfare upon the fearful evil of intemperance. They would help them if possible. But if they have reached the years of manhood and womanhood put themselves in a position not to be benefited, but will continue to drink to the bitter end, they must not find fault if strenuous and persistent efforts are made to save those who are now children from a drunkard's experience and a drunkard's end. And the strong desire which prompts the efforts that are made to shut up rum-shops is, that the temptation thrown directly in the way of the young by liquors being exposed for sale may be taken away. And pray, is not this reasonable? what parent wants his child thus liable to have a rum-bottle flaunted in his face with the cowardly challenge, "You dare not take a glass?"

The subscribers for this object met on Monday evening, at the Willard School House, which will make it a noble looking and convenient building, and will probably meet the wants of the school for a number of years, as nearly as can be done with a population as scattering as we are in this part of the town.

There is also a considerable interest in religious matters, and a number of citizens have united their efforts to sustain religious meetings. The Rev. Samuel Kelley, Methodist, has been engaged to preach twice each Sabbath for an indefinite length of time.

The subscribers for this object met on Monday evening, at the Willard School House, which will make it a noble looking and convenient building, and will probably meet the wants of the school for a number of years, as nearly as can be done with a population as scattering as we are in this part of the town.

After some discussion the organization was completed as follows:—

Clerk.—C. L. Badger.

Collector and Treasurer.—M. P. Fuller.

Finance Committee.—Jonas Shackley, Alonso G. Davis and Enoch H. Doble.

The Sunday services are held in Dr. Doble's Hall on each Sabbath, at 10 1/2 A.M. and 7 1/2 P.M. J. S.

Families buying this T E A , at 50 Cents. per lb.

will be surprised at its great strength and fine delicate flavor.

35c per POUND

For the V E R Y B E S T L O T of Old Government JAVA COFFEE,

Made Perfect Through Suffering.

Hidden in a hamlet lowly,
Simple, peaceful ways she trod,
Kept her spirit pure and holy.
Found a patient path to God.
From her early girlhood, illness
Blanched the rose upon her cheek,
Hid her buoyancy to stillness,
Till for pain she could not speak;
In her lonely chamber lying,
Curtained from the gladsome day,
Suffering, sweet, and self-denying,
Cheerful passed the hours away.
Ripened thus her spirit's beauty,
Perfected, celestial love,
Conquered life by faith and duty,
Won an angel's crown above.

Home, Farm and Garden.

A Horticultural Experiment.

We desire to invite the attention of our agricultural exchanges, and of others interested, to the following very singular horticultural experiment, successfully made here, and of which we were personally a witness:

An intelligent young lady in this town, well known to many of our readers, was told that, on August 1st, she plucked all the leaves from a lilac, it would put forth fresh blossoms and leaves the same season.

Accordingly she did pick from a young lilac its entire foliage, and the tree has not only put forth new leaves, but blossoms, one of which we gathered September 16th.

We presume the phenomenon is explained on the well-known principle that a tree, so wounded as to seriously threaten its existence, immediately develops flower and fruit or seed-buds, and the stripping of the lilac produced this effect.

Whether the tree will bloom again next spring, and whether it will be able to sustain the severe drain upon its roots, remains to be seen.—*Bucyrus, Ohio, Journal.*

Sawdust on Land.

A few years ago I bought a farm on which there was a field of about ten acres that was nearly worn out. I went on with three yoke of oxen and a double plough, and turned it over deep and very nicely; then I sowed it with timothy. There had been an old steam saw-mill within a few rods of the field, and there was left a large pile of sawdust that had partly rotten down, which I bought for a nominal sum. After the land had been sown nearly a year, I drew on all the old sawdust making the field look black. The result was, (as long as I owned the field, which was four or five years, I had a splendid meadow and stout grass.

I have used sawdust year after year as bedding for a dairy of forty or fifty cows, during the spring and fall, while we were milking, to keep them clean. Cows will keep much cleaner, if bedded on sawdust, than with straw; but it is a cold bedding in winter, and straw is preferable.—*Rural New Yorker.*

SMART HEN. A writer in *The Field* states the very curious fact that a hen, after hatching out two ducklings from eggs placed under her for that purpose, and attempting in vain to induce them to come out from the water to which they had immediately betaken themselves, herself swam after them, and pushing them before her, actually forced them to the land.

NEW land is excellent for turnips; so is any light vegetable mold, sod included; and the ash of sod best of all, says an eminent authority.

Control your horse; let him know that you are his master as well as his friend—he will then work for you with confidence.

Anecdotes.

A schoolmaster tells the following good one: I was once teaching in a quiet country village. The second morning of the session I had time to survey my surroundings, and among the scanty furniture I espied a three legged stool. "Is this the dunces' block?" I asked a little girl of five. The dark eyes sparkled, the eurls waddled, and the lips rippled out:

"I guess so; the teacher always sits on it."

A little fellow had a dirty face, and his teacher told him to go and wash it. He went out and stayed for a few minutes and then came back with the lower half of his countenance tolerably clean, and the upper half wet and dirty.

"Johnny," said the teacher, "why did you not wash your face?"

I did wash it said Johnny.

Why, you did not wipe it then all over!

I did wipe it as high as my shirt would reach.

An intelligent youth, recently engaged in a commercial office, made out a shipping bill for "fourty" barrels of flour. His employer called his attention to the error in the spelling of forty.

"Sure enough," replied the promising clerk, "I left out the *gh*."

A perf fellow seeing in the street an old woman who drove some asses, said, "Adieu, mother of asses."

"Adieu, adieu, my son," answered she.

The man felt his ears grow as he walked along.

Young Gent: "Might I ask you miss—ah—"

The Joyce Children.

A long article of several columns appeared in the Sunday Herald, copied from the Chicago Times, purporting to give a full account of the murder of the Joyce children—a boy of 9 and a girl of 14—at West Roxbury, in this County, on the 12th of June, 1865. It is looked upon as a sensation report, but the facts, as given by Nelson Johnson, a man dedicated to habits, who has recently died at Chicago, are these—

The murderer was a barber by trade, who worked in Tony Delight's shop on Washington street, opposite the City Hall. Before he came to this city he lived in Boston. At that time he was quite young, with a painted name Tom Ainsley, and they used to go on a spree together. He generally made Tom's house his stopping place, and in this way he had got acquainted with the Joyce family, who lived in part of the house. He used to pet the little boy, and occasionally gave him small sums of money. Whenever the girl came over from her aunt's, with whom she was staying, the barber would also make her trifling presents. In this way he won their youthful affections.

The barber said the girl was "the most built child of her age he ever saw." She was voluptuously large, and was already fully developed into womanhood.

He was at the house on the morning of the 12th instant. The children had been to school, and on their return home they made up their minds that they would go out and see their mother and give her a nice surprise by their visit. They started and he followed them on the next car. The West Roxbury woods were about six miles west of Boston. When he got up with them he found the girl seated on a log, making wreaths; her brother was down at the other side of the pasture picking flowers. The barber commenced to take liberties with the girl, and when she resisted him he forced her down. She tried to scream for help and then he struck her down with a large white handkerchief.

The boy ran for his life, and started to kill him. The boy ran for his life, and the was in hot pursuit and soon struck the fellow down. Again and again he plunged the knife into his young breast, and then he went back to the girl. She was not dead, and she had managed to crawl to the top of a ledge of rocks overlooking the highway. Unable

to make a noise, she had vainly endeavored to wear her apron for assistance;

but weak with the loss of blood, she had fallen on her face insensible. There the brute found her. After gratifying his passions, he again stabb'd her repeatedly, and then fled the spot.

The barber's name is not given, but he is said to be about 5 feet 10 inches in height. He is a large, powerful man, with an immensely neck. He is about 28 or 30 years old, and he is either in Boston or Springfield, Mass.

POLITICAL. The Republican State Committee has issued their call for the State Convention, to be held at Worcester, August 28th.

A caucus notice, to choose delegates to said convention, will be found in our columns to-day.

State Democratic Convention meets at Worcester, September 11th.

The Democrats of Quincy have issued notice for a caucus on Monday evening next.

Mr. Summer intends soon to take the stump for Greeley.

The \$10,000 bet of Bep Wood that Greeley would be elected has been accepted by Gen. Hilliard formerly of Grant's staff.

Matilda Fletcher, of Iowa, has taken the stump to tell the people what she knows about Gen. Grant and his wife.

It is reported that the Labor Reformers will hold their State Convention in Framingham on the 20th of September.

The Tribune publishes a list of 658 journals which support Greeley.

HYDE PARK. A novel map for building may be seen on the premises of Mr. Wyman on the summit of Fairmount avenue, Hyde Park. An apparently sheathed cottage is covered with paper; and had this unique material been applied in imitation of clapboards, as intended, it is doubtful if any difference would have been perceptible between the structure and one of the ordinary style of building. Only a single coating of paint has been applied to it; and it has stood the test of nearly a year in a very exposed situation remarkably well.

The house formerly owned and occupied by Mr. Chas. Calef, in this town, which has been remodeled by its present owner, has its entire roof covered with paper, and has the appearance of a slate roof.

NATIONAL PROGRESS. The Great American Institute announces its first Annual Exhibition, to be opened in the City of New York, on the fourth of September next. Applications for space to exhibit the best Agricultural Productions, Mechanical Inventions, Artistic devices, and valuable articles of American manufacture, are now in order. It is intended to make this the most extensive, useful and meritorious exhibition ever held in America.

DR. FLINT'S GREAT REMEDY. The CELEBRATED QUAKER BITTERS.

These Bitters are compounded of Roots and Herbs, among which are Sarsaparilla, Yellow Dock, Dandelion, Gentian, Cinnamon, Anise, Cloves, and other aromatic and medicinal ingredients. They are free from all strong and noxious drugs, or minerals, are perfectly safe in their operation, and can be given to children or persons of the most delicate habits without the least害.

They are not a tipping fancy drink, not a beverage made of poor rum and refined liquors, but of choice ingredients, many of which are grown in South America and India.

Their purifying properties are wonderful.

They purify the blood, and consequently invigorate the entire system. By removing the cause, you effect a permanent cure.

The electric current passes through the Atlantic cable at a velocity of from seven thousand to eight thousand nine hundred miles per second.

Poetry.

The True Life.
He liveth long who liveth well;
All else is but dust away;
He liveth longest who can tell
Of true things truly done.
Then fill each hour with what will last:
Buy up the moments as they go;
The life above, when this is past,
Is the ripe fruit of life below.

Home, Farm and Garden.

Time for Budding.

The *Rural New Yorker* says, "the time for budding most kinds of fruit and ornamental trees, as well as roses and other shrubs, is during their growth in summer. July and August in the Northern States being the two months in which most of this kind of work is performed. The conditions necessary to success are, first, well developed buds of the present season's growth, and stocks upon which the bark will peel readily from the wood, admitting the inserted bud without wounding the wood underneath. Second--The operation must be rapidly and carefully performed. The materials required are some soft bass-wood, or any similar substance, with which to tie in the buds, and a sharp, thin-bladed knife, the end being rounded. Before proceeding to cut the buds, examine the stocks whether they are branches of trees, or seedlings raised for the purpose. By making an incision through the bark and passing the point of the knife under, slightly lifting the condition of the stocks may be readily ascertained. If the bark parts readily from the wood the stock may be considered in a proper condition for budding. The branches from which buds are to be taken should be of the present season's growth, the buds upon them plump and firm, but not so ripe that the leaves attached have fallen off. After cutting the branch, cut away the leaves, but not the entire leaf stem, and leave enough to take hold of."

Now, with the knife, make an incision through the bark, and crosswise of the stock, and from this incision another downward, and about an inch and a half long--the two incisions making a wound resembling the letter T. Lift the edges of the bark slightly with the rounded point of the knife, and the incision is ready for the insertion of the bud. The bud and a slight portion of wood is cut from the branch, the knife passing in below the bud, and brought out about a half inch, or more, above. Now, insert the lower point of the bark upon which the bud is situated under the two lifted edges of that on the stock, and thrust it down to the bottom of the incision.

If the upper end of the bark should not pass completely under, cut it off even with the cross incision in the stock. Then proceed to wind the stock above and below the bud, but up close to it in any way to keep it from unwinding. If very strong material is used for tying, it may be necessary to loosen the ligature in two or three weeks after the buds are inserted; but where buds are inserted into branches of a half inch to an inch in diameter, this is seldom required. On small stocks it is well to examine the buds in two or three weeks, and if the stocks show a depression where the ligatures are, it is well to cut them loose.

The buds are not expected to grow until the following Spring, at which time the stock above the buds should be removed. Ladies who have strong young suckers of common roses may bud them with the more delicate varieties, such as Tea or Bourbons. Choice varieties of fruits may be budded upon poor kinds, and a very little practice will enable almost any man, woman, boy or girl to perform this operation successfully, and with pleasure and profit to family and friends."

POTATOES. Early potatoes should be barreled and marketed as soon as they are dug, or they should be placed in thin layers or small heaps in a barn or cellar, and turned over occasionally if there are any signs of heating. If this cannot be done, it is better to leave them in the ground until cool weather sets in. The expense of handling potatoes is so great that, as a rule, those farmers make the most profit, especially in the case of early potatoes, who ship them directly from the field. *American Agriculturist.*

The largest increase of the hay crop over that of last year, in Maine, is that recorded of Wm. Corbett's farm at New Vineyard. On the same ground that yielded only four tons last year he has just cut and stowed away forty tons.

Incidents.

Slightly sarcastic was the clergyman who paused and addressed a man coming into church after the sermon had begun with the remark: "Glad to see you sir; come in; always glad to see those here late who can't come early."

And decidedly self-possessed was the man so addressed in the presence of an astonished congregation, as he responded: "Thank you, would you favor me with the text?"

A young man rode ten miles in a rail-way carriage with a young lady, with the intention of popping the question, but all he said was:

"It is quite moony to night." "Yes," she replied, "moony." And there wasn't another word said.

What does land and water make? asked a pedagogue of his pupil.

"Mud, sir," was the prompt reply.

Nutting's Granite Works.

THE subscriber having leased the STONE-YARD recently occupied by the QUINCY ADAMS GRANITE COMPANY, rear the South Quincy Depot, is prepared to execute ALL KINDS OF Granite Work, Building, Monumental and Cemetery Work, TO ORDER. A. NUTTING. Quincy, June 29.

THE Michigan Spring Bed.

The Quincy Patriot.

SATURDAY, AUGUST 24, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.
Anonymous communications are not published.

Editorial Correspondence.

EFFINGHAM, N. H., Aug. 22, 1872.

The weather among these great hills has been very wet during the last week—showers most every hour in the day—it is what might be called catching weather. But few of the farmers had finished their laying, and a great deal of grass and barley that had been cut has spoiled. The rainy season commenced with a thunder storm on the 10th inst., and but two days have passed up to this date with several very heavy showers. We have had some thunder and lightning, but nothing to compare with what last week's *Patriot* tells of. Some of the farmers think that potatoes will not this season owing to so much wet weather.

Last Friday morning, we went to Nottingham, about four miles from here, to see Mr. Alfred Farnald's family—found them all in the enjoyment of health.—We met Mr. Farnald on the road. He was going to Boston with a horse he had been pasturing for parties in that city. The animal had been a runaway one, and was rather tough looking. On starting from the farm it took a little strategy to get him safely over the bridge. They were obliged to blindfold him, and then it took two to lead him.—Hope we shall hear of his safe arrival.

The corn question has set all the *Patriot* readers to measuring their tall stalks. Mr. Farnald had one measuring ten feet four inches, and it is still growing. The seed came from Mr. Plumer's garden.

Huckleberries, the same as we used to have from Weir River, are in great abundance on Mr. F.'s farm. Twenty-five and thirty quarts can be gathered easily in a couple of hours. They call them "black snaps" here.

In the farm-houses that we have visited we find that everything is fitted for convenience and comfort. Style is not desired.

A farm with an old fashioned but pleasant house, located on a high hill, commanding a fine view of the surrounding farms, meadows, and beautiful green fields, with mountains in the background, is a home to be desired. Such an one we have visited. The family are relatives of Mr. James M. Beckford. We were shown, dressed in fireman's uniform with a trumpet in his hand, a picture of one of the sons who had done something handsome on a race. About one year ago, seven fire companies, in Haverhill, entered into competition for a silver trumpet. One man was chosen from each company to run one-fourth of a mile; the first man to pass the rope to be winner. The young man, named Frank Durgin, won the race in just forty-seven seconds. That is what may be called making good time.

Sunday the sun beamed forth in all its glory, bringing good, clear weather once more, but very hot and sultry.

The farmers have again commenced haying, determined to improve the sun-shine. Next week brings the great event of the season in these parts—that is, Camp Meeting. They tell us that the cars bring thousands of people to the grove each day.

Potatoes are very cheap here, only fifty cents a bushel. Most every one keeps cows. Milk is plenty and rich.—The pasturing is good, owing to the rains. The butter is a superior article, so different from what you buy at the stores. By the way, the secret of hairs in butter is found out. When on the road to Nottingham, we saw a young dairy maid with her churn, standing in a cool, rippling brook, by her side; almost over the churn was another Miss, combing her hair, while she used the placid stream for a looking-glass. Was not that a romantic scene, but not a pleasant one to contemplate, for the lover of butter.

Low-bush blackberries, which have been very plenty, are beginning to be scarce; but the high-bush are just coming.

A morning ride through the pleasant, shady woods, with their sweet fragrance, gives one an excellent appetite.

Farmers hold to the old maxim, "early to bed and early to rise," &c., and you will see the ladies driving to the store or visiting even in the cool of the morning. A farmer's life must be a pleasant and happy one, but, no doubt, like all other kinds of business, it has its perplexities.

Farmer Edgerley told us "what he knew about farming." His barn is a model of neatness. The first loft is well filled with new, fragrant hay, and an upper one with wheat. Everything is done by rule. Forty years he has worked on the farm and spent but twenty-five cents for hay seed. He always saved his own. He could tell how much he had saved in that one little item alone. He is a veteran of some seventy years.

We shall now bid adieu to these pleasant surroundings, with a tinge of sorrow, for we have certainly had a very enjoyable visit, and hope some future day to repeat it.

GEN. BATES. At a caucus of the Republicans of Weymouth held on Monday evening the 19th inst., the delegates to the Congressional Convention were unanimously instructed to vote for Gen. James L. Bates of Weymouth as the nominee of the Convention.

Braintree.

From the Beach Seventy-five carriages passed a given point on Main Street Sabbath evening last in one hour and thirty-nine minutes on their way homeward from the Beach.

CONCERT. The Braintree Brass Band gave one of their concerts at the north, on Wednesday evening, at 9 o'clock.—Mr. Charles Proctor, firm of Proctor Bros., invited them to his home where he had prepared a bountiful collation for their benefits. Mr. P. knew how to entertain his friends. At 10 o'clock the Ladies Parsonage Society of Dr. Stores church, who were holding a festival at Lyceum Hall, invited the band to visit them and although the band could not do justice to the bountiful supply of good things offered them on account of their visit to Mr. Proctor, they were able to give in return a great deal of grass and barley that had been cut and spoiled. The rainy season commenced with a thunder storm on the 10th inst., and but two days have passed up to this date with several very heavy showers. We have had some thunder and lightning, but nothing to compare with what last week's *Patriot* tells of. Some of the farmers think that potatoes will not this season owing to so much wet weather.

GEN. BATES. At a caucus of the Republicans of Weymouth held on Monday evening the 19th inst., the delegates to the Congressional Convention were unanimously instructed to vote for Gen. James L. Bates of Weymouth as the nominee of the Convention.

District Court of East Norfolk.

SATURDAY.

Thomas McGrail was arraigned this morning, for illegally keeping intoxicating liquors for sale. Pleaded guilty and fined \$10 and costs.

John Ring of Fox being drunk. Fined \$3 and costs.

Michael Maney, West Quincy, assault on Mrs. Mary Powell. Thomas F. Desmond for the Government, J. E. Tirrell of Defendant. Case continued until Monday next.

MONDAY.

The case of Michael Maney for assault was continued this morning. It appeared to a domestic quarrel, where one party was nearly as much to blame as the other. The Judge let Maney go, on paying fine of \$3 and costs.

The civil case of Ellis & Chase vs. Cousens was decided as follows: That Mr. Cousens should pay the plaintiffs \$53.30 with interest from Feb. 28th 1872. Ellis & Chase's demand was \$60.50.

TUESDAY.

William Wentworth was brought to the bar of justice this morning for stealing a pair of spectacles from H. W. Parker, a blacksmith employed at the time at the ledge of Messrs. Frederick & Field. But not the slightest evidence was found against him. It appeared that Mr. Ebenezer S. French, wanted a little fun, and intimated that Wentworth had the stolen property, which induced Mr. Parker to have him removed.

He removed in 1849 to the town of Dorchester, and again in 1857 to Milton, where he now resides, and he is beyond all question a resident of the District.

Graduated at Brown University, and the Harvard Law School, and a student in the office with and afterwards private secretary of Hon. Salmon P. Chase, upon whose motion he was admitted to practise in the Supreme Court of the United States, he improved the opportunities and matured his powers, through which he has since been enabled to render service to his State and country.

And so claiming they will present the name of Mr. Pierce to the voters of the District as a candidate in every way worthy of their votes.

For the Patriot.

The Second Congressional District.

The Republican Electors in the Second Congressional District will soon be called upon to select their standard bearer, who is to occupy the place vacated by the withdrawal of the Hon. Oakes Ames. Prominent among the names of candidates mentioned for this high office is that of Hon. Edward L. Pierce, who is known by all persons having his acquaintance, as a gentleman of high character, strict integrity, and marked ability.

To those unacquainted with Mr. Pierce's record, a brief sketch of his life and public relations may be of interest at the present time.

Mr. Pierce is forty-three years of age. He was born at Stoughton, Mass., and is the son of Col. Jesse Pierce, who was a leading citizen of that place, and well known in Norfolk County as school teacher, and as an incumbent of many public offices of honor and trust.

He removed in 1849 to the town of Dorchester, and again in 1857 to Milton, where he now resides, and he is beyond all question a resident of the District.

Graduated at Brown University, and the Harvard Law School, and a student in the office with and afterwards private secretary of Hon. Salmon P. Chase, upon whose motion he was admitted to practise in the Supreme Court of the United States, he improved the opportunities and matured his powers, through which he has since been enabled to render service to his State and country.

And so claiming they will present the name of Mr. Pierce to the voters of the District as a candidate in every way worthy of their votes.

A REPUBLICAN.

GOOD TEMPLARS. A convention of Good Templars in Norfolk County was held in North Weymouth on Wednesday last.

The Mutual Lodge of that place received on Saturday last a check for fifty dollars, from Henry H. Faxon, Esq., of the Twenty-ninth district, for the expenses of said Convention.

Disregarding opportunities of political preferment which his position opened to him, Mr. Pierce at the outset of the war, joined the Third Massachusetts Regiment, as a private in Company L, composed mainly of the City Guards of New Bedford, and was sent to Fortress Monroe, sharing with his associates in the hardships and deprivations of a common soldier's life, until shortly before the expiration of his term of service, when he was selected to take charge of the contrabands, as they were then called, who had come into our camp at Hampton.

This was the first occasion on which military use was made of the negroes, and Mr. Pierce's report, intimating their possible future, as aids in suppressing the rebellion, attracted considerable attention at the time, and perhaps led to his appointment by Secretary Chase in 1862, as Commissioner with charge over the slaves—now no longer contrabands, but freedmen—at Port Royal, Beaufort, and other places on the coast of South Carolina.

Joseph King was next arranged for illegally selling intoxicating liquors, Fined \$10 and costs, amounting to \$10.50.

John Gratty of Weymouth for selling intoxicating liquors. His place of business is in a shed recently erected at Quincy Point near the bridge. Case continued.

Mrs. Catherine Ford, who resides at "Dublin," was found guilty of selling intoxicating liquors and fined \$10 and costs.

John McGowen for keeping a liquor nuisance at West Quincy. Case continued.

For the Patriot.

For the Railroad.

The Horse Railroad to Quincy Point is in a condition nearest success, that has been its lot since the subject was first started. The cost of the road when completed, with the exception of six thousand dollars, has been guaranteed by certain parties, and of the amount needed five thousand dollars have been subscribed, chiefly by the people of the Point, generously aided by the Quincy Point Land Associates with fifteen hundred dollars, and we hope to be able to have the representative of the Patriot ride down in a horse-car and view our pleasant portion of the town before ninety days have passed away.

REPUBLICAN CAUCUS. At a meeting of the Republicans of Quincy, held at the Town Hall, on Thursday evening last, Charles Marsh was chosen Chairman, and J. P. Jordan, Secretary.

The following gentlemen were chosen delegates to the State Convention:

George F. Pinkham, Israel W. Munroe, Henry H. Faxon, Jonas Shackley, George Veazie, 2d.

A Committee of nine was chosen to take into consideration the formation of a Grant and Wilson Club. The following gentlemen compose that committee:—Henry H. Faxon, John Q. A. Field, H. Farnam Smith, W. W. Adams, Jonas Shackley, Noah A. Glover, Henry F. Barker, Chas. P. Shumaker, and Alonso Glines.

THE new passenger station of the Old Colony railway at Harrison Square, at the junction of the new Shawmut Branch, is a very tasteful and ornamental structure. The material of which it is constructed is corrugated iron.

DEMOCRATIC CAUCUS. At a caucus held by the Democrats of Quincy on Monday evening, August 19th, the following gentlemen were chosen Delegates to attend the State, Congressional, Senatorial, County, and Senatorial, Conventions viz.

SALES IN QUINCY. David H. McKay sold to Joseph Thomas, 930 feet of land on Atlantic street, for \$1787.

Henry G. Pratt, Jr., sold to S. Doggett, land and buildings on Union street, for \$2900.

Robert Codman sold to J. M. Richards, 10 acres of land and buildings, also 7500 feet and barn on Quincy avenue, for \$7700.

One undivided half of a lot of land containing one-sixth of an acre, with two dwelling houses, outbuildings, &c., on Sea street, owned by Messrs. Henry Brown and Timothy Sullivan was sold by Henry H. Faxon on Wednesday last, to W. T. Cameron for \$1500.

Farmer Edgerley told us "what he knew about farming." His barn is a model of neatness. The first loft is well filled with new, fragrant hay, and an upper one with wheat. Everything is done by rule. Forty years he has worked on the farm and spent but twenty-five cents for hay seed. He always saved his own. He could tell how much he had saved in that one little item alone. He is a veteran of some seventy years.

We shall now bid adieu to these pleasant surroundings, with a tinge of sorrow, for we have certainly had a very enjoyable visit, and hope some future day to repeat it.

GEN. BATES. At a caucus of the Republicans of Weymouth held on Monday evening the 19th inst., the delegates to the Congressional Convention were unanimously instructed to vote for Gen. James L. Bates of Weymouth as the nominee of the Convention.

MISSIONARY WORK. Boston has sent to Africa in the last six months, 439,500 gallons of Medford rum.

Flowers and fruit for the Boston Hospitals, may be sent on Wednesday afternoon and evening of next week to the house of Mr. Jeffrey R. Brackett, Goffe street.

Amid his other duties the subject of this sketch has found time to prepare a number of addresses, speeches, and re-

views on various topics, among which his speech on Reconstruction, in 1868, published by request, and the article in his report of 1870 on Executive Pardons, since adopted at the State House, as containing the best statement of the principles applicable to this subject, have been specially noticed on account of the intellectual power and rhetorical ability shown in their preparation. A treatise on American Railroad Law, by him, has also received high commendation from judges, and others on the subject.

In these days the idea of civil service reform, which means simply—select men for office on account of their character and fitness for it; or, in popular language—The right man in the right place, has been thought worthy of adoption by each of the political parties. The people believe in this principle, and demand its application.

The friends of Mr. Pierce appeal to this test, and try him by what he has done they claim for him,

First. That he is a man of stern, unflinching and fearless integrity.

Second. That he is an able writer and speaker, and a sound, judicious and scholarly man of affairs.

Third. That these qualifications, in combination with large acquaintance with public men and his experience in public business fit him pre-eminently to represent Massachusetts with credit to the State and with honor to himself and his constituents.

And so claiming they will present the name of Mr. Pierce to the voters of the District as a candidate in every way worthy of their votes.

A REPUBLICAN.

GOOD TEMPLARS. A convention of Good Templars in Norfolk County was held in North Weymouth on Wednesday last.

The Mutual Lodge of that place received on Saturday last a check for fifty dollars, from Henry H. Faxon, Esq., of the Twenty-ninth district, for the expenses of said Convention.

Disregarding opportunities of political preferment which his position opened to him, Mr. Pierce at the outset of the war, joined the Third Massachusetts Regiment, as a private in Company L, composed mainly of the City Guards of New Bedford, and was sent to Fortress Monroe, sharing with his associates in the hardships and deprivations of a common soldier's life, until shortly before the expiration of his term of service, when he was selected to take charge of the contrabands, as they were then called, who had come into our camp at Hampton.

The Quincy Patriot.

SATURDAY, AUG. 31, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.
Anonymous communications are not published.

TOWN MEETING. The attendance, at the meeting on Tuesday last, was quite large. The Committee chosen to examine the books of the Cemetery Committee, kept by E. W. Underwood, was not prepared to report and the second article was indefinitely postponed. In accepting streets and courts laid out by the Selectmen, the voter acted rather cautiously, and in fact was so intimidated by remarks by Mr. Thompson Baxter, as to refuse to accept Hancock Court, which has been built for many years, and is in good condition, leading to the residences of some of our most industrious and business men of the town. Refusing to accept it as a town way is certainly not quite right, to say the least.

The next article, relative to raising more money for the highways around the voters to quite a high pitch. They called for the Surveyor's report in "doubtless-quick" time, and not finding it forthcoming, "pitched in" to the Surveyor himself, and before he fairly knew what road they were travelling, he found himself switched off, high and dry, "other side of Jordan," with orders to deliver up his ticket to the Conductors (Selectmen) forthwith. The beauties of a town office were then all before him, with no very delightful surroundings.

Few men have been elected to office in this town, more honest, we believe, than Mr. Ellis. Being new, however, to the business, and allowing himself to be influenced in no small degree by others, he has done things that might have been left undone, and consequently repents that needed his attention, have not been attended to. But we believe when he makes his report he will stand in better light before his fellow townsmen than at the present time.

After the business had been completed, and the meeting nearly dissolved, one of the voters inquired if Mr. Faxon had given the town the \$5000 promised. Upon this question being asked, Mr. Faxon rose and made an explanation, laying down facts and figures so forcibly and in a such scorching a manner, that many would have given much to have been out of the reach of his voice. Such a corner they never were in before, and a temperance lecture they never wished to hear again.

Our obliging Town Clerk has furnished us with a full report of the proceedings which will be found in another column.

HOME AGAIN. Among the recent arrivals from Europe are two of our young townsmen, Messrs. J. Warren Faxon and J. B. Stetson. Mr. Stetson during his stay in London, favored us with several very entertaining letters, which were read with interest and highly complimented. We learn that he will resume his position as organist in the Unitarian Church, after the first of October.

SCHOOL AGAIN. Vacation is now ended. Monday morning we shall see the bright and happy faces of children once more wending their way to school. Having enjoyed the long and pleasant six weeks vacation they will now resume their studies with renewed energies.

OUR POETS. On the outside of today's paper may be found two pieces of original poetry, which are worthy of a careful reading. The authors are gentlemen of this town.

PRIZES AWARDED. The yachts in this place have had several regattas the past few weeks, and the Judges have awarded the prizes as follows:—

First Class. There was but one prize, which was awarded to the Secret, J. Binney, of Weymouth.

Second Class. Fairy Queen, P. Chubuck first prize.

Minnehaha, J. T. Penniman, second prize.

Third Class. Rocket, B. F. Bass, first prize.

Dolly Varden, F. Cleverly of Hull, second prize.

THANKS. Mr. Isaiah White has our thanks for a basket of excellent fruit. Nowhere do we find better fruit and flowers than at his store 100 Tremont street, Boston. His choice pears, peaches, plums, grapes, &c. are truly delicious.

NEW BOOK. Mr. Charles Stearns of this town, has laid on our desk a very interesting book entitled "The Black Man of the South and the Rebels." Mr. Stearns is the author of the work and as a Northern Teacher, Missionary and Planter was an eye witness to many of the scenes described. It is a record of personal experience and is sufficiently comprehensive to supply every intelligent reader with information from which to judge the true condition of Southern society.

JURORS. Messrs. John W. Moore and Joseph W. Moore, have been drawn to serve as Jurors at the September Term of the Superior Court of Norfolk County.

ACCIDENT. An aged sailor, belonging to the National Sailors' Home, was killed by the cars, yesterday afternoon, near the Wollaston Station. A coroner's inquest was held, but adjourned to this morning.

Kansas' corn crops are pronounced immense.

Town Meeting.

A meeting was held on Tuesday, Aug. 27th, at 4 o'clock, r. m.

Elected, Hon. Charles Marsh, Moderator.

Voted, To indefinitely postpone the second article in the warrant relative to the Report of the Cemetery Committee.

Voted, To accept the Report of the Selectmen, laying out a Town way from a point on Washington street to South street.

Also, laying out "Pleasant street" as a Town way, but their Report laying out "Hancock Court" as a Town way was not accepted.

Voted, That the Selectmen be authorized to borrow and appropriate a sum of money sufficient to cover the expense called for in articles 5th and 6th, viz. the widening of the Bridge over the Town Brook &c. and laying out a Pleasant street as a Town way — and that the said money be expended under the direction of the Selectmen free from the interference and control of the Surveyor of Highways.

Voted, That the Selectmen be instructed to call upon the Surveyor of Highways and request him to resign.

Voted, That the Selectmen be instructed to take charge of the Highways for the balance of the year, and that they are hereby authorized to borrow a sum of money not exceeding three thousand (3000) dollars, to be expended by their direction free from the control or interference of the present Surveyor of the Highways.

Voted, That the Selectmen be instructed to call upon the Surveyor of Highways for the same.

Voted, That the meeting be dissolved.

New Hampshire Correspondence.

NEXT HOUSE, Newport, N. H., {

August 20, 1872.

EDITORS OF THE PATRIOT:—Perhaps at this dull season of the year, when news is not and local items are scarce, a few words from one who is rusticaing among the cool hills of New Hampshire, may not be unwelcome.

Six hours ride from Boston via B. L. & N. Railroad, brings us to this pleasant old town of Newport, which is situated on the Sugar River, in the western part of the State. Newport contains about three hundred houses, many of them being built of brick, which is quite extensively manufactured in this vicinity.

The principal business of the place is the manufacture of flannel, there being three factories in the village, all deriving their power from the river. There are two hotels, the Newport House and the Phenix Hotel. The former is a large four-story brick building, situated in the centre of the village, about two miles' walk from the depot.

Four miles from here are the celebrated Unity Springs. These springs are two in number, the Excelsior Iron Spring and the Sulphur Spring. The former contains more iron than any other spring in America, and its wonderful healing qualities are well known.

Fortunately Constable Lombard was near and overhauled him. He pleaded guilty when the charge was read, and was bound over in the sum of \$1000 to appear at the September term of Court at Dedham.

WEDNESDAY.

John Smith, an aged sailor at the National Home in this place, was brought before the Court for being drunk.—Placed guilty and fined \$3 and costs.

Edward Hogan, a tough looking customer from Boston, was examined for an assault on Constable Farnall at Randolph, and was ordered to give securities in \$500 for his appearance at the Superior Court at Dedham in September. Failing to give the securities, he was carried at Dedham.

THURSDAY.

Michael Whalon, of Randolph, was arraigned on two complaints—assault and drunkenness. The charges were not sustained, and he was discharged.

Valentine Dunn of East Abington for assault on Chas. H. Dill. Fined \$10 and ordered to give securities in \$100 to keep the peace for six months.

For the Patriot.

The Concert.

Believing that the citizens of Quincy are disposed to support really first class entertainment when offered for their patronage, we wish to call their attention to the Concert to be given at the Town Hall, on Tuesday evening of next week, by the Temple Quartette Club, assisted by Miss May Percival, and Mrs. W. S. Bradstock pianist.

This Concert is given under the auspices and management of some gentlemen of the town, whose good taste and skill in the art of pleasing the public, is in itself a sufficient guarantee that whatever they are responsible for, will be satisfactory and enjoyable.

To those who have heard this fine quartette of male voices, with Mr. Ryder's magnificent bass as a ground work and graduating through the fine tones of

Messrs. Cook and Fessenden up to the high ringing and yet pleasant tenor of Mr. Fitz, or have listened to Miss Percival's agreeable and inspiring soprano, no suggestion is needed. Those to whom this pleasure is a novelty will not regret it, if they come and hear for themselves, "Robin Roff," as sung by Messrs. Ryder and Fessenden is alone worth the price of admission. Our people will do well to patronize this entertainment, and help to prepare the way for others of a varied character yet to come.

Fire. A house in Hyde Park owned and occupied by Mrs. Sophie Dunbar, was considerably damaged by fire on Tuesday night. It was undoubtedly the work of an incendiary. The building was insured in the Quincy Mutual and Fins companies for \$2500, which will cover the loss.

Flowers and fruit for the Boston Hospitals, may be sent on Wednesday afternoon and evening, of this week to the house of Mr. Charles H. Porter, Hancock street.

Kansas' corn crops are pronounced immense.

District Court of East Norfolk.

In our report last week we overlooked the case of James Scannell of this town, who was tried for being a common drunkard. We are pleased to say he was discharged.

FRIDAY AUG. 23d.

John Gratty, whose case was commenced yesterday for selling intoxicating liquors was discharged.

Jeremiah Cochran, of Quincy, for an assault on Catherine Ford. Pleaded guilty. Complainant acknowledged satisfaction, and defendant paid the costs.

John McGowan, of Quincy, for being a common seller of intoxicating liquors, was fined \$50 and costs.

SATURDAY.

John Donahue of North Bridgewater was found guilty of being drunk. Pleaded guilty and fined \$3 and costs, \$1.

MONDAY.

Matthew Murphy, of Quincy, was arrested by Constable Farnall, by request of his family, and brought into Court this morning on charge of being drunk. Found guilty and fined \$3 and costs, \$1.

TUESDAY.

John Donahue of North Bridgewater was found guilty of being drunk. Pleaded guilty and fined \$3 and costs.

THE PATRIOT OFFICE.

The New England Fair.

The grounds of the New England Fair,

which is to be held at Lowell, Saturday

3d, 4th, 5th and 6th, are the finest ever

occupied by the Society. They embrace

more than 40 acres of land, well grased

so as to prevent any annoyance from

dust. There is an abundance of water in

all parts of the grounds both for man and

beast. The horse stalls, and covered cattle

pens are built of dressed lumber, and are

the best ever provided by the Society.

A large Exhibition building, three

stories in height, containing more than one

half acre of available space, will be used

for the display of carriages, stoves, furni-

ture, hardware, vegetables, &c., on the

first floor; flowers and fruit, miscellaneous

articles on the second floor; sewing ma-

chines, needle work, paintings, fancy goods, &c., on the third floor. The largest tent

in New England, 80x200 feet will be

provided for the Exhibition of Agricultural

implements and farm tools. A tent 50x100

will be devoted to the poultry

show.

Again Mr. A. B. is doubtless conscious

that American commerce is in a very bad

way, and needs looking after. But what

remedy do his investigations of this sub-

ject lead him to advocate? Does he

propose to mend matters by removing

taxes upon materials that enter into the

construction of ships, or by the operation

of power. The person assaulted was a

man of a very slender physical frame,

while his assailant was a stout man, whose

occupation tended to develop his physical

strength.

Again the Quaker Bitters just

in need of them in their deci-

sive and clear the passage down the

path to recovery.

Poetry.

Quiescent.

By EARL MARKE.

In my hammock, softly swinging,
'Neath the branches, to and fro,
Listening to the cricket's singing,
As the twilight shadows grow,
I await returning feathered guest,
That's 'er long, best repose,
As the summer breeze comes stealing,
After winter's dreary shows.

In my hammock, here, quiescent,
With the south breeze in my face,
Gives me faint-dimmed crescent,
Till my eye can scarcely trace,
Wait I for the passing over
Of the shades that 'er me rest
Like the earth-shade that shall cover
Soon the crescent in the west.

After sleep, when best awaking
To the music, brain and soul!
After night, when glorious breaking
Of the day, from pole to pole!
So when I from dormant dreaming
To life's duties wake again,
May a deep, intense gleaming
Prove that slumber were not vain!

Not earth-life dormant often,
Waiting for the future light
That our life shall brighten, sothen,
When beyond earth's shading night?
Earth-life forms a hammock only,
Swinging backward, to and fro,
Hope, our crescent, hanging loosely
In the western heavens low.

What shall follow life's transition,
As our earthly hammocks sway,
But a full and tiresome day
In the golden day?

Earth-life gives the faint-tinted crescent,
Type of change and dread moment;

But the future, indistinct,
In its fulness shines for aye.

Dexter Smith's Paper.

Home, Farm and Garden.

Cider and Vinegar.

A writer to the *Rural New Yorker* says: "The great difficulty in getting a good article of either of the above, every one is aware; and the reason why it is so, is because both are *doctored* so extensively that we are obliged to swallow a great deal of foreign matter to get a little cider, or vinegar, as the case may be—in short, we get a fixed-up mess of stuff intended to represent one or the other of these two articles."

"I get my cider pure, right from the press, and I desire it made the last of the season, in cold, frosty weather. To a barrel of cider add seven pounds of brown sugar; let it ferment until you think it safe to drive in the bung perfectly tight. Rack off into a clean cask in March (if you wish good cider, the cask that holds it must be as clean as your milk pitcher), and take about two quarts of the cider and put in one-quarter pound of gelatine, and let it soak two or three hours; then warm and stir it till the gelatine is all dissolved (I use *Cooper's*). Set away until perfectly cold, and mix with cider, and stir it well with a stick, through the bung-hole, long enough to reach the bottom of the barrel; agitate it thoroughly, and hang up tight; bottle in April or May. If it presses the corks too much, stand it up. The corks must be tied. If it has not life enough, lay it down."

"*VINEGAR.* Sometimes cider is too strong to make vinegar, and will remain in a state too sour to drink and not sour enough for vinegar. In such a case, add about one-third warm water, in which stir in two quarts of molasses to a barrel, and in two or three months you will have sharp vinegar—as sharp as you want! I cannot say this is the *quickest* way, but I know it makes good vinegar."

To COLOR PEARS HANDSOMELY.—Josiah Hoopes, of Pennsylvania, says, all that is necessary will be to spread a blanket on the floor of a cool room, and then thinly and evenly place the fruit on the floor. A second blanket must be spread over them, and in a short time the effect of this treatment will be apparent in the most golden colored Barts and rich, red-looking Seckles imaginable. Pears perfumed in this manner rarely have the meanness of their naturally ripened companions; nor do they prematurely decay the core as when left on the tree.

Leave Quincy at 9 o'clock, A. M. Leave Boston at 2 1/2 P. M.

SATURDAY, SEPT. 7, 1872.

"Born to no Master, of no Sect are we."

Short communications and items of news earnestly solicited from friends and patrons.

23rd Anonymous communications are not published.

CORONER'S INQUEST. Coroner Lewis Bass held an inquisition on Saturday last, on the body of James Barrett, who was killed on the Old Colony and New- port Railway the day previous, of which mention was made in our last issue. The jury returned the following verdict:—

"That the said James Barrett came to his death between the Quincy and Wollaston stations of the Old Colony and Newport Railroad at about 2 20 o'clock on the afternoon of August 30, 1872, by being struck in the head by the inward "Vineyard Express" train while imprudently lying between the tracks of said railway. And the jury are satisfied from the evidence that those having charge of the train did all in their power to prevent the accident. And the jury further find that the said Barrett had been an inmate of the "National Soldiers and Sailors' Home," and had recently been discharged in consequence of profanity and intemperance." Mr. Bass the Coroner has in his possession the baggage of the said Barrett, consisting of clothing and a hammock and other articles. Dr. Faxon testified that Mr. Barrett had been an inmate of the "Home" for some two years, and that he was a very profane old man.

The engineer of the train saw an object which proved to be Mr. Barrett lying between the two tracks of the railroad and thought if he had kept the reclining position in which he was first seen, that the train would have passed him without injury.

CATTLE SHOW AND FAIR. By an advertisement in to-day's paper it will be seen that the 24th annual Fair, of the Norfolk Agricultural Society, will take place next week Thursday and Friday, at their grounds at Readville. The display of fruits, flowers, vegetables and live stock will be quite extensive. The annual address will be made by Col. Stone of Dedham. Governor Washburn and other distinguished gentlemen are expected to be present. Let our citizens be on hand.

The Adams Academy opened on Wednesday with twenty-four pupils, one-fourth of whom was from this town. The school goes into operation for a limited period under the guarantee of liberal citizens of Quincy whose names we have published. It must therefore be regarded as an experiment. The report of the managers due at the next town meeting will probably state what, if any action may be necessary to place the Academy upon a permanent basis.

SHOCKING DISASTER. Friday morning of last week witnessed one of the most terrible calamities, that has ever occurred on Long Island Sound. The propeller Metis, of the Providence and New York steamship company collided with a schooner near Watch Hill, on the Rhode Island shore, and in less than an hour sunk. There were one hundred and fifty-six persons on board the Metis, at the time of the accident, forty of whom were lost. From statements made by some of the survivors, it is thought insufficient examination was made of the hull of the Metis after collision, and that a fatal mistake was made in proceeding on her voyage and refusing assistance from the steamer Stonington. Nearly an hour elapsed between the collision and the sinking of the Metis during which the steamer could have been beached. Only fifteen minutes before the steamer sank the passengers were warned to save themselves as best they could. After that everything was in confusion and the wildest panic prevailed. The passengers were few to take care of themselves.

The Government proposes a very rigorous and searching investigation into the causes of the Metis disaster. It is determined to inform itself with absolute thoroughness with regard to every practical lesson which may be drawn from this disaster.

Flowers and Fruit for the Boston Hospitals, may be sent on Wednesday afternoon and evening of next week to the house of Mr. Edward H. Dewson.

THE OPENING CONCERT. A large and fashionable audience greeted the "Temple Quartette" of Boston, at their concert at the Town Hall on Monday evening. The concert was a decided success; and the hearty demonstration of applause elicited by the varied and excellent performances of the "Quartette," gave *bona fide* evidence that their efforts to please were duly appreciated and admired—and permit us to say, in this connection, to the gentlemen composing the Quartette, that they may well feel proud of their reception, for we fully believe that there are but few in any town of its size in which there are so many excellent vocalists and where music is better appreciated than in Quincy.

It is understood that this concert was but the "opener" of a series of similar entertainments to come off during the fall and winter, and the *éclat* which met the advent will no doubt ensure us several rich musical treats in the future.

AMUSEMENT. "Laugh and grow fat" while you may—and a good opportunity to indulge in that same, is afforded this evening, in a small hall, by dropping in at the Town Hall and listening to Buckley & Sharpley's Great Troupe.

LICENSES. The several boards of county commissioners at Connecticut, met in convention at Hartford on Tuesday and fixed the rates of liquor licenses throughout the State at \$100 for all retailers and \$200 for other dealers. No seller is to be licensed who is not recommended by a majority of the board of selectmen in the town where he lives, as a "suitable and fit person," and not till he files a \$1000 bond, with ample securities, for the strict observance of all liquor and tavern laws. The law goes into effect on the 15th of September.

The wheat crop in the South will be the largest ever harvested.

For the Patriot.
The Statute Law
On the Change of Text Books for the
Public Schools.

"If any change is made, each pupil then belonging to the public schools, and requiring the substituted book, shall be furnished with the same, by the school committee, at the expense of said town."

It will be seen by this just law that neither the school committee, nor the teachers of the public school have any legal right to demand or receive payment for school books when a change is made in said book or books, but the pupils are to have the substituted book or books free of expense to them. Parents of pupils attending the public schools should bear this in mind, as this is a law for your own protection.

RATES OF TAXES. The following is the rate of taxes in some of the cities and towns in this State.

Easton, \$6 80	Walham, \$13 80
Canton, 30 00	Medford, 13 80
Brookline, 8 70	Danvers, 14 20
Dedham, 10 80	Essex, 14 60
Watertown, 11 60	Hingham, 15 50
Boston, 11 70	Marblehead, 15 60
Everett, 12 80	Lawrence, 15 80
Cambridge, 12 00	Fitchburg, 15 80
Arlington, 12 00	Acton, 16 00
Weymouth, 13 00	Chelsea, 16 00
Springfield, 13 00	Natick, 16 50
Somerville, 15 00	Worcester, 17 40
Quincy, 13 00	Newburyport, 18 60
Braintree, 13 20	Gloucester, 19 00
Woburn, 13 30	Taunton, 19 50
Taunton, 13 50	N. Bridgewater, 21 40
	Newton, 13 50

SUPERIOR COURT, DEDHAM. The Grand Jury of the Superior Criminal Court have made their report embracing between fifty and sixty indictments. Among them are the following, which will no doubt interest some of our readers:—Peter Smith, larceny from the house of Patrick McGuire in Braintree, on the 14th of April; George N. Thayer, larceny of horse, wagon and harness, valued at \$350, from John Hall of Quincy; Daniel Fitzsimmons, larceny from Joseph H. Wythe in Quincy; George Spear for an assault on LaRoy Sunderland; Eugene Phipps, assaulting Barron G. Gallucia, an officer, at Dedham on the 17th of August; James Moore, the gentleman who stole the load of produce, and refused to give his name when tried in Quincy;—larceny of horse, wagon and harness, valued at \$225, from Charles Wellington, at Quincy, on the 27th of August; John Murphy, alias James Horgan for an assault on Constable Farnall of Quincy.

SALES. Edward A. Pierce sold 11,250 feet of land, with buildings, to Wm. E. Plummer, on the southwest side of Prospect Avenue, Wollaston, for \$5000.

House and land owned by Arthur Convey on Common street, Quincy, to Michael Garrity, for \$1750.

Clarissa Hayward sold to John Cavanaugh, 3 1/4 acres and 30 rods of land corner of Cherry and Washington streets, Braintree, for \$2750.

SHOCKING DISASTER. Friday morning of last week witnessed one of the most terrible calamities, that has ever occurred on Long Island Sound. The propeller Metis, of the Providence and New York steamship company collided with a schooner near Watch Hill, on the Rhode Island shore, and in less than an hour sunk. There were one hundred and fifty-six persons on board the Metis, at the time of the accident, forty of whom were lost. From statements made by some of the survivors, it is thought insufficient examination was made of the hull of the Metis after collision, and that a fatal mistake was made in proceeding on her voyage and refusing assistance from the steamer Stonington. Nearly an hour elapsed between the collision and the sinking of the Metis during which the steamer could have been beached. Only fifteen minutes before the steamer sank the passengers were warned to save themselves as best they could. After that everything was in confusion and the wildest panic prevailed. The passengers were few to take care of themselves.

BRIEF LOCALS. Rev. Samuel Kelly, Methodist, preached in the Unitarian Church last Sunday.

Rev. G. W. Whitney has taken his residence here and will board a few weeks with Wyman Abercrombie, Esq., until the parsonage is finished.

Mrs. Wm. S. Morton and daughter, also Miss Wright, who have spent the summer months in the West, returned to the evening seems quite pleasant with a fire.

Summary of News.

The tobacco crop of Connecticut amount to \$50,000,000 this year.

It's of no use any longer for ladies to wear expensive jewelry; the imitation cannot be told from the real article.

George H. Locke, Collector.

Quincy, Aug. 31.

Fall River has 30 mills, and employs 15,000 hands.

The Attorney General decided on Saturday that the postal card system cannot go into effect until Congress makes a special appropriation for it.

Every farmer ought to make it a point to attend one or more of the agricultural exhibitions in this neighborhood.

The underground railroad in New York is to begin this month.

The old-fashioned high Spanish comb is about to resume its place in my lady's hair—or at least in the hair she wears.

The Third Avenue Railroad of New York owes two millions of dollar, which is more than its capital stock.

Seals are remarkably plenty and large of sandwich.

Twenty-three thousand copies of the public debt statement were printed in order to meet the demand from all parts of the country.

A negro woman living near Battleboro' N. C., has had seven pairs of twins, and is not over thirty-five years of age.

A turtle's head that had been cut off several days lately bit a duck's neck and killed the fowl in Talbotton, Ga.

The PUBLIC DEBT. The public debt statement, just issued, shows a reduction of \$10,736,635.85 the past month. The total decrease from March 1, 1860, to Sept. 1, 1872, is \$848,141,289.46. The coin balance in the Treasury is nearly seventy-four millions of dollars.

The reader will find a very interesting letter from our Western Correspondent, on the next page.

RETURNED. Our friend, C. Willard Perry with his smiling face, is now going the rounds of his old route, having this week resumed his position on the bakers.

We know that the customers are well pleased to have this accommodating gentleman serve them with the superior articles manufactured at this bakery. Mr. Hodges' custom is very large, not only in our town, but all the neighboring ones where his handsome teams are driven each day. His excellent bread, pies, and cakes are not equalled in the State. And we are pleased to learn that his business is rapidly increasing.

LICENSES. late of Quincy, in the County of Norfolk, deceased, and that she will remain at her trust by giving bonds, as the law directs.

All persons having any claim upon the estate, are directed to exhibit the same to the subscriber, or to the executors named, who are to be appointed by the Probate Court.

MICHAEL M. LEAHY.

Quincy, Sept. 7.

Administratrix's Notice.

Notice is hereby given, that the subscriber is the present Administratrix of the estate of

RICHARD ROSE,

late of Quincy, in the County of Norfolk, deceased,

and that she will remain at her trust by giving bonds,

as the law directs.

All persons having any claim upon the estate,

are directed to exhibit the same to the subscriber,

or to the executors named, who are to be appointed by the Probate Court.

WILLIE BELCHER, Clerk.

A true copy. Attest:

N. B. FARNALD,

Constable of the Commonwealth.

Quincy, June 13, 1872.

CAROLINE K. ROSE, Administratrix.

Quincy, Sept. 7. 1872.

296 Washington Street, Boston.

The Quincy Patriot.

SATURDAY, SEPT. 7, 1872.

Single Copies 5 cents.

FOR SALE AT
The GM Color News Depot, Boston,
E. H. Poor & Co.'s Store, West Quincy,
Souther's Periodical Store, Quincy, and at
The PATRIOT OFFICE.

POSTAL CARDS. We are soon to have one-cent postal cards, which will prove a new incentive to brevity in composition. The telegraph has done much in this direction, but, on account of the high cost of transmitting messages, has been confined principally to important matters of business, the uses of Government and the Associated Press; and notwithstanding an immense business is done by telegraph, it bears no proportion to the brief correspondence that will be inaugurated with the advent of postal cards.

Wild plums, cherries and grapes have been very abundant this season.

The flour mill in process of erection at this place, is nearly completed. This will save traveling thirty miles to Salina to have our wheat converted into flour.

Other improvements are going forward.

The land is truly being brought under cultivation; truly the plains are made to blossom as the rose.

Stock business is lively. Buyers are

plenty and prices high. Most of this

stock is sent East by rail. Wheat is

sold for \$1 per bushel, corn 25 cents;

oats 12; rye 45 to 50; potatoes 50; but-

ter 20; eggs 15; live chickens 25; fresh

beef 6 to 10, and buffalo 3 to 5 cents per

pound.

Wool raisers have done well this sea-

son, having got good heavy fleeces,

high nose of them have been washed,

and will naturally sell for lower prices.

Sheep washing is far too much trouble

for Kansas farmers. I want to see more

of the energetic, live Yankees from your

machine shops and worn out farms, com-

ing to Kansas. They make our most

successful farmers. Our lands are all

cleared and of the richest kind,—inviting

them to come where farming is profit-

able and pleasant.

We are having a lively time here in

politics. A regular genius leads the

Greeley men of this country,—a man

formerly of Pennsylvania. He is a

successful doctor of medicine, law and

divinity; a practical surveyor and an

eloquent orator. He seems to carry his

head along with him, and will have it

in his own way here, his opponents work

hard for Grant which availed them but

little in this country. The Jackson

democrats here seem astride the fence,

having made up their minds to give the

devil the length of his rope and let him

hang himself. C. C. P.

Western Correspondence.

RED ROCK, Aug. 27, 1872.

We have been treated to another severe storm of thunder and lightning, and some rain. Some of our neighbors suffered from the effect of it. We lost all the oats raised on twenty-five acres of land; being in stacks they were struck by lightning, set on fire and consumed. The telegraph has done much in this direction, but, on account of the high cost of transmitting messages, has been confined principally to important matters of business, the uses of Government and the Associated Press; and notwithstanding an immense business is done by telegraph, it bears no proportion to the brief correspondence that will be inaugurated with the advent of postal cards.

His talents, character and abilities being so well known and indisputable it was necessary for those unfavorable to his nomination to find some pretext to injure his popularity. He was therefore styled a "Carpet Bagger;" but his life long residence in the district exploded that allegation, and it also sounded a little too much like a Greeley argument to take well. Other inuendos fell through quickly from their utter falsity.

Milton and Hyde Park have elected Pierce delegates but as they are entitled to only two each their action was not

so much like a Greeley argument to take well. Other inuendos fell through quickly from their utter falsity.

For the last two weeks the weather has been very hot. Were it not for the good fresh breezes which we have most of the time, the heat would be unbearable. A case of sunstroke seldom occurs here, yet the thermometer ranges much higher than in Massachusetts.

Wild plums, cherries and grapes have been very abundant this season.

The flour mill in process of erection at this place, is nearly completed. This will save traveling thirty miles to Salina to have our wheat converted into flour.

Other improvements are going forward. The land is truly being brought under cultivation; truly the plains are made to blossom as the rose.

Good-Nature.

As welcome as sunshine
In every place,
Is the beaming approach
Of a good-natured face.
As gentle as sunshine,
Like warmth to impart,
Is a good-natured word,
From a good-natured heart.

Home, Farm and Garden.

Kicking Cows.

A few years ago, I had considerable experience with kicking cows, and by far the best remedy out of quite a number that I have tried, was the strap or surcingle drawn tightly around the cow just in front of the hips and close to the bag. Tightens it up till she does not attempt to kick. I never knew it to fail. You can gradually loosen it until it will be sufficient to lay it on her back. But be cautious, and do not loosen or leave it off until she makes no effort to kick with it or not. Kick her cannot with the strap tight. The first cow I tried it on was the worst I ever saw. With both hind legs tied together, she would kick backwards like a horse; and then, in addition, one fore leg was tied up, and she would stand up on the other and kick with both hind ones, as soon as an attempt was made to milk her, till she tumbled down; then would get up and kick again until tired out; so the milk was generally left on the stable floor, and it was decided to dry her up, and beef her as soon as possible, though an extra cow. — Cor. Country Gentleman.

Jumping Cattle.

A man who had been troubled with jumping cattle, and who had tried every plan imaginable, with the worst cases of jumping cattle, found nothing would succeed in keeping them in their place, but to put a board over their face. Take an inch board, about fourteen or fifteen inches square, or large enough to cover their eyes, and let it come down within four inches of the end of the nose; tie this to their horns, by boring two holes to correspond with the width of the horns, and they will not jump.

A meadow irrigated by running water is said to be double the value of one irrigated by flooding, a flooded one double the value of a rich loam not irrigated.

W. M. Place fed 18 hens with sour milk mixed with meal (in winter scalded). They produced, in the year, a profit of \$50, besides eggs and chickens used in the family.

The Pacific Rural Press says we have one farmer in our midst, whose bill of expense for the one item of sacks alone in which to sack his crop of the present year, is estimated to be upwards of \$30,000. This unprepossessing plain citizen is John Mitchell, Esq., of our county, (Napa) who has sown to grain this present year on his own lands, 30,000 acres.

A Connecticut amateur farmer swings the scythe with one hand and bears aloft his trusty umbrella with the other. The doctors are said to sit upon the fence and watch him with unfeeling interest, and even the potato-bugs drop their implements of toil to watch the energetic agriculturalist.

An Iowa farmer says if cows go to long without salt, the churning takes more than twice as long as when they had all the salt they want.

The Ohio Farmer asserts that ninetenths of the foot and ankle ailments of the horse are traceable to standing on dry plank floors.

Needoties.

Said a gentleman the other day to an old farmer who is known as a champion "grower,"

"Well, you probably can't find fault this year about not being wet enough for hay. There must be a good crop."

"Yes, but what does it amount to, to have such a crop as this looks like?"

"You can't sell it for five dollars a ton if it keeps on this way."

Sheridan one day, when coming back from shooting with an empty bag, did not like to go home completely empty, and seeing a number of ducks in a pond, and a man or farmer leaning on a rail watching them, said:

"What will you take for a shoot at the ducks?"

"Well," he said, "I will take half a sovereign."

"Done," said Sheridan, and he fired into the midst of the flock, killing a dozen.

"I'm afraid you have made a bad bargain," said Sheridan.

"Well, I don't know," said the man, "they weren't mine."

"Don't you remember the next word in your lesson? It's the word after cheese. What comes after cheese?"

"Mouse!" triumphantly explained the puzzled pupil.

A brok heating counsel asked a witness how far he had been from a certain place.

"Just four yards, two feet and six inches," was the reply.

"How came you to be so exact, my friend?"

"Because I expected some fool or other would ask me the question, so I measured it!"

"Natural selection"—Choosing a wife.

SAWED WOOD AND FUEL.

THE subscriber having bought the Wood and Fuel Business of Mr. L. L. Lee, now offers for sale

HARD AND SOFT WOOD,

"Born to no Master, of no Sect are we."

Short communications and items of news, earnestly solicited from friends and patrons.

Anonymous communications are not published.

Firemen's Parade.

At a meeting of the Committee chosen to make arrangements for a firemen's parade, held at the Selectmen's Room on Tuesday evening last, John W. Hall, was chosen Chairman, and George B. Pray, Secretary.

A committee was then chosen to report a plan, which duly they attended to, and reported as follows:—

That there be a parade of the fire companies of Quincy on the last Saturday of September. The procession to form in the square opposite the Stone Church at two o'clock, and march through the following streets:—Washington, Union, Elm, Quincy Avenue, Liberty, Franklin, School, Hancock to the junction of Adams St., counter marching on Hancock past the Town Hall, around the Stone Temple, to the Square,—passing in review of the Engineers. After the march the companies will probably partake of a collation or dinner,—but that subject is left with each company to decide. After dinner the companies will be allowed to draught and play through 250 feet of hose, using any size nozzle they desire. Time allowed each company is twelve minutes after they are ready to commence playing.

SMITHVILLE. We learn that some twenty or more acres of land belonging to the Taylor farm, on the west side of Hancock street, and north of Mr. John Faxon's residence, has recently been purchased by a gentleman from Boston. Highlands, for about one thousand dollars an acre.

A large number of workmen are busily engaged making streets, and laying out the land for houses. A part of the lot is quite low, entirely unfit for building purposes, but there are some excellent building sites.

It is said that a boot manufactory and a large number of houses are soon to be erected at this place, which is to be called "Smithville." Progress appears to be marching onward, in all parts of the town.

BRIEFS. The veteran printer Mr. M. T. Teprel, called at our office on Saturday last. He is at work in an office in Wakefield, and was looking uncommonly well.

The flowers in the gardens are looking beautiful now. Nature seems to have donned her richest hues. All who pass Col. Packard's turn to admire the profusion of rich colors that are massed together.

D. Fred French who left this place for Colorado in June last, arrived home the present week.

The Washington M. French Hose Co., with some invited guests, had a grand clam bake at Hough's Neck, on Thursday afternoon. The day was pleasant and the party had a delightful time.

MORE LIGHT FOR THE WICKED.—There has been erected by the town at the present week, a gas post at the north corner of the cemetery, near the Town Hall, with the following words painted on the glass:—"Police Station." This new light is for the benefit of officers and criminals who are obliged to go to the lockup in the evening.

A NEW PUMP. The Selectmen are fixing, the present week a new pump and trough over the Town brook, at the intersection of School street, according to a vote and appropriation of the town. The work is being well done, and we believe many of our townsmen will be well pleased with it, as it certainly was much needed.

PHOTOGRAPHS. Mr. A. M. Turner, over the post office, can make you as handsome a picture as you can procure at any of the first class photograph saloons in the city. See advertisement.

CONVENTIONS. The Democrats and Liberal Republicans of this State, united in convention on Tuesday in Worcester, and nominated State Officers. The conventions were large and harmonious. Hon. Edward Avery of Braintree was chosen President of the Democratic convention and Hon. N. P. Banks, President of the Liberal Republican. The following nominations for State officers were made.

For Governor,—Charles Sumner of Boston.

For Lieutenant-Governor,—George M. Stearns of Chicopee.

For Secretary of State,—George H. Monroe of Boston.

For Treasurer,—Levi Heywood of Gardner.

For Auditor,—Patrick A. Collins of Boston.

For Attorney-General,—Waldo Colburn of Dedham.

For Electors at large,—Chester W. Chapin of Springfield and Frank W. Bird of Walpole.

The nominations were greeted with loud and hearty cheers, the name of Sumner being received with waving of hats and shouts. They were unanimously accepted and ratified with six cheers.

We are requested to say that John Ring, who was tried at the Police Court in this town recently for being a common drunkard, was not the express-man of his name.

SALES. Emily E., wife of James N. Blake, bought of Moses W. Sleeper, the estate on which they reside, on Cottage street, for \$2550.

L. W. Anderson bought of Henry H. Faxon, the handsome place on Granite street, known as the Southworth estate, consisting of two acres of land, with fine buildings, for \$10,500.

Messrs. Keating & Spear have bought the estate on Washington street, consisting of the store occupied by them, the house and other buildings adjoining, for about \$7000.

Geo. S. Dodge, bought the land on the north side of Summit avenue, Wollaston; also, a lot on the north side of Hillsdale avenue, 20,250 feet, at the same place, of Benjamin Dodge, for \$1650.

John P. Lacy, bought 28,125 feet of land in Hillsdale, of Benjamin Dodge, for \$2671.

Eliza A. L., wife of C. H. Merriam bought 6 1/2 acres of land, with buildings, on Poor Lane, Milton, of Lemuel Gulliver for \$1500.

Thomas H. Hayes, bought of Finton Murphy land on the South side of Commercial street and a corner of a private way Braintree, with buildings, for \$2825.

GRANT CLUB. The Republicans of this place met at the Town Hall, on Tuesday evening last, for the purpose of forming a Grant and Wilson Club.—Henry H. Faxon, Esq., pres iding. The Committee chosen at a subsequent meeting made their report, and the following gentlemen were elected

OFFICERS OF THE CLUB.
President.—Charles Marsh.

Vice Presidents.—H. Farnam Smith, Henry H. Faxon, Chas. H. Porter, C. A. Howland, Wm. B. Worcester, E. B. Pratt, Jonas Shackson, E. H. Dewson, N. A. Glover, C. A. Foster.

Secretaries.—John P. Bigelow, H. F. Barker, Samuel Gregg, Samuel R. Kelly, Treasurer, W. W. Adams.

Finance Committee.—J. Q. A. Field, W. M. French, H. F. Smith, Jonas Shackson, Geo. Savil, C. A. Howland, C. P. Shoemaker, E. B. Souther, E. A. Adams, J. P. Bigelow, W. W. Adams, H. G. Field.

Canvassing Committee.—N. A. Glover, E. A. Adams, Jonas Shackson, Alonzo Glens, Geo. F. Pinkham, J. P. Jordon, E. A. Adams, E. Ransdell, S. N. Crane, H. F. Smith, Geo. B. Pray, S. F. Newcomb, Henry H. Faxon, Chas. Marsh, H. F. Barker, Geo. L. Gill.

A DELIGHTFUL EXCURSION. About fifty of our citizens went to Rocky Point on Monday last, and had a grand time.—An excursion train started from Boston at 8:45, with some two hundred persons, company by Gilmore's Band and added largely at every stopping place. At Fall River they were joined by the American Brass Band of Providence, and a large number of citizens from that place. All hands then embarked on the steamer Canonicus to Rocky Point. During the sail down the bay, which was the most enjoyable portion of the trip to many, the consolidated bands played some superb selections, under the baton of Capt. Reeves, who was from first to last the leading spirit in the enterprise. During the day there were some 2500 people on the steamer, and when the train was "made up" it was found necessary to closely pack six cars.

FRUIT. We would return thanks to Messrs. J. N. & A. F. Blake for a basket of beautiful peaches. We believe there is nothing more delicious and wholesome than fresh, ripe fruit. Just at this time peaches, grapes, apples and melons are quite plenty. It will be seen by their advertisement that all kinds of fruit can be found at their store. Call and see for yourselves.

LEWIS W. NEWCOMB, Esq., has our thanks for packages of California papers, which for size, general appearance, and amount of reading matter, cannot be excelled by papers in any other part of the Union. The Weekly Alta California, is a marmoset sheet, comparing well with other large products coming from the Pacific shore.

BURGLARS IN MILTON. The usually quiet town of Milton has been experiencing a new sensation recently, and a rather unpleasant one, too. Within a few weeks no less than seven dwellings and barns have been visited by burglars, in several instances the rogues succeeding in capturing considerable booty. The stable of Mr. R. A. Richards was entered and harnesses worth \$700 were stolen. A subsequent attempt to enter the same premises was foiled by the vigilance of a watch-dog. On Sunday night of last week, the stable of Mr. W. William Sumner was visited and a valuable harness captured. An attempt was made to enter the stable of Mrs. Jesse Vose, but a watch-dog frightened the thieves. Visitors to Mr. Babcock's house were frightened off before effecting an entrance.

A strange man entered the residence of Rev. Mr. Teele one night, and thoroughly ransacked the study in search of about \$400 which the minister's friends had recently presented him as a token of their regard for him on his misfortune, he having recently severely injured one arm. Failing to find the money the robber went up stairs into the sleeping room of Miss Fannie Teele, who suddenly woke up and screamed, whereupon the rogue skedaddled.

On the same night the house of Mr. Hayden was visited, but the thief, after searching nearly every room, departed as poor as they came.

The stable of Miss Anna Davenport was entered a few minutes after and a harness, whip, and several small articles were confiscated.

CHOICE MILLINERY. The attention of our lady readers is invited to the rich stock of choice French Millinery that is to be found at the store of Cushman & Brooks, 37 & 39 Temple Place, Boston.

For Sale Cheap, for less than \$250.

Good cotton pickers can make \$3 a day in Texas.

District Court of East Norfolk.

SALES. Emily E., wife of James N. Blake, bought of Moses W. Sleeper, the estate on which they reside, on Cottage street, for \$2550.

Harris Farnam, of West Quincy, was complained of for keeping a liquor nuisance. Pleaded guilty and fined \$50 and costs.

Edward Burns of Quincy was brought before the Court this morning by Constable B. J. Loring, for stealing fruit from the garden of Rev. Jonas Perkins, in East Braintree. Case continued until Tuesday morning.

Morris Cockey, of East Braintree, was next tried for being a common drunkard. Found guilty and sentenced to the House of Correction for two months.

John P. Lacy, bought 28,125 feet of land in Hillsdale, of Benjamin Dodge, for \$2671.

Geo. S. Dodge, bought the land on the north side of Summit avenue, Wollaston; also, a lot on the north side of Hillsdale avenue, 20,250 feet, at the same place, of Benjamin Dodge, for \$1650.

John P. Lacy, bought 28,125 feet of land in Hillsdale, of Benjamin Dodge, for \$2671.

Eliza A. L., wife of C. H. Merriam bought 6 1/2 acres of land, with buildings, on Poor Lane, Milton, of Lemuel Gulliver for \$1500.

Death of a Veteran Army Officer.

Brevet Brig. Gen. Sylvanus Thayer of the United States Engineer Corps, died at his residence in South Braintree on Saturday last. Forty-five years of active military service is placed to his credit in the annals of the graduates of the United States Military Academy, of which he was one of the earliest and most competent superintendents and instructors.

The last and tributes of affection were paid to his memory on Tuesday afternoon on the occasion of the solemnization of the funeral service, in the Rev. Dr. Storrs' church, Braintree. A special car from Boston conveyed the pall-bearers and other intimate friends of the deceased, many of whom were West Point graduates, to Braintree, where carriages waited to convey them to the late residence of General Thayer on Washington street, near the Town Hall.

The venerable Dr. Storrs offered a fervent prayer before the mourners at the house, after which the procession was formed and the funeral cortège started for the church. They arrived at the sacred edifice at a quarter past four o'clock, and as the carriages came in sight, the mournful cadence of the "funeral bell" broke the stillness of the afternoon. The casket was taken from the hearse and borne up the aisle to the front of the altar, while the organ pealed forth a funeral march. A sweet wreath of white roses and evergreens was placed on the coffin, and the mourners took seats in the front pews, which were reserved for their accommodation. Almost every seat in the church was filled, and the military uniform of the pall-bearers attracted much attention. The pulpit was occupied by Rev. Dr. Storrs, Rev. E. P. Tenney, President Smith of Dartmouth College, and Professor Fletcher of the "Thayer school," Dartmouth College.

The services opened with an anthem, after which Rev. Mr. Tenney read the well known psalm commanding "Lord thou has been our dwelling place." President Smith offered a prayer, which was followed by a hymn.

The benediction was then pronounced by Rev. Mr. Tenney, after which the lid of the coffin was removed and friends allowed an opportunity to take a last look at the familiar face of the dead.

The procession then reformed and passed into the old burying ground opposite the church, where the remains were laid to rest by the side of his father and mother.

The funeral arrangements were under the direction of the Hon. Asa French, District Attorney of Norfolk county, and were perfect in every respect.

GEN. THAYER'S WILL.

His donations in lifetime to Dartmouth College are well known as about \$70,000.

To the town of Braintree he has become obligated to contribute about \$30,000 for a public library.

His will, after sundry family bequests, provides that the residue shall constitute a fund for the establishment of an educational institution, in which civil engineering and kindred branches shall be specialties, while the whole shall be of alibit character, comparing favorably with any first-class academy in the State; to be located conditionally in Braintree, otherwise in Quincy or Randolph, and for the benefit principally of these towns. The fund for these purposes is variously estimated at from \$150,000 to \$200,000.

The trustees of this fund are Hon. Geo. T. Bigelow, Wm. S. Dexter, Esq., Rev. George A. Thayer of Boston, Hon. Asa French of Braintree, Hon. Solomon Lincoln of Hingham, Doctor Ebenezer Alden and Seth Turner of Randolph and possibly others.

The Executors of Gen. Thayer's will are Hon. Josiah P. Cooke, Wm. S. Dexter, Esq., Rev. George A. Thayer of Boston and Seth Turner of Randolph.

One of the Stoughton Sabbath schools passed through town on Thursday, accompanied by the Randolph Band, on their way to Lovell's Grove.

NEWPORT. Another letter from our correspondent at Newport will be found on the outside page. It contains some historical sketches which makes it very interesting.

Flowers and Fruit for the Boston Hospital may be sent on Wednesday afternoon and evening of next week to the house of Misses Beale.

TEA GROWING IN INDIA. The experiment of growing tea in India is proving quite successful. In 1862 the crop was estimated at 1,000,000 pounds; in 1871, at something over 20,000,000. It is claimed that India can now compete with China in producing tea of the best quality.

Administrator's Notice.

NOTICE is hereby given, that the subscriber has been duly appointed Administrator of the estate of SAMUEL F. GUILDF.

The Chinese mix willow leaves with tea, and the British Consul at Shanghai recently reported that 53,000 pounds of the leaves were in course of manipulation at one port, to be mixed with tea for shipment.

During the six months ending July 1, eighty-four wills were probated in Bristol county, disposing of nearly a million and a half of property. Stamps to the value of \$7,500 were used upon the wills.

CAROLINE K. ROSE, Administratrix.

Quincy, June 12, 1872. Sept. 7-8-9

Thanks to Henry H. Faxon, Esq.,
Quincy, Aug. 20, 1872.

THOMAS COLE, Esq.

Dear Sir.—Wishing to encourage the Mechanics Mutual Relief Association, of which you are President, I enclose my check for \$50 to be used as the members may think proper.

I hope that the Association will do all in their power to help promulgate the cause of Temperance, for I know that any association that adopts the great moral questions of the day to govern themselves, will be successful.

I have good reason to believe that over two thirds of the crime and poverty in our midst, can be traced directly or indirectly to intemperance. With my best wishes that your efforts may be productive of great good.

I am,
Very truly yours,
HENRY H. FAXON,

HENRY H. FAXON Esq.:

Dear Sir.—The Mechanics Mutual Relief Association, of West Quincy, acknowledge the receipt of your letter dated Aug. 20th, containing therein your check for the sum of \$50, for which they return their grateful thanks and feel flattered to think they are recognized as a door good by so distinguished a citizen.

Our aim is to assist one another in case of inability, of any to attend to his daily vocation.

Although not organized for the express purpose of promulgating the cause of Temperance, we are well satisfied it is a good cause and one which many of our ablest and best men have encouraged, defended and promulgated, with great strength, and from which we have seen thousands of good effects. Hoping the time may soon come when intemperance shall cease to leave any traces of poverty or crime behind it, and wishing you every success in your efforts to do good.

We remain,

Yours very respectfully,
M. M. R. ASSOCIATION.
Quincy, Sept. 11, 1872.

For the Patriot.
Anniversary.

The fifth Anniversary of the West Quincy Sunday School was observed on Sunday last, and though the afternoon was excessively warm a good audience was present, and listened attentively to the exercises throughout. The report of the Superintendent, Mr. W. D. Spelman, showed the school to be in excellent condition.

The average attendance for the year was 71 2-3 which is nearly the same that it has been each year since the school was organized. The Infant Department, under the faithful charge of Mrs. Robinson, constitutes nearly one-third of the school, the average being 23 3-4.

Number of Volumes in the Library 381. Besides providing for the usual running expenses of the year, the school has purchased and paid for an excellent cabinet organ, costing \$140, and close the year with a balance in the Treasury. And besides, the children have collected by penny contributions for benevolent purposes.

The benediction was then pronounced by Rev. Mr. Tenney, after which the lid of the coffin was removed and friends allowed an opportunity to take a last look at the familiar face of the dead.

The procession then reformed and passed into the old burying ground opposite the church, where the remains were laid to rest by the side of his father and mother.

The funeral arrangements were under the direction of the Hon. Asa French, District Attorney of Norfolk county, and were perfect in every respect.

late of Quincy, in the County of Norfolk, deceased, and has taken upon himself that trust by giving bonds, as the law directs.

All persons having demands upon the estate of said deceased, and who are entitled to payment, are directed to make their claims known to the subscriber, and all persons indebted to said estate are called upon to make payment to

HENRY GUILDF, Administrator.

Quincy, Sept. 12, 1872. Sept. 14-15-16

CAROLINE K. ROSE, Administratrix.

Quincy, June 12, 1872. Sept. 7-8-9

REDUCING THE OFFICE HOLDERS.

When the new Internal Revenue law comes into effect, October 1st, besides reducing the taxes, the number of collectors and assessors of Internal Revenue is also to be reduced. There are now 230 of these officials, and the force is to be reduced to 80, nearly two thirds of the force being thus discharged. The Department at Washington is already making preparations for the contemplated reduction, and in view of it, several officials are said to have already presented their resignations. The country always receives with pleasure every thing that tends to reduce government expenditures and consequently lightens taxation.

DEAD LETTERS.

Nearly three million letters went to the dead letter office last year. They are partly classified as follows: 38,000 letters have no country or State directions; more than 400,000 lacked stamps, and 3000 were posted without any address at all; \$9,200 in drafts, checks, etc., were found in these letters. It appears that on the average, every letter misdirected, or that goes to the dead letter office from any cause, contains one dollar.

POSTMASTER-GENERAL CRESWELL.

It is hereby given, that the subscriber has been duly appointed Postmaster-General of the United States, dated July 1, 1872, and recorded with Norfolk Deeds, in the County of Norfolk, on the 25th day of May, A. D. 1871, and with Norfolk Deeds, in the County of Norfolk, on the 25th day of May, A. D. 1872, at eight o'clock in the forenoon.

ADMINISTRATRIX'S NOTICE.

NOTICE is hereby given, that the subscriber has been duly appointed Administratrix of the Estate of MARTIN SMITH,

late of Quincy, in the County of Norfolk, deceased,

and has taken upon himself that trust by giving bonds, as the law directs.

All persons having demands upon the estate of said deceased, and who are entitled to payment, are directed to make their claims known to the subscriber, and all persons indebted to said estate are called upon to make payment to

ANNIE E. SMITH, Administrator.

Qu

Poetry.

Fate.

"The sky is clouded, the rocks are bare,
The spray of the tempest is white in air;
The winds are out with the waves at play,
And I shall not meet the sea to-day.
"The trail is narrow, the wood is slim,
The panther clings to the arched limb,
And the lion's whelps are about at play,
And I shall not join in the chase to-day.
The ship sailed safely over the sea;
And the hunted deer from the chase in glee;
And the town that was uplifted upon a rock
Was swallowed up in the earthquake's shock.

Home, Farm and Garden.

Horse Shoeing.

At a meeting of the St. Louis Farmers' Club, the following discussion occurred on the above subject:

Mr. Peabody—Will the Chairman tell us something of the value of the patent horse shoes that were exhibited here some time ago, adapted to fastening to the foot without nails?

Mr. Colman—I think very well of them; but I am inclined to think it will require more care and skill to fit them properly than most farmers will be willing to use—they would rather go to the blacksmith and have the shoes nailed on. It would save the horse's feet very much to do without nails. There is no subject of more importance, in connection with horses, than shoeing. If horses could speak they would piteously complain of the bad treatment of their feet. We all know what misery is ill-fitting boots cause; yet leather is yielding, and iron is not. Many horses are rendered lame and useless by bad shoeing and by leaving the shoes on too long, than by any other cause.

The anatomy of the horse's foot should be understood by the shoer. It is common to pare off too much, even the frog and to rasp off the outside. The frog should never be interfered with—it will shed off itself. It is a sort of cushion to sustain a portion of the horse's weight. The bars should be elastic—not too much confined by the unyielding iron. There should be as much space of the sides of the hoof left free as possible. I should prefer to use but three nails, and place them as far forward as possible. Shoes should be re-set often—once a month. On our streets and on stony farms, shoes may be necessary; but on ordinary farms, they may be dispensed with in summer, and should be as much as possible.

Be sure, in shoeing, that you get a level surface for the shoe. Small nails should be used. Bonner takes exquisite care in the shoeing of his horses. He has a block of marble perfectly level, on which to put the foot to see that it is level. Red-hot iron should be kept off the hoof—it is an outrage.

Mr. Murtfeldt—In Germany, the horse shoer is required to understand the anatomy of the horse's foot. A lazy blacksmith will pare mostly the softer parts, which ought to be pared but little. Dr. Spalding objects to the use of the buttress upon his horses feet at all. I think on the farm the shoes may remain on six weeks without injury.

Mr. Page—It is a subject I have thought of a good deal. The best horse-shoer I ever knew, never put a hot shoe upon the foot. Every blacksmith who does it, ought to have a hot shoe applied once to himself. I have thought that a horse's shoe might be made in sections—two pieces—as to admit of the expansion of the hoof.

Tomatoes Healthy.

The tomato is one of the most healthful of all the vegetables. It may be eaten three times a day, cold or hot, cooked or raw, alone or with salt, pepper, vinegar, and in the utmost that can be taken with an appetite. Its healthful quality arises from its slight acidity, as berries, currants and similar article, and it is also highly nutritious. The tomato season ends with the frost; if hung up in a well-ventilated cellar, with the tomatoes hanging to the vines, they will continue to ripen until Christmas. The cellar should not be too dry, nor too warm. The knowledge of this may be improved to great advantage for the benefit of all who are fond of the tomato.

One who knows makes it a point to select a yellow skin. One whose skin is pale or colorless, is not, he says, half so likely to produce good butter.

Mrs. Davidson of Michigan has frequently driven a mowing-machine through seven acres of grass in one day this summer. Her husband is getting very fast.

Quiney and Boston Express.

Children not unfrequently get things much mixed.

"Do you like Bible stories?" asked one little fellow of another.

"Yes; Aunt Susie tells them to me."

"Then get her to tell you about Solomon's swallowing the whale."

"My dear," inquired a young bride of her husband, "have you seen the beautiful set of furniture which the Smith have purchased?"

"Hem, no, my love, but I have seen the bill, and it quite satisfied me."

The other day, while the rain was pouring in torrents, a countryman was going up the street, vainly trying to protect his umbrella under his coat.

"Why don't you open your umbrella, man?" asked a passerby.

"A new umbrella in such a rain as this! Why you must be mad!" replied the man.

SAWED WOOD AND FUEL.

The Quincy Patriot.

SATURDAY, Sept. 14, 1872.

"Born to no Master, of no Sect are we."

Short communications and items of news earnestly solicited from friends and patrons.

Anonymous communications are not published.

Firemen's Parade.

At a meeting of the Committee chosen to make arrangements for a firemen's parade, held at the Selectmen's Room on Tuesday evening last, John H. Hall, was chosen Chairman, and George B. Pray, Secretary.

A committee was then chosen to report a plan, which they attended to, and reported as follows:—

That there be a parade of the fire companies of Quincy on the last Saturday of September.

The procession to form in the square opposite the Stone Church at two o'clock, and march through the following streets—Washington, Union, Elm, Quincy Avenue, Liberty, Franklin, School, Hancock to the junction of Adams St., counter marching on Hancock past the Town Hall, around the Stone Temple, to the Square,—passing in review of the Engineers. After the march the companies will probably partake of a collation or dinner,—but that subject is left with each company to decide. After dinner the companies will be allowed to drang and play through 250 feet of hose, using any size nozzle they desire. Time allowed each company is twelve minutes after they are ready to commence playing.

SMITHVILLE. We learn that some twenty or more acres of land belonging to the Taylor farm, on the west side of Hancock street, and north of Mr. John Faxon's residence, has recently been purchased by a gentleman from Boston Highlands, for about one thousand dollars an acre.

A large number of workmen are busily engaged making streets, and laying out the land for houses. A part of the lot is quite low, entirely unsuited for building purposes, but there are some excellent building sites.

It is said that a boot manufactory and a large number of houses are soon to be erected at this place, which is to be called "Smithville." Progress appears to be marching onward, in all parts of the town.

BRIEFS. The veteran printer Mr. M. Teprell, called at our office on Saturday last. He is at work in an office in Wakefield, and was looking uncommonly well.

The flowers in the gardens are looking beautiful now. Nature seems to have donned her richest hues. All who pass Col. Packard's turn to admire the profusion of rich colors that are massed together.

D. Fred French who left this place for Colorado in June last, arrived home the present week.

The Washington M. French Hose Co., with some invited guests, had a grand clam bake at Hough's Neck, on Thursday afternoon. The day was pleasant and the party had a delightful time.

MORE LIGHT FOR THE WICKED.—

There has been erected by the town the present week, a gas post at the north corner of the cemetery, near the Town Hall, with the following words painted on the glass:—"Police Station." This new light is for the benefit of officers and criminals who are obliged to go to the lockup in the evening.

NEW PUMP. The Selectmen are fixing, the present week a new pump and trough over the Town brook, at the intersection of School street, according to a vote and appropriation of the town. The work is being well done, and we believe many of our teamsters will be well pleased with it, as it certainly was much needed.

PHOTOGRAPHS. Mr. A. M. Turner, over the post office, can make you as hand-some a picture as you can procure at the price of the first class Photograph saloons in the city. See advertisement.

CONVENTIONS. The Democrats and Liberal Republicans of this State, united in convention on Tuesday in Worcester, and nominated State Officers. The conventions were large and harmonious. Hon. Edward Avery of Braintree was chosen President of the Democratic convention and Hon. N. P. Banks, President of the Liberal Republican. The following nominations for State officers were made.

For Governor,—Charles Sumner of Boston.

For Lieutenant-Governor,—George M. Stearns of Chicopee.

For Secretary of State,—George H. Monroe of Boston.

For Treasurer,—Levi Heywood of Gardner.

For Auditor,—Patrick A. Collins of Boston.

For Attorney-General,—Waldo Colburn of Dedham.

For Electors at large,—Chester W. Chapman of Springfield and Frank W. Bird of Walpole.

The nominations were greeted with loud and hearty cheers, the name of Sumner being received with waving of hats and shouts. They were unanimously accepted and ratified with six cheers.

We are requested to say that John Ring, who was tried at the Police Court in this town recently for being a common drunkard, was not the express-man of his name.

SALES. Emily E., wife of James N. Blake, bought of Moses W. Sleeper, the estate on which they reside, on Cotting street, for \$2550.

L. W. Anderson bought of Henry H. Faxon, the handsome place on Granite street, known as the Southworth estate, consisting of two acres of land, with fine buildings, for \$10,500.

Messrs. Keating & Spear have bought the estate on Washington street, consisting of the store occupied by them, the house and other buildings adjoining, for about \$7000.

Geo. S. Dodge, bought the land on the north side of Summit avenue, Wollaston, also, lot on the north side of Hillside avenue, 20,250 feet, at the same place, of Benjamin Dodge, for \$1650.

John P. Lacy, bought 28,125 feet of land on Hillside avenue, of Benjamin Dodge, for \$2671.

Eliza A. L., wife of C. H. Merriam bought 6 1/2 acres of land, with buildings, on Poor-house lane, Milton, of Lemuel Gulliver for \$1500.

Thomas H. Hayes, bought of Finton Murphy land on the South side of Commercial street and a corner of a private way Braintree, with buildings, for \$2825.

GRANT CLUB. The Republicans of this place met at the Town Hall, on Tuesday evening last, for the purpose of forming a Grant and Wilson Club.—Henry H. Faxon, Esq., pres iding. The Committee chosen at a subsequent meeting made their report, and the following gentlemen were elected

OFFICERS OF THE CLUB.

President,—Charles Marsh.

Vice Presidents,—H. Farnam Smith, Henry H. Faxon, Chas. H. Porter, C. A. Howland, Wm. B. Worcester, E. B. Pratt, Jonas Shadley, E. H. Dewson, N. A. Glover, C. A. Foster.

Secretaries,—John P. Bigelow, H. F. Barker, Samuel Gregg, Samuel R. Kelly, Treasurer,—W. W. Adams.

Finance Committee,—J. Q. A. Field, W. M. French, H. F. Smith, Jones Shadley, Geo. Savil, C. A. Howland, C. P. Shoemaker, E. B. Souther, E. A. Adams, J. P. Bigelow, W. W. Adams, Geo. H. Field.

Carrying Committee,—N. A. Glover, E. A. Adams, Jonas Shadley, Alonzo Glines, Geo. F. Pinkham, T. P. Jordon, E. A. Adams, E. Ramsdell, S. N. Crane, H. F. Smith, Geo. B. Pray, S. F. Newcomb, Henry H. Faxon, Chas. Marsh, H. F. Barker, Geo. H. Field.

A DELIGHTFUL EXCURSION. About fifty of our citizens went to Rocky Point on Monday last, and had a grand time.—An excursion train started from Boston at 8:45, with some two hundred persons, accompany by Gilmore's Band and added largely at every stopping place. At Fall River they were joined by the American Brass Band of Providence, and a large number of citizens from that place. All hands then embarked on the steamer Canonius for Rocky Point. During the day there were some 2500 people on the premises, and when the train was "made up" it was found necessary to closely pack six cars.

FRUIT. We would return thanks to Messrs. J. N. & A. F. Blake for a basket of beautiful peaches. We believe they are nothing more delicious and wholesome than fresh, ripe fruit. Just at this time pears, peaches, grapes, apples and melons are quite plenty. It will be seen by their advertisement that all kinds of fruit can be found at their store. Call and see for yourselves.

W. W. Newcomb, Esq., has our thanks for packages of California papers, which for size, general appearance, and amount of reading matter, cannot be excelled by papers in any other part of the Union. The Weekly Alta California, is a mammoth sheet, comparing well with other large products coming from the Pacific shore.

BURGLARS IN MILTON. The usually quiet town of Milton has been experiencing a new sensation recently, and a rather unpleasant one, too. Within a few weeks no less than seven dwellings and barns have been visited by burglars, in several instances the rogues succeeding in capturing considerable booty. The stable of Mr. R. A. Richards was entered and barns worth \$700 were stolen. A subsequent attempt to enter the same premises was foiled by the vigilance of a watch-dog. On Sunday night of last week, the stable of Mr. William Somers was visited and a valuable harness captured. An attempt was made to enter the stable of Mrs. Jesse Vose, but a watch-dog frightened the thieves. Visitors to Mr. Babcock's house were frightened.

For Auditor,—Patrick A. Collins of Boston.

For Attorney-General,—Waldo Colburn of Dedham.

For Electors at large,—Chester W. Chapman of Springfield and Frank W. Bird of Walpole.

The nominations were greeted with loud and hearty cheers, the name of Sumner being received with waving of hats and shouts. They were unanimously accepted and ratified with six cheers.

We are requested to say that John Ring, who was tried at the Police Court in this town recently for being a common drunkard, was not the express-man of his name.

S. Emily E., wife of James N. Blake, bought of Moses W. Sleeper, the estate on which they reside, on Cotting street, for \$2550.

L. W. Anderson bought of Henry H. Faxon, the handsome place on Granite street, known as the Southworth estate, consisting of two acres of land, with fine buildings, for \$10,500.

Messrs. Keating & Spear have bought the estate on Washington street, consisting of the store occupied by them, the house and other buildings adjoining, for about \$7000.

Geo. S. Dodge, bought the land on the north side of Summit avenue, Wollaston, also, lot on the north side of Hillside avenue, 20,250 feet, at the same place, of Benjamin Dodge, for \$1650.

John P. Lacy, bought 28,125 feet of land on Hillside avenue, of Benjamin Dodge, for \$2671.

Eliza A. L., wife of C. H. Merriam bought 6 1/2 acres of land, with buildings, on Poor-house lane, Milton, of Lemuel Gulliver for \$1500.

Thomas H. Hayes, bought of Finton Murphy land on the South side of Commercial street and a corner of a private way Braintree, with buildings, for \$2825.

GRANT CLUB. The Republicans of this place met at the Town Hall, on Tuesday evening last, for the purpose of forming a Grant and Wilson Club.—Henry H. Faxon, Esq., pres iding. The Committee chosen at a subsequent meeting made their report, and the following gentlemen were elected

OFFICERS OF THE CLUB.

President,—Charles Marsh.

Vice Presidents,—H. Farnam Smith, Henry H. Faxon, Chas. H. Porter, C. A. Howland, Wm. B. Worcester, E. B. Pratt, Jonas Shadley, E. H. Dewson, N. A. Glover, C. A. Foster.

Secretaries,—John P. Bigelow, H. F. Barker, Samuel Gregg, Samuel R. Kelly, Treasurer,—W. W. Adams.

Finance Committee,—J. Q. A. Field, W. M. French, H. F. Smith, Jones Shadley, Geo. Savil, C. A. Howland, C. P. Shoemaker, E. B. Souther, E. A. Adams, J. P. Bigelow, W. W. Adams, Geo. H. Field.

A DELIGHTFUL EXCURSION. About fifty of our citizens went to Rocky Point on Monday last, and had a grand time.—An excursion train started from Boston at 8:45, with some two hundred persons, accompany by Gilmore's Band and added largely at every stopping place. At Fall River they were joined by the American Brass Band of Providence, and a large number of citizens from that place. All hands then embarked on the steamer Canonius for Rocky Point. During the day there were some 2500 people on the premises, and when the train was "made up" it was found necessary to closely pack six cars.

FRUIT. We would return thanks to Messrs. J. N. & A. F. Blake for a basket of beautiful peaches. We believe they are nothing more delicious and wholesome than fresh, ripe fruit. Just at this time pears, peaches, grapes, apples and melons are quite plenty. It will be seen by their advertisement that all kinds of fruit can be found at their store. Call and see for yourselves.

W. W. Newcomb, Esq., has our thanks for packages of California papers, which for size, general appearance, and amount of reading matter, cannot be excelled by papers in any other part of the Union. The Weekly Alta California, is a mammoth sheet, comparing well with other large products coming from the Pacific shore.

BURGLARS IN MILTON. The usually quiet town of Milton has been experiencing a new sensation recently, and a rather unpleasant one, too. Within a few weeks no less than seven dwellings and barns have been visited by burglars, in several instances the rogues succeeding in capturing considerable booty. The stable of Mr. R. A. Richards was entered and barns worth \$700 were stolen. A subsequent attempt to enter the same premises was foiled by the vigilance of a watch-dog. On Sunday night of last week, the stable of Mr. William Somers was visited and a valuable harness captured. An attempt was made to enter the stable of Mrs. Jesse Vose, but a watch-dog frightened the thieves. Visitors to Mr. Babcock's house were frightened.

For Auditor,—Patrick A. Collins of Boston.

For Attorney-General,—Waldo Colburn of Dedham.

For Electors at large,—Chester W. Chapman of Springfield and Frank W. Bird of Walpole.

The nominations were greeted with loud and hearty cheers, the name of Sumner being received with waving of hats and shouts. They were unanimously accepted and ratified with six cheers.

We are requested to say that John Ring, who was tried at the Police Court in this town recently for being a common drunkard, was not the express-man of his name.

S. Emily E., wife of James N. Blake, bought of Moses W. Sleeper, the estate on which they reside, on Cotting street, for \$2550.

L. W. Anderson bought of Henry H. Faxon, the handsome place on Granite street, known as the Southworth estate, consisting of two acres of land, with fine buildings, for \$10,500.

Thanks to Henry H. Faxon, Esq.
Quincy, Aug. 20, 1872.

THOMAS COLE, Esq.

Dear Sir.—Wishing to encourage the
Mechanics Mutual Relief Association, of
which you are President, I enclose my
check for \$50 to be used as the members
may think proper.

I hope that the Association will do all
in their power to help promulgate the cause
of Temperance, for I know that
any association that adopts the great
moral questions of the day to govern
themselves, will be successful.

I have good reason to believe that
over two-thirds of the crime and poverty
in our midst, can be traced directly or in-
directly to intemperance. With my best
wishes that your efforts may be productive
of great good.

I am,
Very truly yours,
HENRY H. FAXON,

HENRY H. FAXON Esq.:

Dear Sir.—The Mechanics Mutual
Relief Association of West Quincy, ac-
knowledges the receipt of your letter dated
Aug. 20th, containing therein your check
for the sum of \$50, for which they return
their grateful thanks and feel flattered to
think they are recognized as a door of
good by so distinguished a citizen.

Our aim is to assist one another in
case of inability, of any to attend to his
daily vocation.

Although not organized for the ex-
press purpose of promulgating the cause
of Temperance, we are well satisfied it is a
good cause and one which many of our
able and best men have encouraged,
defended and promulgated, with great
strength, and from which we have seen
thousands of good effects. Hoping the time
may soon come when intemperance
shall cease to leave any traces of poverty
or crime behind it, and wishing you every
success in your efforts to do good.

We remain,
Yours very respectfully,
M. M. R. ASSOCIATION.

Quincy, Sept. 11, 1872.

For the Patriot.

Anniversary.

The fifth Anniversary of the West
Quincy Sunday School was observed on
Sunday last, and though the afternoon
was excessively warm a good audience
was present, and listened attentively to
the exercises throughout. The report of
the Superintendent, Mr. W. D. Spelman,
showed the school to be in excellent condition.

The average attendance for the
year was 71-23 which is nearly the same
that it has been each year since the
school was organized. The Infant Department,
under the faithful charge of Mrs.
Robinson, constitutes nearly one-third of
the school, the average being 23-34.

Number of Volumes in the Library 381.
Besides providing for the usual running
expenses of the year, the school has pur-
chased and paid for an excellent cabinet
organ, costing \$140, and close the year
with a balance in the Treasury. And
besides, the children have collected by
penny contributions for benevolent pur-
poses, \$42.53.

The exercises consisted further of in-
teresting addresses by Rev. Mr. Stevens
and Ladd Company are requested to
meet at their house, this Saturday even-
ing, at 7-1/2 o'clock, to take some action
in regard to the Fireman's Parade.

Per order.

JOS. M. GLOVER, Clerk.

Quincy Sep. 14.

GEN. THAYER'S WILL.

His donations in lifetime to Dartmouth
College are well known as about \$70,000.

To the town of Braintree he has be-
come obligated to contribute about \$30,
000 for a public library.

His will, after sundry family bequests
provides that the residue shall constitute
a fund for the establishment of an edu-
cational institution, in which civil engineer-
ing and kindred branches shall be spe-
cialties, while the whole shall be of al-
most equal favor with the rest.

The patrons and friends of this school
manifest unabated interest in it, and under-
the management of its popular and
efficient Superintendent, and co-op-
eration of good teachers, is accomplishing
a good work—resulting already in such
a degree of religious interest as to induce
the people of this community to provide
for themselves a regular preaching ser-
vice—morning and evening—Rev. Sam-
uel Kelley officiating as minister. *

NOTICE. The members of the Hook
and Ladder Company are requested to
meet at their house, this Saturday even-
ing, at 7-1/2 o'clock, to take some action
in regard to the Fireman's Parade.

Per order.

CONSUMPTION CAN BE CURED.

SCHENCK'S PULMONIC SYRUP,
SCHENCK'S SEAWEED TONIC,
SCHENCK'S MANDRAKE PILLS.

Are the only medicines that will cure Pulmonary Con-

Sometimes medicines that will stop a cough will often
cause the death of the patient. It looks up the liver
and in the case of a person who has a cough
and, in fact, clogging the sinews of every organ that
causes the cough.

Liver complaint and dyspepsia are the causes of two
of the most common diseases. Persons complaining of
complaining with dull pain in the side, the bowels sometimes
constipated and sometimes too loose, tongue coated,
and at other times dry; the food is taken
up with difficulty, and remains torpid and inactive, and before the patient
can digest it, he has a violent attack of pain, and
sweat, and ulceration, and death is the inevitable result.

SCHENCK'S PULMONIC SYRUP is an excellent
medicine that will stop a cough and cure the disease.

It does not contain any opium, and
will check a cough suddenly.

These medicines are prepared by Dr. J. H. SCHENCK

& SON, Northeast corner of Sixth and Arch Streets,

BOSTON, MASS., and 29 Hanover Street, Boston, and JOHN F.

HENRY GULD, College Place, New York, Wholesale Agents.

Sold by Druggists generally.

July 27. 1872. 1872.

DR. FLINT'S
GREAT REMEDY

THE CELEBRATED
QUAKER BITTERS.

These Bitters are compounded of Roots and Herbs, among which are Saraparilla, Yellow
Root, Sassafras, Root of Balsam, Root of Sassafras, and Juniper Berries. They are free from all poi-
sonous drugs, minerals, and perfectly safe in
all their effects. They are the most delicate balsams without the
least risk of inconvenience.

Poetry.

Page 1

The sky is clouded, the rocks are bare,
The spray of the tempest is white in air;
The winds are out with the waves that roar,
And I shall not tempt the sea to-day.

The trail is narrow, the wood is dim,
The pasture clings to the arching limb,
And the lion's whelps are abroad at play,
And I shall not join in the chase to-day.

The ship sailed safely over the sea,
And the banners come from the chase in glee;
And the town that was quailed upon a rock
Was swallowed up in the earthquake's shock.

Home, Farm and Garden.

Horse Shoeing.

At a meeting of the St. Louis Farmers' Club, the following discussion occurred on the above subject:

Mr. Peabody—Will the Chairman tell us something of the value of the patent horse shoes that were exhibited here some time ago, adapted to fastening to the foot without nails?

Mr. Colman—I think very well of them; but I am inclined to think it will require more care and skill to fit them properly than most farmers will be willing to use—they would rather go to the blacksmith and have the shoes nailed on. It would save the horse's feet very much to do without nails. There is no subject of more importance, in connection with horses, than shoeing. If horses could speak, they would pitifully complain of the bad treatment of their feet. We all know what misery an ill-fitting boot causes; yet leather is yielding, and iron is not. Many horses are rendered lame and useless by bad shoeing and by leaving the shoes on too long, than by any other cause.

The anatomy of the horse's foot should be understood by the shoer. It is common to pare off too much, even the frog and to rasp off the outside. The frog should never be interfered with—it will shed off itself. It is a sort of cushion to sustain a portion of the horse's weight. The bars should be elastic—not too much confined by the unyielding iron. There should be as much space of the sides of the hoof left free as possible. I should prefer to use but three nails, and place them as far apart as possible. Shoes should be re-set often—once a month.

On our streets and on stony farms, shoes may be necessary; but on ordinary farms, they may be dispensed with in summer, and should be as much as possible.

Be sure, in shoeing, that you get a level surface for the shoe. Small nails should be used. Bonner takes exquisite care in the shoeing of his horses. He has a block of marble perfectly level, on which to put the foot to see that it is level. Red-hot iron should be kept off the hoof—it is an outrage.

Mr. Murfield—In Germany, the horse shoe is required to understand the anatomy of the horse's foot. A lazy blacksmith will pare mostly the softer parts, which ought to be pared but little. Dr. Spalding objects to the use of the buttress upon his horses feet at all. I think on the farm the shoes may remain on six weeks without injury.

Mr. Page—it is subject I have thought of a good deal. The best horse-shoer I ever knew, never put a hot shoe upon the foot. Every blacksmith who does it, ought to have a hot shoe applied once to himself. I have thought that a horse's shoe might be made in sections—two pieces—so as to admit the expansion of the hoof.

Tomatoes Healthful.

The tomato is one of the most healthful of all the vegetables. It may be eaten three times a day, cold or hot, cooked or raw, alone, or with salt, pepper, vinegar, and in the utmost that can be taken with an appetite. Its healthful quality arises from its slight acidity, as berries, currants and similar article, and it is also highly nutritious. The tomato season ends with the frost; if hung up in a well-ventilated cellar, with the tomatoes hanging to the vines, they will continue to ripen until Christmas. The cellar should not be too dry, nor too warm. The knowledge of this may be improved to great advantage for the benefit of all who are fond of the tomato.

One who knows makes it a point to select a cow with a yellow skin. One whose skin is pale or colorless, is not, he says, so likely to produce good butter.

Mrs. Davidson of Michigan has frequently driven a mowing-machine through seven acres of grass in one day this summer. Her husband is getting rich very fast.

Inecdotes.

Children not unfrequently get things much mixed.

"Do you like Bible stories?" asked one little fellow of another.

"Yes; Aunt Susie tells them to me."

"Then get her to tell you about Solomon's swallowing the whale."

"My dear," inquired a young bride of her husband, "have you seen the beautiful set of furniture which the Smith have purchased?"

"Hum, no, my love, but I have seen the bill, and it quite satisfied me."

The other day, while the rain was pouring, a countryman was going up the street, vainly trying to protect his umbrella under his coat.

"Why don't you open your umbrella, man?" asked a passerby.

"A new umbrella in such a rain as this! Why you must be mad!" replied the man.

SATURDAY, SEPT. 21, 1872.

Born to no Master, of no Sect are we.
Short communications and items of news
earnestly solicited from friends and patrons.
Anonymous communications are not
published.

HORTICULTURAL EXHIBITION. The forty-fourth annual exhibition of the Massachusetts Horticultural Society, was held at their Hall on Tremont street, Boston, the present week. Notwithstanding the weather was so very unfavorable for the growing of fruits yet the tables were over-flowing with their burdens. Among the exhibitors were John J. Glover, and Wm. Gardner Prescott of this town. Mr. Glover presented a plant of Crawford's late Melocoton peach, the circumference of one of which is 10 1/4 inches, and the weight 9 1/4 ounces.

He also displayed ten varieties of native grapes. Three cucumbers which had grown to maturity inside of bottles were exhibited by him as curiosities; also a branch of a willow tree, in which he had tied a knot when it was quite young, and had grown to form a circle; three small twigs of willow which had been twisted together when young, and had grown to form one branch.

CAVALRY COMPANY. There will be a Grant and Wilson flag raised in the Square, in front of the Stone Church, on Tuesday evening next. An address will also be delivered by Col. Wm. O. Moffit, of New York.

TAXES. A large number of citizens have called on the Collector and paid their taxes during the past two weeks, so as to save the discount. \$66,332.20 have already been collected; leaving a balance of about \$16,000 to be looked after.

WEYMOUTH FAIR. To-day is the last day of the Agricultural Fair, in Weymouth. The principal feature will be a grand exhibition of horses with races upon the track. It is said that there is a very fine display of fruits, flowers and vegetables. A large crowd from this town were present yesterday, and many of our citizens will be there to-day. Mr. Lapham will convey passengers to and from the fair grounds.

THE SUPERIOR COURT. There has been an unusually large number of cases before the Superior Court, criminal term held at Dedham the past two weeks, and some of the time the progress made was very slow. Among the many cases disposed of were the following:—

Geo. N. Thayer, larceny of horse, wagon and harness, valued at \$350, from John Hall of this town. Found guilty and sent to the State Prison for eighteen months.

Daniel Fitzsimmons, larceny of jewelry, &c., from Joseph H. Wythe, of this place. Found guilty, but was allowed to depart on promise of leaving the State immediately. George Spear for an assault on LaRey Sunderland. He pleaded guilty and was ordered to pay a fine of \$100 and costs. James Moore, who stole the load of produce from Quincy Market, and was so handsomely captured in this place, was sent to the House of Correction for one year. John Murray for an assault on Constable Furnald, was sent to the House of Correction for four months. Owen Riley, Samuel T. Allen, Geo. L. Odiorne, and Catherine Madden, of Quincy, for keeping liquor nuisance, were each fined \$50 and costs. The jury returned a verdict of not guilty against Thomas H. Hayes, for keeping intoxicating liquors, with intent to sell.

HOUSE LOTS AT AUCTION. Some beautiful house lots will be sold in East Milton, on Monday. They are pleasantly situated in the heart of the village and near the depot. See advertisement.

HOUSE LOTS AT AUCTION. Emma T., wife of Charles T. Cotton, bought 17 acres of land with buildings, on the west side of Washington street, for \$3000.

Ellie A. Hollingsworth bought about 1 acre of land with buildings, known as the Academy lot, in South Braintree, of Lorenzo M. Dyer, for \$2500.

Mary J. Brewster bought land on the east side of Washington street, with buildings, of Rufus Woods for \$1500.

SAQUINT HIGHLANDS. George Clark, Jr., has our thanks for a very pretty colored lithograph plan of this delightful and healthy spot, at the north part of the town. It has been laid out into 163 house lots, which command a fine ocean view, and are among the most attractive to be found on the coast.

For price and other particulars apply at the office of the Company, 89 Court street, Boston.

DOLLAR GOLD PIECES. San Francisco coinage have been put on the market, and meet with ready acceptance. They are of standard value and are a legal tender, equally with gold, as a circulating medium.

DEMURE'S YOUNG AMERICA. For October has its usual store of entertaining stories and other novelties. The new and attractive list of premiums offered to the subscribers of Demure's Young America for 1873 are among the marvels of enterprise and liberality.

THE STATE CENTRAL SUNDAY-SCHOOL. Committees announce that arrangements have been made with all the leading railroads in the State for free return tickets from the Convention at Westfield.

CHRIST CHURCH. Sunday School to-morrow at 9 1/2 A. M. Service at 10 30 A. M. and 4 P. M. The public are invited to attend.

The stores in this town, will be closed at eight o'clock in the evening on and after Monday next.

A Florida bride made a mistake the other day and handed a railroad conductor her marriage certificate in place of her ticket.

A lady in Pensacola owns a parrot which hollers lustily for Greeley.

Local Varieties.

RARE SHOOTING. The landlord of the "Willow House," shot a loon on Monday; a fine looking bird, and now has it in the process of stuffing in Boston. The landlord of the Hancock House, on Tuesday, shot a bald-headed eagle in Quincy woods; a rare bird in these diggings.

SQUIRE. On being asked how many men belonged to a certain fire company in town, replied, that at a clam chowder sixty answered to their names at the roll-call, but at a fire there were only five and an old mare.

The granite fence enclosing the Adams

Academy is now completed, and makes a very neat appearance, and is highly creditable to the builder, Mr. Luke Rideout.

On Dr. Ditson blows for Grant.

The individual who "swapped" hats by mistake, probably, at the Hancock House on Tuesday noon, will confer a favor by calling at the Patriot Office and reliving another individual from a *bad fit!*

The weather during the past week has been some if not summer.

Deck remarked to-day, "Charles Sanner is a great man, but a piecemeal of quilts, mats, tassels, &c., were displayed. Among the quilts was a very handsome embroidered one by Miss Henrietta M. C. Marsh, of this town.

New Bell at Wollaston.

MESSRS. EDITORS: — The Baptist Church of Wollaston Heights, desire, through the medium of your paper, very gratefully to acknowledge the liberality of HENRY H. FAXON, Esq., in the gift of a Bell for the tower of their new Chapel, and express to him their full appreciation of such noble generosity.

The bell was cast at the foundry of William Blake & Co., Boston, is fine-toned, keyed on G sharp, weighs 1232 pounds, cost \$542.00, and bears the inscription:—

"Presented to the First Baptist Church of Wollaston Heights by Henry H. Faxon, Quincy, Mass., Sept. 10, 1872."

By direction of the Church.

S. G. ABBOTT,
W. H. STEWART,
E. A. CAPEN; Committee.

For the Patriot.
Contagious Diseases.

WEST QUINCY, Sept. 18th, 1872.

The community has again been visited by that loathsome and much dreaded disease, the small pox, and yesterday the victim, — a daughter of Mr. Edward Fagan, — was carried to her last resting place. There is much feeling manifested in the community with regard to the treatment of this and other cases by the attendant physicians.

The question naturally arises, and is anxiously asked, is there no way by which the spread of the disease can be prevented? Or must the community suffer the family and friends of the patient to mingle freely with neighbors, at church and even in our own homes, while reeking with the subtle contagion of the pestilence.

If physicians can detect the disease in its early stages, and neglect to warn the patients and their friends, and to take proper precautions to prevent the spread of the disease, then it seems to me to be a crime, compared to which horse-stealing or the issuing of counterfeit money, are mild offences, and leaves room for the suspicion that the physicians encourage the spread of the disease for the practice which it brings. On the other hand, if they cannot detect the disease before the patient is past cure, and almost ready to be buried, I fail to see the benefit of all the money which is invested in colleges and other institutions of learning, and which is exempted from taxation, thereby increasing the burden of taxation on to property not so exempted. In either case it is not very creditable to the physicians, and would seem to 'call for some radical reform.'

Summary of News.

Daniel Drew acknowledges being worth twenty-five million dollars.

Prof. Agassiz had just sent 158 packages to the Museum of Zoology from his last expedition.

A strong movement is being made by parties interested in municipal reform to make A. T. Stewart Mayor of New York.

Franklin Co., Mass., has 3,500 acres of tobacco.

The tomb, costing \$75,000, which Mrs. Henry K. Meek built in memory of her husband at Watertown, N. Y., is just completed.

Queen Victoria is said to have presented Nellie Grant with her portrait, set in precious stones.

The statue of President Lincoln in the National Monument has been completed at Chicopee, Mass. It weighs only 1,550 pounds.

Thirty acres near Jacksonville, Ill., have produced 1,000 bushels of wheat.

Nine-tenths of the mineral oil produced in this country is found in the oil regions of Pennsylvania, a strip of land about eighty miles long by twenty broad.

A singer in a New Haven choir dropped out her false teeth, while uttering the final "Amen," a few Sundays since.

It is currently reported that a firm in Boston is giving away white hats to make room for fall stock, it being impossible to sell half of that color at any price.

An Alabama man recently caught a fish in which was an egg, and in the egg of a Bell for the tower of their new Chapel, and express to him their full appreciation of such noble generosity.

The claims of insurance offices and citizens of New Bedford on account of vessels destroyed by the Alabama and other British pirates amount to \$500,000.

The White Mountains have put on their dress caps of snow.

A gentleman in Amesbury has picked two hundred and fifty-three cucumbers from one hill, since the 13th of July.

Come one, come all,
To the Lyceum Hall,

THIS, SATURDAY EVENING,
September 21, 1872,

TO FORM A COMPANY OF
FOOT TANNERS!

We wish to see all of the old Veterans of 1868 present, and as many more besides, and to elect Officers for the Company.

Be sure and have a full meeting.

QUINCY, Sept. 21.

The Caps Cod cranberry crop is pronounced almost a total failure. The vines were badly winter-killed and much damage has been done by worms.

A vessel recently arrived at San Francisco from Japan, being the first vessel from that country, with a native crew, that ever entered an American port.

The Caps Cod cranberry crop is pronounced almost a total failure. The vines were badly winter-killed and much damage has been done by worms.

A million dollars in gold, according to the figures at the mint, weigh about two tons.

A new musical phenomenon has appeared at Baden in the person of a Spanish girl twelve years old, whose performance on the violin are said to be wonderful.

If physicians can detect the disease in its early stages, and neglect to warn the patients and their friends, and to take proper precautions to prevent the spread of the disease, then it seems to me to be a crime, compared to which horse-stealing or the issuing of counterfeit money, are mild offences, and leaves room for the suspicion that the physicians encourage the spread of the disease for the practice which it brings. Knights of Pythias.

The St. Paul's Lodge of this Order, which was organized in this place some two years since, continues to hold its weekly convocations, in its beautiful hall, which was dedicated to its service. Among their numbers are some of the most prominent and highly respected citizens of Quincy. For the benefit of those who are not members, but think of joining, and of our readers generally, who are desirous of knowing something of the different organizations in their midst, we publish the following facts, copied from the Wakefield Advocate, concerning this

NEW ORDER:

It is founded upon the purest and sincerest motives. Its aim is to alleviate the suffering of a brother, succor the unfortunate, zealously watch at the bedside of the sick, soothe the pillow of the dying, perform the last, sad rites at the grave of a brother, offer consolation to the afflicted, and to care with all a brother's love, for the widow and orphan.

It invites to its Lodges the sons of virtue, love and peace, that they may be connected by vows of eternal amity in a holy alliance, and unite the respected parents, sisters and brothers of this young and beautiful girl.

This death has gathered to the tomb

This early bird of love,

A sweater flower it now will bloom

In Paradise.

Two tender for the earthly care

That life are given,

She'll guide us by her tender prayers

Unto the thrown of heaven.

These are plentifully caught now adays at Provincetown. They are so numerous that one-half they catch is given for the dressing. At Boston they have recently retailed at \$1 per hundred, and a man bought 45 that weighed 42 pounds for 45 cents recently.

A large and beautiful Gram and Wilson flag was raised in East Milton, on Thursday evening. Quite a large and enthusiastic crowd was present to the spirited speeches and soul-stirring music.

BOSTON. Tuesday last was the two hundred and forty second anniversary of the settlement of Boston and the occasion was celebrated notwithstanding the unpleasant weather, by a grand parade of the entire fire companies and a more showy manner of observing it could scarcely have been suggested. The department comprises a total of twenty-one steam-engine, ten hose trucks, seven hook and ladder trucks, two extinguisher wagons and one wagon for the insurance brigade. The department passed in review before the entire city government.

DECEASED. Rev. Rowland H. Allen, pastor of the Congregational Church, in Neponset, died of typhoid fever on the 12th inst. He graduated at Amherst College in 1862, studied theology at Andover and was ordained pastor of the Congregation Church of Canton in 1865, where he remained only two years. He preached for a little time at Chelsea, and then accepted the pastorate of the Congregational Church in Springfield and there studied out this invention. She has been offered over \$100,000 for the patent, which she has refused. Her picture hangs in the Patent Department in Washington, where she is regarded as one of the smartest women in the country. She has also invented a patent fan, to be suspended in rooms and halls, it being wound up like a clock and running several hours, keeping the place as cool and comfortable as one could wish.

Nilsson's wedding cake was a splendid affair, profusely ornamented with musical trophies, and having on the summit a harp made of real and costly pearls, which the prudent bride, who has no nonsense about her, promptly turned into cash.

BESSEMER, the inventor, has devised a plan for obviating sea-sickness. It is said to impress builders so favorably that two steamers are to be constructed on the model to ply across the English channel. His scheme is a saloon so arranged as not to feel the motion of the vessel.

Elizabeth Howarth of Fall River has made application for naturalization. The petitioner filed her previous papers, and is on the road to citizenship like "any other man." This is the first case of female naturalization within the knowledge of any person in the court.

THE LADY'S FRIEND FOR OCTOBER is resplendent with all the new and standard styles for the Fall and Winter. The literary contents combines a varied and entertaining selection of Stories, Music, and much useful reading. Demorest offers to each yearly subscriber two elegant companion chromos, Niagara Falls and Yosemite Falls, worth \$10.

EXTENSIVE ART-GALLERY. Next to the Bible, no book is more useful than Webster's Dictionary. The Unabridged is an extensive art-gallery, containing over three thousand engravings, representing almost every animal, insect, reptile, mammal, plants, etc., which we know anything about. It is a vast library, giving information on almost every mentionable subject. It is indeed a most remarkable compendium of human knowledge in our time.

Poetry.

For the Patriot.

The New Departure.

Let factitious rail as they have in the past,
And struggle for power in vain;
Up, up with our colors and nail to the mast;
We stand by our Chieftain again!

Our gallant commander has steer'd the good
ship
In safety through hurricane squalls;
All our hands be ready to make a new trip
With him whom no danger appalls.

He knows ev'ry rope in the ship—and the helm
Is fitted exact to his hand;
The steady mount high but they cannot o'er-
whelm.

The ship that our Captain commands.

A nation of Freemen the laurels have twined
To circ'le their Patriot's brow;

A token of gratitude fitly design'd,

The sense of his merits to show.

So up with our colors and nail to the mast,
We heed not our enemies' rant;

The party of progress will ever hold fast

To Liberty's Champion, Grant.

F. M. ADLINGTON.

Weymouth, Sept. 1872.

Home, Farm and Garden.

Fall Treatment of Grass Lands.

A fellow-feeling, as it were, teaches us that it is inconsistent with the comfort and well-being of our live-stock to permit them to go unprotected through the winter, and exposed to cold and frost and the rigors of the weather, but we never or seldom think of our meadows, and they in a sense are live-stock, and suffer from want of protection as much as cows, colts, or calves. On the contrary, a mistaken economy tempts us to deprive them of the natural protection of the aftermath, and generally they are eaten bare and close throughout the fall months, and go into winter quarters with their tenderest parts exposed to the killing blasts and biting frosts. Then the roots are winter-killed or thrown out, and in the spring, instead of the living green, we see the dead set brown, and the season gets the discredit, when it is the result of mismanagement only or chiefly. A good coat of decaying aftermath would furnish protection and future nutriment as well, and by all means meadows should be so managed as to secure all the aftermath, or at least a large portion of it, for this purpose. Young lambs or calves may be pastured if necessary, but it is a most costly economy to turn horses or cows on to newly-sown clover or grass or newly-mown fields. But considering that the fields are in danger of becoming poached while sodden with rain by even the lightest hoofs, it will be found cheapest in the end to keep all stock off from the fields to be mown next season.—Am. Agriculturist.

Giving Horses Molasses.

A horse in poor condition was made to put on one hundred pounds in a month, with only cut hay, moistened with three pints of molasses diluted in three gallons of water per day. It was quite evident, in this case, that the horse gained faster than he would have done on any amount of grain. It was noticed that he ate very large quantities of hay sweetened with molasses water. This was also found to be cheaper to produce the same result, than grain, counting the molasses at forty cents per gallon.—Our Dumb Animals.

Cranberries.

There are now planted in New Jersey, according to the most reliable authority, 6,000 acres with cranberries. Two years from now these will be in full bearing. The value of this crop the past year is estimated at about \$600,000.—There will be large additions made to these acres during this year. Hundreds are now preparing to plant, and the price of improved as well as unimproved bogs has rapidly advanced. New Jersey has taken the lead in cranberry culture, as she did a few years ago with strawberries, raspberries and blackberries.—Vineyard Independent.

A farmer in Burlington, Iowa, has 100 acres of blackberry bushes.

The young farmers in Washington Territory want wives.

A cow in litigation at Charleston, S. C., has cost \$1200 already, and neither party has got her yet.

Quiney and Boston Express.

According to a New Orleans paper, a prisoner arraigned before the Recorder there was told:

"I really don't know whether to fine you \$1 or \$10; what's your idea about it?"

Prisoner.—"Your honor, all I have to plead is that you will not set down aught in malice."

A little boy was sent to a store for some eggs; before reaching home he dropped them. In answer to his mother, who asked, "Did you break any?" he replied, "No, I didn't break any, but the shells came off from some of them."

A little boy accused his papa thus—
"Papa, are you growing still?"

"No, dear, what makes you think so?"

"Because the top of your head is coming through your hair."

"I don't like these shoes said a lady customer, "because the soles are too thick."

"Is that the only objection?" blandly asked the salesman.

"Yes," was the reply.

"Then, madam, if you take the shoes,

I can assure you that the objection will gradually wear away."

The Quincy Patriot.

SATURDAY, SEPT. 28, 1872.

"Born to no Master, of no Sect are We."

Short communications and items of news earnestly solicited from friends and patrons.

Anonymous communications are not published.

The Firemen's Parade.

Our citizens may expect to witness this afternoon, if the weather permits, one of the largest and grandest parades of the fire companies of Quincy, ever seen in this place. The engines and apparatus have all been painted and put in good working order; and when brought out on the street this afternoon, handsomely decorated with flowers and flags, will make a show worth seeing.

Four bands of music and a drum corps to accompany the procession, which is to be formed precisely at two o'clock, in the Square, near the Hancock House, in the following order:—

Section of Police.

CHIEF ENGINEER AND AIDS.
Hingham Brass Band.
Drum Corps of the 9th Regiment.
NIAGARA ENGINE COMPANY, No. 1.
Weymouth Brass Band.
TIGER ENGINE COMPANY, No. 2.
WASHINGTON M. FRENCH HOSE CO. No. 1.
ASSISTANT ENGINEERS.
Shawmut Band, Boston.
GRANITE ENGINE COMPANY, No. 3.
Memorial Brass Band, Boston.
VULTURE ENGINE COMPANY, No. 4.
HORN AND LADDER CO., No. 1.
FIRE STEAMER, No. 22, from BOSTON.
TOWN OFFICERS.

JUDGES.

INVITED GUESTS.

The procession will start as near two o'clock as possible, and proceed north as far as the residence of Whitcomb Porter, Esq., when it will countermarch to Washington street, down Washington to Union, over Union to Elm, up Elm to Quincy Avenue, through Quincy avenue, Liberty and Franklin avenue to Water street, through Water, Quincy, Marsh to School, down School to Hancock, through Hancock to the reservoir near the Stone Temple.

The Ningara boys then will commence and show their skill—drafting and playing through 250 feet of hose. They will be followed by the Tiger, Granite and Vulture Companies—each are allowed twelve minutes to play. The Steamer from Boston will be stationed at the well near Emerson's hair dressing saloon, to keep the reservoir full of water. After the playing the judges will announce their decision before the companies depart for supper.

Among the distinguished guests expected are Chief Engineer Damrell and Secretary Langley of Boston; Chief Engineer Delano and Assistant Engineer Poor, of Charlestown.

Large FRUITS. We were shown a monstrous peach which grew in the garden, with California fruit. It was a Flemish Beauty, and its weight was one pound and half an ounce. It measured twelve inches in circumference.

Some very large and handsome grapes, have grown in the same garden. One grape on being measured, was found to be three inches in circumference. Who can do better than that?

REAL ESTATE SALE. The pleasantly situated and handsome house recently built near the depot in this town, by L. W. Thayer, Esq., has been purchased by Mr. Charles A. French, of Braintree, for \$7,000. Mr. French intends moving at once to his new residence.

BRIEF LOCALS. The handsome flag flying to the breeze in the Square on Tuesday evening, made the third raised for Grant and Wilson, in this place.

Hon. Edward L. Pierce and Chas. F. Adams, Jr., address our citizens at the Town Hall, on Monday evening next.

The Mounted Tanners have a meeting on Monday evening next.

The National Granite Bank declares a semi-annual dividend of six per cent.

The Vulture Company will form at one o'clock to-day, and accompanied by the Metropolitan Band, will march by the way of Quincy Neck to the Square.

The "Boston Star" closes every Wednesday afternoon at 6 o'clock.

D. Fred French's card will be found in our columns.

The Officers of the Grant Club have a meeting on Thursday evening.

It was estimated that two thousand people turned out to hear the music and witness the flag raising on Tuesday evening.

The Quincy Savings Bank will pay on and after Wednesday next, a semi-annual dividend, at the rate of six per cent.

Proposals are desired from responsible parties for taking care of the School Houses.

The farmers have all the rain they desire now-a-days. We hear of no scarcity of water.

Keating & Spear supply nice oat straw for filling beds.

Nice chowder can now be had at the Granite Saloon every Saturday.

The Liberal Republicans have a caucus on Monday evening next.

The Republicans have one of Friday evening, to nominate candidates to the various conventions.

Post 88, G. A. R., has a meeting on Tuesday evening next.

Horn and Ladder Company is notified to meet at their house to-day at one o'clock.

CHRIST CHURCH. Sunday School to-morrow at 9:15 A. M. Service at 10:30 A. M. and 4 P. M. The public are invited to attend.

Greeley and Brown Rally.

The first grand political rally in Quincy, was at the Town Hall, on Monday evening last. The Democrats opened the presidential campaign with some fine speeches, which were listened to by quite a large and attentive audience.

The assembly was called to order by William S. Pattee, Esq., who introduced Gen. Johnson, of Virginia, who spoke for nearly half an hour, and endeavored to impress upon the minds of his hearers some important facts connected with the times and the people of the South, and in return was frequently applauded.

Col. Henry Walker was then introduced, who spoke for a few minutes, but failing to produce much enthusiasm, soon took his seat, when

Hon. Edward Avery, of Braintree, was called to the platform. As he stepped forward, immense cheers were given.

Mr. Avery said he had not come to Quincy with the intention of making a speech this evening, but as he had been called upon for some remarks, he would invite their attention for a few moments.

His speech was replete with wit and wisdom, and his well-timed suggestions, eloquently and forcibly uttered, drew forth frequent and loud plaudits.

At the close of his speech, it being about 10 o'clock, three rousing cheers were given for Greeley and Brown and the vast audience retired to their quiet homes.

For the Patriot.

Flag Raising.

The Grant and Wilson Club of this town raised a large and handsome flag last Tuesday evening, in front of the Town Hall, which event was witnessed by a large crowd. Previous to the raising the people were entertained with some fine music by the Quincy Brass Band, and fireworks. A procession of Mounted Tanners, commanded by Capt. Jordan, followed by a Foot Company, Capt. C. H. Porter, marched around the Square and drew up in line fronting the Unitarian Church. The Braintree Tanners arrived at this moment and were received with loud cheers. They presented quite a creditable appearance with their showy uniform.

The band struck up the "Star Spangled Banner," as the flag was flung gracefully to the breeze amid cheers and a brilliant display of fireworks.

Hon. Charles Marsh, President of the Club, and H. Farnam Smith, Esq., made short addresses, followed by Col. C. W. Moffit, of N. Y., who read a patriotic poem, entitled "The Flag of Washington."

The crowd afterwards assembled in the Town Hall, and listened for upwards of an hour to an eloquent and enthusiastic speech from Col. Moffit.

On motion of Mr. C. A. Foster, a vote of thanks was passed to the speaker of the evening.

Mr. Foster was then called upon for a hour, declined. He expressed a desire, however, to address the citizens at some other time, on the issues of the day.

After giving rousing cheer for our State and National candidates, the meeting dissolved.

Mr. Charles Francis Adams, Jr., will make an address next Monday evening, with special reference to the Cincinnati Convention.

G.

FOOT COMPANY. A Grant and Wilson Foot Company was formed in this town last Saturday evening, for service in the present campaign. The presiding officers at the formation of the Club were Charles H. Porter as Chairman, with Samuel B. Turner as Secretary. The following officers were elected:

Captain.—Charles H. Porter.
1st Lieutenant.—Samuel B. Turner.
2d Lieutenant.—Warren Dunbar.
Quartermaster.—Henry H. Faxon.

DEMOCRATIC CONVENTIONS. The following Conventions are announced to be held at the Town Hall, in this town, on Tuesday, October 8. The Second Congressional, Counsellor, Norfolk County and Second Norfolk Senatorial.

The Liberal Republicans hold their

Conventions on the same day, in the Lyceum Hall. Both parties will meet at eleven o'clock.

The official statement shows a

decrease in the county expenditures of New York for the year ending September 1, compared with the previous year, of nearly \$2,000,000.

The bureau of statistics has just published its fourth annual list of American vessels, which shows an increase of over twenty-nine hundred craft of all classes during the fiscal year ending last June.

An Irish gentleman who wagered \$500 that he would support himself and his donkey for six months by playing a hand organ, is now making a tour of the Emerald Isle in a donkey cart, discoursing organ music of a superior quality.

INTERNATIONAL COURTESIES. From letters received at the United States Treasury Department, it appears that the American members of the Statistical Congress, now in session at St. Petersburg, have been received with the utmost cordiality, and have had marked compliments paid to them. The Russians will not readily give the attention shown to Duke Alexis.

THE WEEPING WILLOW has a romantic history. The first scion was sent from Smyrna in a box of figs to Alexander Pope. Gen. Clinton brought a shoot from Pope's tree to America, in the time of the Revolution, which, passing into the hands of John Park Curtis, was planted on his estate in Virginia, thus becoming the progenitor of the weeping willow in this country.

Music hath charms to soothe a savage, but nothing is more likely to make a person savage than to hear piano out of tune. Those who may be afflicted with diseased or dilapidated pianos, will read with interest Mr. D. P. Lincoln's card in our advertising columns. Mr. Lincoln has had large experience in his line of business in the neighboring towns, and comes among us with many recommendations as to his capability of restoring harmony where his services are required.

The Weeping Willow will have a

romantic history. The first scion was sent from Smyrna in a box of figs to Alexander Pope. Gen. Clinton brought a shoot from Pope's tree to America, in the time of the Revolution, which, passing into the hands of John Park Curtis, was planted on his estate in Virginia, thus becoming the progenitor of the weeping willow in this country.

CHRIST CHURCH. Sunday School to-morrow at 9:15 A. M. Service at 10:30 A. M. and 4 P. M. The public are invited to attend.

District Court of East Norfolk.

The Court business in this place continues light. But little business has been done the past week. On Saturday last, John Campbell, of Randolph, was found guilty of being drunk and fined \$3 and costs.

MONDAY.

James Henney, of Braintree, was assaulted on James Ahearn. He was discharged on paying costs.

Thomas Garvin, of Weymouth, was fined \$10 and costs for illegally keeping for sale intoxicating liquors.

Barney McManaman, of North Bridgewater, for being drunk. Fined \$3 and costs.

JAMES FORRESTER, of Randolph, was found guilty of being a common drunkard.

Sentenced to the House of Correction for six months, from which decision he appealed.

James McIsaac was fined \$3 and costs for being drunk.

TUESDAY.

John Mahar, of Braintree, for assault on his wife. Fined \$5 and costs.

WEDNESDAY.

John Long, of West Quincy, was found guilty of being a common drunkard. Being his first offence, he was let off on paying the costs and giving securities in the sum of \$300 to keep the peace for six months.

There were no cases before the Court on Thursday and Friday.

For the Patriot.

Large Sale of Real Estate.

Newell A. Thompson, Esq., sold at auction on Wednesday afternoon fifty-three choice and eligible building lots belonging to the Bellevue Park Association, located on Squantum street, in the north part of the town, and formerly known as Micajah C. Pope farm, near the residence of Dr. Duggan. The situation commands an extended view of the harbor, and has been prepared for the erection of suburban residences by the laying out of streets and avenues and otherwise increasing its attractions. The lots contained from 6000 to 10,000 square feet each, and were sold separately on the spot. The bidding was spirited, and the sales on such easy terms as to induce purchasers to build at once. Restrictions are placed upon the purchasers, which prohibits the erection of any other than dwelling houses and their appurtenances for a period of ten years. The price of the land ranged from 3 1/2 cents to 10 cents a foot, and four lots on which stands a dwelling house and barn brought 12 1/2 cents per foot, including buildings, which are to be removed.

Mr. Harris joined the Republican party when it was struggling into existence, and made himself well known as an outspoken and earnest advocate of its principles. He represented Plymouth County in the Senate the last of the County system of representation, and afterwards represented his own town in the House. He served for eight years as District Attorney for Norfolk and Plymouth Counties, in which capacity he appealed to the people of the Plymouth bar, and he now retains a large and growing practice in Plymouth County, although his office has for some years been in Boston.

Mr. Duggan was an attorney for the

Mount Tanners, commanded by Capt. Jordan, followed by a Foot Company, Capt. C. H. Porter, marched around the Square and drew up in line fronting the Unitarian Church. The Braintree Tanners arrived at this moment and were received with loud cheers. They presented quite a creditable appearance with their showy uniform.

The band struck up the "Star Spangled Banner," as the flag was flung gracefully to the breeze amid cheers and a brilliant display of fireworks.

Hon. Charles Marsh, President of the Club, and H. Farnam Smith, Esq., made short addresses, followed by Col. C. W. Moffit, of N. Y., who read a patriotic poem, entitled "The Flag of Washington."

The crowd afterwards assembled in the Town Hall, and listened for upwards of an hour to an eloquent and enthusiastic speech from Col. Moffit.

On motion of Mr. C. A. Foster, a vote of thanks was passed to the speaker of the evening.

Mr. Foster was then called upon for a hour, declined. He expressed a desire, however, to address the citizens at some other time, on the issues of the day.

After giving rousing cheer for our State and National candidates, the meeting dissolved.

Mr. Charles Francis Adams, Jr., will make an address next Monday evening, with special reference to the Cincinnati Convention.

G.

FOOT COMPANY. A Grant and Wilson Foot Company was formed in this town last Saturday evening, for service in the present campaign. The presiding officers at the formation of the Club were Charles H. Porter as Chairman, with Samuel B. Turner as Secretary. The following officers were elected:

Captain.—Charles H. Porter.

1st Lieutenant.—Samuel B. Turner.

2d Lieutenant.—Warren Dunbar.

Quartermaster.—Henry H. Faxon.

DEMOCRATIC CONVENTIONS. The following Conventions are announced to be held at the Town Hall, in this town, on Tuesday, October 8. The Second Congressional, Counsellor, Norfolk County and Second Norfolk Senatorial.

The Liberal Republicans hold their

Conventions on the same day, in the Lyceum Hall. Both parties will meet at eleven o'clock.

The official statement shows a

decrease in the county expenditures of New York for the year ending September 1, compared with the previous year, of nearly \$2,000,000.

The bureau of statistics has just published its fourth annual list of American vessels, which shows an increase of over twenty-nine hundred craft of all classes during the fiscal year ending last June.

An Irish gentleman who wagered \$500 that he would support himself and his donkey for six months by playing a hand organ, is now making a tour of the Emerald Isle in a donkey cart, discoursing organ music of a superior quality.

INTERNATIONAL COURTESIES. From letters received at the United States Treasury Department, it appears that the American members of the Statistical Congress, now in session at St. Petersburg, have been received with the utmost cordiality, and have had marked compliments paid to them. The Russians will not readily give the attention shown to Duke Alexis.

THE WEEPING WILLOW has a

romantic history. The first scion was sent from Smyrna in a box of figs to Alexander Pope. Gen. Clinton brought a shoot from Pope's tree to America, in the time of the Revolution, which, passing into the hands of John Park Curtis, was planted on his estate in Virginia, thus becoming the progenitor of the weeping willow in this country.

CHRIST CHURCH. Sunday School to-morrow at 9:15 A. M. Service at 10:30 A. M. and 4 P. M. The public are invited to attend.

Post 88, G. A. R., has a meeting on Tuesday evening next.

Horn and Ladder Company is notified to meet at their house to-day at one o'clock.

Braintree.

The several villages of Braintree were thoroughly aroused on Monday evening, and enthusiasm was evident within all their limits. The Republicans, under the auspices of the Grant and Wilson Club, raised no less than five beautiful flags bearing the names of the candidates of the party.

At 5 o'clock, P. M., the Tanner and Cobblers' Battalion, Capt. H. A. Monk with full ranks, in new uniform and torches, assembled at the Town House, and accompanied by the Braintree Brass Band, proceeded to the east part of the town, where they were joined by the Grant and Wilson Guards, Capt. B. J. Loring, also in uniform, where a procession was formed, and marched through the principal streets of the village. A halt was made near the residence of Hon. Edward Avery, and a handsome flag thrown to the breeze.

A meeting was organized, presided over by Hon. F. A. Hobart, who after making a few remarks, introduced Farmer Allen, who spoke ably and eloquently for about ten minutes.

From this point the procession marched to the North Village, where a flag was raised near the residence of E. C. Thayer, Esq., and an address by Farmer Allen. From this point to the centre of the town, near the residence of J. A. Arnold, Esq., where another flag was unfurled. From this point to the South depot, where was also raised another flag, and from thence to the square in South Braintree, where a flag was raised on the liberty pole. At this point another address was made by Farmer Allen, and a collection taken of the assemblage.

The procession then proceeded to the Town House, which was soon filled to repletion, the galleries and every standing place being occupied, and many being unable to obtain admittance.

The meeting was called to order by G. D. Willis, Esq., president of the Grant and Wilson Club, who without delay introduced Judge Russell, who made one of his eloquent and convincing arguments. He was followed by Farmer Allen, for about one half hour, in one of his forcible and intrepid efforts, keeping the audience in a roar of laughter. The meeting broke up at a late hour with cheers for the speakers, candidates, &c.

There was a fine display of fireworks, illuminations, &c., particularly in the North Village.

The National Mount Wollaston Bank has declared a semi-annual dividend of eight per cent. payable October 1st.

THE METIS. The following is the decision of the investigation, of the recent dreadful accident of the Sound steamer Metis, and if it does not satisfy all, it will certainly gratify those who have followed the evidence. It is decided that the persons holding the responsible positions of captain and first and second pilots, on the ill-fated steamer were not qualified to fill their respective places, and their licenses are revoked. We trust that the lesson of the disaster will not be lost upon other commanders, and that the careless, reckless spirit, that has too often seemed to prevail in high quarters on the Sound steamers, may be manifested less hereafter than it has been heretofore.

COAL. The schooner Mary E. Rankin and Lydia Ellen, arrived at the Point the present week with coal. The first named vessel was laden with 391 tons of Webster, and the latter with 271 tons of Lincoln coal, consigned to D. H. Bills.

A young lady, on being asked where she was born native place, replied "I have none, I am the daughter of a Methodist minister."

THE steamboat running between New Haven and New York is carrying an enormous freightage of tea in chests. The boats can hardly furnish facility sufficient for the demand for this kind of freight. The tea comes from China and to New York, overland from San Francisco, and shipped from New York to Montreal, mostly by railroad. The continental had, last week, in transit for one man in Montreal 1700 chests. The boats are now doing a very heavy business in freight.

FOURTEEN tons of leather chips are often shipped from Lynn in one week, being sent to a factory in Amherst, where they are made into leather board.

The highest flag which has been "flung to the breeze" in Massachusetts, is a Greeley and Brown banner, which floats from the highest tree on the highest point of Wachusett Mountain, 2480 feet above the level of the sea.

It is reported that the women of Nantucket have formed a club for the purpose of securing husbands for its members. There are ten women in that town to one man, and the idea is to raffle for the men.

A Japanese scholar in one of the New Haven schools, having been insulted by a schoolmate, recently sent a note to one of the instructors, requesting permission to kill the offender.

There is a story that a livery-stable keeper in Boston bought two horses last week for \$1600, payable when Horace Greeley is elected.

All debts on imported articles from Japan in Japanese vessels are abolished, so long as that nation observes a similar relation to exports from the United States.

Greene Co., Iowa, farmers are harvesting thirty bushels of wheat to the acre.

ROMANCE OF THE TELEGRAPH. A telegraph clerk of London, who was engaged on a wire to Berlin, formed an acquaintance with and an attachment for a female clerk, who worked on the same wire in Berlin. He made proposals of marriage to her, and she accepted him without having seen him. They were married, and the marriage resulting from their electric affinities is supposed to have turned out as well as those in which the senses are more apparently concerned. These young clerks, however, were not very rash, nor did they marry without due acquaintance with each other, as many prudent persons might suppose for, according to Mr. Scudamore, a clerk at one end of the wire can readily tell, by the way in which a clerk at the other does his work, "whether he is passionate or sulky, cheerful or dull, sanguine or phlegmatic, ill natured or good natured."
